LEGAL NOTICES.

NOTICE IS HEREBY GIVEN THAT HENRY
Hartman, Mary P. Hartman and William B.
Somerville, all of the City of New York, have formed
a limited co-partnership, for the purpose of carrying
on the Wholesale and Retail Drug Business, Manu-
facturing, Buying and Selling all such goods as are
thereunto belonging, in the City of New York, under
the firm name and style of **HARTMAN & CO.**

Said partnership to commence April 1st, 1880,
and to terminate April 1st, 1885.

The said Henry Hartman and Mary P. Hartman are
the general partners, and William B. Somerville is
the special partner, and has contributed the sum of
twelve hundred dollars in cash toward the capital of
said Co partnership.

Dated March 29th, 1880.

**HENRY HARTMAN,
MARY P. HARTMAN,
by H. HARTMAN, Att'y,
WILLIAM B. SOMERVILLE.**

THIS IS TO CERTIFY THAT THE UNDER-
signed have formed a limited partnership
pursuant to the Revised Statutes of the State of New
York.

The name or firm under which such partnership
is to be conducted is **FEINBERG & CO.**

The general nature of the business intended to be
transacted is that of Purchasing Agents and Commis-
sion Merchants.

The names of all the general partners are as fol-
lows:

Moses S. Feinberg, who resides at San Francisco,
in the State of California, and Max Mayer, who re-
sides at San Francisco, in the State of California, are
the general partners, and Zadoc Staab, who resides
in the city of New York, is the special partner.

The amount of capital which the said special part-
ner, Zadoc Staab, has contributed as capital to the
common stock, is the sum of five thousand dollars.

The period at which said partnership is to com-
mence is the 31st day of March, 1880 and at which
it is to terminate is the 31st day of March, 1882.

Dated the 6th day of March, 1880.

**MOSES S. FEINBERG,
MAX MAYER,
General Partners.
ZADOC STAAB,
Special Partner.**

KRICKL, GOULD & CO.—THIS IS TO CERTIFY
that the undersigned have formed a limited part-
nership pursuant to the provisions of the Revised
Statutes of the State of New York; that the names, or
firm, under which said partnership is to be conducted
is **KRICKL, GOULD & CO.**; that the general nature
of the business to be transacted is the manufacture
and sale of stair-rods, step-plates, etc.; that the
names of all the general and special partners inter-
ested therein are as follows: Maurice Krickl, who
resides in the City of New York, State of New York,
and Robert S. Gould, who resides at East Orange,
State of New Jersey, are the general partners, and
James Jackson, who resides at Paterson, State of
New Jersey, is the special partner; that the said
James Jackson has contributed as capital to the
common stock the sum of five thousand dollars; that
the said partnership is to commence on the first day
of March, 1880, and to terminate on the first day of
March, 1885.

Dated February 28, 1880.

**MAURICE KRICKL,
ROBERT S. GOULD,
JAMES JACKSON.**

LEGAL NOTICES.

THIS IS TO CERTIFY THAT THE UNDERSIGNED
have formed a limited partnership, pursuant to
the Revised Statutes of the State of New York.

The name or firm under which such partnership is
to be conducted is **MOREWOOD & Co.**

The general nature of the business intended to be
transacted is that of General Importers and Commis-
sion Merchants.

The place in which the said business is to be car-
ried on is the City of New York.

The names of all the partners are as follows: John
R. Morewood, who resides in the City of New York;
William H. Lefferts, who resides in the City of New
York; Louis O. Henderson, who resides at New
Brighton, Richmond County, N. Y., who are the gen-
eral partners, and John C. Henderson, who resides at
New Brighton, Richmond County, and State of New
York, is the special partner.

The said John C. Henderson has contributed the
sum of seventy thousand dollars in cash, as capital to
the common stock.

The said partnership is to commence on the first
day of April, one thousand eight hundred and eighty,
and is to terminate on the thirty-first day of March,
one thousand eight hundred and eighty-five.

New York, April 1st, 1880.

**J. R. MOREWOOD,
WM. H. LEFFERTS,
LOUIS O. HENDERSON,
General Partners.
JNO. C. HENDERSON,
Special Partner.**

**NASH & HOLT,
Attorneys, 50 Wall st.**

H. L. HORTON & CO.—THE UNDERSIGNED
have formed a limited partnership upon the
terms following:

First.—That the firm under which such part-
nership is to be conducted is **H. L. HORTON & CO.**

Second.—That the general nature of the business
intended to be transacted by such partnership is the
buying and selling on commission of Specie, Stocks
Bonds and Securities.

Third.—That the names of all the general and
special partners interested in said partnership are as
follows: Harry L. Horton, residing at New Brighton,
Richmond County, New York; Joseph Trumbull, re-
siding at the same place; J. Frank Emmons, residing
at the same place, are the general partners. Davis
Johnson, residing at the same place, and Frederick
T. Brown, residing at the same place are the special
partners.

Fourth.—That said Davis Johnson has contributed
sixty-five thousand dollars, and said Frederick T.
Brown has contributed sixty-five thousand dollars as
capital to the common stock.

Fifth.—That the period at which the said part-
nership is to commence is the first day of April, 1880,
and the period at which it is to terminate is the first day
of April, 1882.

New York, April 1st, 1880.

**H. L. HORTON,
JOSEPH TRUMBULL,

J. A. HATRY & Co.—NOTICE IS HEREBY GIVEN
that a limited partnership has been formed by
the undersigned, pursuant to the Revised Statutes of
the State of New York; that the name or firm under
which said partnership is to be conducted is **J. A.
HATRY & CO.**; that the general nature of the busi-
ness intended to be transacted by said partnership is
the manufacture and sale of antiseptic and deodor-
izing compounds; that the general partner interested
therein is Joseph A. Hatry, who resides in the City of
Brooklyn, Kings County, New York, and the special
partner is Lewis H. Bullard, who resides in the City
of Brooklyn, Kings County, New York, that the
said Lewis H. Bullard, special partner, has contrib-
uted as capital to the common stock the sum of
twenty-five hundred dollars; that the period at which
the said partnership shall be deemed to have com-
menced is the 1st day of March, 1880, and the period
at which it will terminate is the 1st day of March
1882.

Dated New York, March 1st, 1880.

**JOS. A. HATRY,
L. H. BULLARD.**

C. W. SWEET,

No. 137 BROADWAY.

"THE RIVERSIDE AVENUE."

This avenue is now completed by the contractors, and the property-owners are much interested in having it opened to public travel. Mr. Christopher R. Roberts, who is the owner of a large tract on the avenue, has started a petition to the Park Commissioners, requesting them to have it opened on some assurance that they would act favorably upon it. Hon. James W. Deering has also for the property-owners, a proceeding in hand to compel the opening of the avenue to the public and the removal of the barriers which the contractors have set up, by a mandamus, or some other appropriate legal proceeding, by which the legal right of the contractors—in case they insist on it—to keep the avenue closed can be tested.

Mr. Decker, the contractor, has given permission to the Road Club, to pass over the avenue on Decoration Day, the 31st of May next, on their way to the races at Jerome Park. This is a new club, which includes the members of the Coaching Club and many others. In the Coaching Club, each member must own his own coach and four horses; but in the Road Club, two, three, or four members may combine in owning one coach. Col. William Jay is President of the Coaching Club, and Frederick Bronson is the President and Leonard W. Jerome the Vice-President of the Road Club. The Road Club are to start about noon on the 31st of May with sixteen four-horse coaches and, passing through Central Park, will leave it at Seventy-second street, enter the Riverside Park, and, passing up the entire length of the Riverside avenue, leave it at One Hundred and Twenty-second street and take the Boulevard on their way to Jerome Park. This is to be an exclusive privilege, and no one else is to be permitted to enter the Riverside Drive on that day. The Coaching Club are to have their annual Spring parade on Saturday, the 29th of May, but the courtesy of Mr. Decker is not extended to them, and they will keep within the Central Park, as they have done heretofore. It is gratifying at least, to know that some few favored ladies and gentlemen will be permitted to enjoy a drive over this avenue, which has been talked about so much and has cost so many millions. We hope they will think it worth the money, and that in the course of the summer some other party may be permitted to enjoy a drive over this part of the public domain.

The troubles of the contractors seem to thicken. They have not had any money for their work since November, 1878, although, it is now, in their view of it, about completed, and they are very anxious to get their money. The work done up to the 1st of January, 1880, was estimated by the engineers at \$528,166.95. Of this, 30 per cent. is reserved, until the final estimate at the comple-

tion of the contract. The contractors have received \$224,512.33, there are liens filed against them for \$59,364.49, and the engineers salaries have been \$48,681.20. These last three items amount to \$332,558.02. Deducting this from the January estimate, given above, leaves \$195,608.93 coming to the contractors, including the 30 per cent. reserve in case that estimate is correct. The work done since the 1st of January and up to the completion of the contract may amount to \$30,000 more, increasing the amount coming to the contractors to \$225,608.93. Unfortunately for them, the recent litigation between them and the banks who are their creditors, has shown, in the settlement they made, that there is \$67,500 due to one creditor bank and about \$170,000 to another, which, with the amount still due to sub-contractors and for materials, will more than absorb the amount above stated as coming to the contractors.

At this point, Commissioner Lane comes in with his damaging statements, and claims that the contractors, by reason of defective work and legal irregularities, are not entitled to one dollar of the \$225,608.93, which the engineers estimate would give them, and insist that this will clearly appear as soon as a correct engineer's estimate is made out. He says that a great deal of their work does not conform to the contract, that the \$15,000 charged for the parapet wall should be wholly deducted, that they have built a dirt road which will not last a week, in place of a stone road which the contract called for, and which it will cost \$50,000 to construct. That the mistakes about the temporary bridge at Eighty-sixth street and the error of five feet in grade from Eighty-sixth to Eighty-eighth street will cost \$25,000 to rectify, and that in addition to this, there are legal irregularities and errors in the work which will have the effect of invalidating the assessment, and which will reduce the total of the contract at least \$100,000. These are very serious questions, and in the interest of the property owners, the contractors, and the public, ought to be settled immediately. The matter has now reached a point where something will have to be decided, for three warrants have been sent from the Finance Department to Mayor Cooper to be counter-signed as follows: Davis Tillson, \$16,000; Charles H. Haswell and others, \$2,424.80; L. Lafliu Kellogg, \$12,500, and he cannot very well counter-sign these without forming some opinion on the merits of this controversy, particularly when he has so experienced a man as Andrew H. Green, the new Park Commissioner to guide him.

It would be a public misfortune if this matter were settled so as to make a void assessment, and throw the whole cost of the work on the City, as it is now a public misfortune that these contractors are permitted, without shadow of legal right, to exclude the public from so beautiful a drive.

THE OUTLOOK IN MINING.

The promoters of mining companies report an exceedingly dull market. The public, for the present, have had quite enough of mines and mining shares. In other words, the "boom" is

over, and the investing public are cured of any mania for mining stocks. The collapse of the Little Pittsburg did the business.

The situation stands thus: The rage of speculation having partly spent its force in the Stock Market, was directed towards mining investments as the next most promising field of operations. The remarkable developments in Leadville were taken advantage of to induce certain capitalists to invest largely in mining companies, with a view of disposing of their shares at high figures to the general public. The bank presidents and capitalists who gave their names to these schemes, had no notion of holding the shares they purchased, but expected to pass them over to their customers and the retail dealers. But the Little Pittsburg catastrophe, sharing, as it did, bad faith on the part of a number of heretofore respectable men, frightened the general public, and caused the whole speculation to collapse—at least for a time. There must be, at least, fifty important mining companies, representing tens of millions of dollars, whose stock is now in the hands of capitalists who have no market for it. The names of the companies one sees advertised in the papers does not tell half the story. It is, perhaps, well that the fever burnt out as soon as it did, for, had it continued, it would have been the general public, and not the rich promoters, who would have been injured. A good deal of the depressed feeling in the regular Stock Exchange, is due to the diversion of large sums of money into these unproductive channels, and the killing of the mining craze will have a favorable effect on the prices of other securities. We are saying nothing against mining as an industry. We have more mineral wealth than any nation under the sun. Our bullion product is greater than that of all the rest of the world put together, and yet we have but barely scratched the surface of our mines. In ten years time our present product will be doubled, but it is very desirable that mining should be prosecuted as a legitimate industry, and not as a stock speculation. Unfortunately for us, the city is now swarming with Californians, who intend to work the mining field for all it is worth to them. They are shrewd, adventurous, and generally very unscrupulous. Not satisfied with the mining field as developed here, they have organized a mining exchange of their own, of which nearly all the officers are Californians, while the membership will represent the Pacific rather than the Atlantic Coast. Some of the visitors have very poor reputations at home, and all the mining tricks which have created so much unpleasant comment in the West are being naturalized here in New York.

We feel very well satisfied with the course of THE RECORD. We have the satisfaction of knowing that alone of the press of New York, we have told the truth about mines and mining. The daily papers did not seem to be aware of what was going on when the fever first began to rage, and they came in at the death to help blow up a burnt out fire. The Graphic was the only daily paper that appreciated the importance of the movement into mining ventures, and it profited by its forecast. But the other daily papers are as blind now in commending this dying interest as they were last year in not realizing its importance.

We advise our readers to keep clear of buying mining shares. Not but what there are good mines in the market, but the trouble is that the temptation to take advantage of the general public is too much for the virtue of the managers of most of the mines. -Sooner or later there will be disappointment. There is no excuse for those who want permanent investments when real estate in this city can be had for such reasonable figures.

THE MUTUAL'S SUCCESSFUL SALE.

Now that the great Mutual Life sale is over we trust that the standard croakers, who delight in designating real estate as so much mud, will acknowledge that this sort of mud is in pretty good demand. Of course, the sale was excellently managed by the auctioneers, as well as by the Insurance Company, but outside management of any sort could not have brought that vast crowd together and kept them there for four-and-a-half hours, if that which was offered from the auction stand had not only intrinsic value but the germ of future pecuniary profit. It was indeed a test sale in the full meaning of the word, and the confidence of capitalists in the future of our city has thereby really been attested. No temporary lull in activity, such as characterized the few weeks preceding this sale, at all affected the determination of buyers anxious to possess certain choice parcels, and in not a single instance was there any halt or hesitation in the bidding. The spirit from beginning to end was indeed encouraging to all those dealing in or holding real estate. It became also evident that we have reached, at last, a state of affairs where everybody must understand that the losses sustained in the six years from 1873 to 1879, can not all be made up in a single year. This grand sale has taught over-anxious speculators and holders a very good lesson in this regard. It is, indeed, a new departure that will give tone and steadiness to our market, such as becomes the solid character of the property that forms its basis, and shows that realty in the City of New York is something more tangible than the pieces of paper that form the basis of a gambling stock market. The real estate market at all times should be regarded as the barometer which reflects the honest, solid wealth of our citizens. It needed perhaps all the miseries of the past to reach this position, and again the slight reminder of the past few weeks to convince those dealing in this kind of property that they cannot accumulate rich profits in a day, or even a month, but now that values have been honestly established, their increase will be simply a question of time, but only in proportion with the increase of actual wealth in our midst. For the first time in the history of New York, the vacant lots in the upper West Side are easy of access. No sale of such magnitude had taken place since the introduction of rapid transit, and those desirous of building can now do so with a fair show of early remunerative returns. Hence the representatives of capitalists like Tiffany, the Devlins, O'Donohue, King, Brown, Babcock, Livingston, and builders like Crimmins, McKenney and Dowdney displayed their anxiety in frequent bids. In many instances their figures were overreached by others, but the values established at the sale must be set down as exceedingly favorable to the investor, and yet also as a whole, satisfactory to the Insurance Company. Whether some streets were opened or not, or whether there was a larger or smaller quantity of rock on certain lots seemed but little to affect the energy of buyers, provided the locality was not too far from railway termini or horse car lines. The necessity of all this ground being wanted ere long for our increasing population, now that the East Side is built up, was uppermost in the minds of buyers. In taking hold of this territory for the purposes of ultimate improve-

ment, investors and builders did not bid recklessly but cautiously, showing that they had well calculated the surrounding circumstances and kept a steady eye on future assessments. Those who feared that this sale would break the market now see plainly how woefully mistaken they were. It has given strength to West Side property, which it needed, has made more men interested in its immediate improvement, and it will act as a precursor to other sales of vacant property soon to be made with still better success. It has been demonstrated that a vast amount of money is waiting investment in New York real estate. The Mutual sale has not quite absorbed three quarters of a million of it, and with other markets recovering their equilibrium during the summer months, there will be many more millions coming forward to be invested in the same manner.

In concluding our comments upon this important sale, we but reflect the unanimous opinion of capitalists, owners and brokers by stating that no sale in the Exchange was ever conducted in a manner more honorably and fairly than the one on Tuesday last. The constant presence of Mr. Winston, the President of the Company, along with all the members of the Finance Company, added authority to the well-known energy of the auctioneers, Messrs. A. H. Muller & Son. The extraordinary staying powers of Mr. Muller, senior, were the source of universal admiration and surprise. For fully four hours and a half the veteran auctioneer kept steadily at his work, never faltering an instant, never missing a bid, his voice as clear when the clock struck 4:30 P. M. as it was at twelve o'clock, and not even refreshing himself with a drop of water during those long, busy hours, when, owing to the rapidity of bidding not a moment's rest was vouchsafed to him. Other auctioneers of younger years envied Mr. Muller's physical strength, and openly acknowledged that it was, indeed, without precedent.

ELIGIBLE BUILDING LOTS AT AUCTION.

It is not surprising that immediately after the successful result of the Mutual Life sale, holders of vacant lots should seek the open market and give builders an opportunity to at once continue the work of improvement so necessary on the West Side. The scarcity of East Side lots compels all builders of energy to look more westward if they intend all to be kept busy during the coming season. An excellent chance, not only to them, but to investors and capitalists generally, will be offered on Wednesday next, 28th instant, when Mr. Richard V. Haruett will sell at auction, by order of Mr. John H. Deane, four eligible lots on the north side of Fifty-seventh street, and also four lots on the south side of Fifty-eighth street. These lots, which are situated 125 feet east of Seventh avenue, are all full lots, 25x100.5. They are excavated eight feet below grade, and exactly in the line of immediate improvements. Of course, it is superfluous for us to add here how choice this entire neighborhood is, now virtually the great centre of our city and rapidly increasing in density of population. It is important to state, however, that the Fifty-eighth street lots, as well as both sides of that street, are restricted against nuisances by the Tallman estate. The same is the case with the rear of the Fifty-seventh street lots. It will thus be seen that the entire neighborhood is sure to be occupied by nothing but private residences. In fact, along Fifty-seventh street, Mr. David L. Einstein will shortly erect a magnificent mansion, which will be in itself an ornament to that locality, and on the opposite side of this street Mr. John H. Sherwood is constructing a fine residence for artists, who never yet enjoyed more luxurious quarters in this city. Those numerous investors and builders who are seeking for eligible vacant lots, can do no better than be on hand on Wednesday at the Exchange salesroom and watch the excellent

opportunity here offered them. There is every indication that two or three months hence there will be a rapid advance in the price of this class of property, and those desirous of investing at yet reasonable figures should take advantage of the present state of the market before it is too late, as higher prices will certainly have to be paid in a very short time.

OUR LARGE IMPORTATIONS.

Everything seems to help swell the population of the metropolis. The mining business alone has brought literally tens of thousands of persons to spend their money and make more of it in this city. But now comes the great importing business, which has been under a cloud for the last seven years. Again English, French and German firms are beginning to occupy our down-town warehouses, and to import direct to New York as they did of yore. The importations of this city are heavily in excess of those of last year and they will continue to grow. There were such large profits in railway shares and bonds held abroad during the past year that the speculative element in England has bought largely of American securities. Indeed, the drain of gold from Europe here was due in some measure to the purchase of stocks for English and Continental capitalists. Our importing houses will not only require more room down-town, but the rich class who deal in imported goods will require accommodations for residences on our leading avenues. From now until the time when the great Fair is held, we may expect New York to have a steady addition to its rich men from this one source alone. What, with this city as a mining centre, as a manufacturing emporium, which it is destined to be, and, once again, the location for vast foreign importations as well as domestic exportations, there seems every reason to expect an addition to the numbers of our population and the value of realty on this Island.

THE NEW AUCTION BILL.

To the Editor of THE REAL ESTATE RECORD:

A bill to punish "Mock Auctions," has just passed the Assembly, which affects very seriously and unjustly the auctioneers of this city. The clause to punish mock auctions will of course meet the approval of every honest auctioneer.

But that auctioneers generally shall pay a license fee of \$500, or any fee to do business, *because there may be rogues to be punished*, is certainly wrong in principle, and must have the effect of driving worthy and reputable auctioneers, who earn a small but honest livelihood, out of business and concentrate it in a few hands. I trust, on these grounds, the bill, in its present shape, will meet with hearty opposition when it comes before the Senate, and be amended by striking out the license fee clause. Honest men, though poor, should be allowed to earn a living in all branches of business, and not be deprived of the opportunity by legislative enactment.

Respectfully yours,

D. M. SEAMAN.

[The above letter represents fairly the views of the majority of real estate auctioneers, though there are others who claim that if the business were limited to fewer individuals it would be more profitable. It is doubtful, however, if the new license fee would have that effect, and though the new tax may be necessary for the protection of respectable auctioneers in other trades, in the real estate business, at least, there are no auctioneers but men of reputable standing.—ED. RECORD.]

PAYMENT OF ASSESSMENTS.

(SPECIAL DESPATCH TO THE REAL ESTATE RECORD.)

ALBANY, April 23, 3 P. M., 1880.

The bill extending the payment of assessments, now limited to May 15th next, for another year, and reducing the penalty from twelve to seven per cent. during that period, is at this hour yet before the Governor. There can be no doubt, however, but he will sign it, as the various classes of property-owners have been consulted, and the same reasons that held good for the extension of time for payment of taxes, it is generally admitted, ought to be, and I think will be, accepted by the Executive in considering the assessment bill.

C. T.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages v. vi. and vii of advertisements.

The great field day at the Exchange Salesroom, on Tuesday last, when Messrs. A. H. Muller & Son sold, on behalf of the Mutual Life Insurance Company, nine parcels of improved property and 227 vacant lots; proved, indeed, as has been anticipated in these columns, a red letter day for the real estate market. Fully twenty minutes before the hour of noon, the dingy, long basement floor began to fill up with all sorts of people who, it could plainly be seen, did not come there for the sake of gratifying simple curiosity, but they were all men who either intended to buy for themselves or had orders in their pockets to purchase for other parties. When the Messrs. Muller and their clerks mounted the stand, they were speedily followed by Mr. Winston, President of the Mutual Life, Mr. Geo. H. Andrews and Mr. John H. Sherwood, members of the Finance Committee. By this time the entire space in front of the auctioneer's stand was crammed full of people, and so was the entire long room. There was actually no place to stand, much less to move about, and the entire affair had the appearance not as if property was to be auctioned after sharp and close bidding, but as if there was to be a prize distribution of lots. Notwithstanding the fact that before the day of sale the auctioneers had exhausted two full editions of the maps there was an extraordinary scramble for the books on the part of those who had not provided themselves in time. Without much ado and amidst the most perfect order, the Insurance Committee having been accommodated with seats on the stand adjoining that of the auctioneers, young Mr. Muller read the terms of sale and the old gentleman at once braced up to the labors of the day. Bankers, brokers, capitalists, lawyers in charge of trust funds and builders were now all attention and the first pages of the book were rapidly gone through with, they containing the improved parcels of property. The eminent law firm of Man & Parsons secured without much effort No. 166 East Eighty-third street for \$6,550, being a three-story brick and Mansard roof house. The four-story Nova Scotia stone high stoop house, No. 1308 Fifth avenue, between Eighty-fifth and Eighty-sixth streets, was purchased by Mr. A. Rumrill for \$36,750, but the house has been unoccupied for some time back. Five different gentlemen, whose names will be found in the list at foot, were each accommodated with a small seventeen foot house on East One Hundred and Twenty first street near Avenue A, at prices ranging from \$3,300 to \$4,450. This disposed of the greater part of the improved property, and, with a silence which enabled the rustling of the pages to be heard as plainly as in the parquette of an opera house, the vacant or rather speculative property was approached. Once more the auctioneer reminded the vast crowd of the terms of sale, and the lots on the north side of Sixty-sixth street East of Tenth avenue, some of which contain a good deal of rock, were offered. At once the bidding became lively, starting from \$2,000 per lot at \$100 bids quite rapidly till past the \$3,500. There was no hesitation, \$3,500 was soon overstepped, and in a very few minutes they were knocked down at \$3,850 each to Mr. Samuel Adams. Then Mr. Fairchild began bidding, and put still more life in the proceedings by securing for Mr. Yoran the Tenth avenue lot, the rear of which contains a great deal of rock, for \$2,950; and for the same gentleman the lot on the south side of Sixty-sixth street, almost adjoining a stable, for \$2,900. It was about this time that a feeling of general satisfaction began to make itself manifest among all those directly interested in the real estate market. The sale was considered a success, and proved so to the very end. With a single exception, which will presently be noted, it was evident that those bidding on the property had studied the respective localities, and fixed their minds upon certain prices. Capitalists in their bids were guided by brokers of experience, and an air of determination and business pervaded the vast assembly. The Boulevard and Sixty-ninth street corner (28x136x25x123.8), which three weeks ago might have been had from the Mutual at a lower figure, was purchased by Mr. Edward Livingston, for \$13,000; the three adjoining lots on the Boulevard, for \$9,000 each—by the same gentleman;

and also the Sixty ninth street lot for \$5,100. Before Mr. Livingston left the room a bona fide offer of \$1,000 advance on the corner lot was made to him, but he declined to listen to it. Since the day of sale a total advance of over \$5,000 on the entire property has been offered, the negotiations, though not broken off, having, however, not been consummated up to the time of our going to press. It is rumored, however, that Mr. Livingston, being satisfied with his purchase, will decide to hold on to it for the present, at least. The well known builder and contractor, J. D. Crimmins, next purchased the four Tenth avenue lots, between Seventy-third and Seventy-fourth streets, for \$4,000 each; these lots contain no rock and are ready for building. The eight lots on the east side of Tenth avenue, between Seventy-sixth and Seventy-seventh streets, called forth quite lively bidding. Mr. P. J. O'Donohue, tea-merchant, secured three of them at \$3,050 each. Mr. A. J. Meyer obtained three at \$3,400 each, while Mr. Yoran, through Mr. Fairchild, purchased the Seventy-sixth street corner for \$5,100, and Mr. Higgins the Seventy-seventh street corner, for \$4,150. Seventy-seventh street, not being paved, and there being considerable rock in that vicinity, the lots in that street brought \$2,550 each, while those on Seventy-sixth street, which has an excellent Belgian pavement, commanded \$3,800 each. These lots were sold with the privilege, and those containing most rock were first offered. When the purchaser was asked how many he wanted he took four, while he might have had six at same price. Of course, the two remaining lots being again put up, and, containing no rock, brought \$1,000 each. The two Third Avenue lots, near Ninety-seventh street, having a defective title, were withdrawn by order of Mr. Winston. The next parcel of interest was the Tenth avenue, Ninety-fifth and Ninety-sixth streets property—about fifty lots. Those on the avenue were sold to Messrs. Crimmins, Chrystie and O'Donohue, Mr. Crimmins paying \$5,350 for the southeast corner of Tenth avenue and Ninety-sixth street. The street lots were then sold in plots of four lots, two on each street, Messrs. Lespinasse & Friedman taking the first four at \$2,800, and six other purchasers each securing plots of four and eight lots at figures varying from \$3,100 to \$4,450 each. Before Mr. Friedman left the auction room he re-sold his four lots at an advance of \$300 each to Mr. Simeon Stern. It may be interesting to state right here that these lots originally belonged to the late John D. Phillips, who purchased them some twenty years ago for about \$150. A few years ago he mortgaged them to the Mutual Life at \$1,100, the company appraising their value at that time at \$2,200. It will be seen that notwithstanding taxes and assessments since paid by the company, the aggregate figure of over \$172,000 obtained for this large plot of lots on Tuesday, shows a fair and remunerative return for the investment.

Other Tenth avenue property on the corner of One Hundred and Fifty-eighth street, containing a frame house and composed of six lots, was purchased by Mr. H. P. Gray and Mr. Yoran. The Boulevard front, west side, between One Hundred and Thirty-ninth and One Hundred and Fortieth streets, was sold in two parcels, the four lots adjoining One Hundred and Fortieth street and containing a fine frame dwelling of good size being knocked down to Police Commissioner French for \$17,600, while the other four lots adjoining One Hundred and Thirty-ninth street were secured by Mr. Morris B. Baer, for \$11,000. The sixteen lots on the south side of One Hundred and Fortieth street, in rear of above, containing one frame dwelling and large brick stables brought the total sum of \$31,600. Mr. Carl H. Schultz, the mineral water man, being the purchaser.

As to the irregular lots on One Hundred and Thirty-sixth and One Hundred and Thirty-seventh streets, Tenth and New avenues, we must refer our readers to the details as given in the list at foot. They were all sold in plots of four and eight lots, and Messrs. E. J. King, McKenney, S. B. Waterman, H. Babcock, R. W. Cameron, and A. Lustig were the principal buyers. Mr. King also purchased the short lots between St. Nicholas avenue, Eighth avenue, and One Hundred and Twenty-second street, for \$3,300 and \$4,000 each, while Mr. R. H. L. Townsend bought those nearest One Hundred and Twenty-third street for \$5,100 each. Six short lots on the south side of One Hundred and Third street, west of Tenth avenue, were purchased by Mr. R. W. Cameron for \$1,800 each, the lots averaging 25x72. The Tenth avenue

corner was secured by Mr. Thornell for \$3,250, and the other avenue lots by Mr. Gray for \$4,100 each. All the vacant Fifth avenue lots were secured by Mr. McAleenan, two, 50.5, north of One Hundredth street, for \$13,525 each, and the three 75.8 north of One Hundred and Fifteenth street, for \$4,275 each. This ended one of the most important sales held for years in the Exchange Salesroom, and, at its conclusion, it being then near 4:30 P. M., several hundred persons were still in attendance. There were also present, many persons who bid too low, and did not secure a single lot. They expressed a determination not to hesitate such a length of time at the next auction sale. In another column we have commented at length upon the excellent management of this sale by all persons concerned, and the effect this sale has had already, and is likely to have upon the real estate market in general. The total amount of property thus disposed of by the Mutual Life foots up \$663,455.

There were other public sales of more or less importance during the week, of which full particulars are given below. We only note here the partition sale by Mr. Harnett of Hudson street property, between Bank and West Eleventh streets, which brought fair prices. Mr. William Lalor secured a bargain at auction by his purchase of No. 10 East Seventy-third street, a twenty two foot house not far from Central Park entrance, for \$29,000. Mr. Hugh N. Camp was the auctioneer.

According to all appearances, however, we have only but just entered upon the auction sales, and during the coming week, as well as the following, there will be offerings of some choice vacant lots in various parts of the West Side.

Taking them in chronological order, we must first call attention to the announcement made by E. H. Ludlow & Co., of their sale of valuable property belonging to the estate of Thomas Crane, deceased, to take place on Monday. The plot of ground is situate on Madison and Monroe streets, ninety-five feet east of Scammel street, about eight city lots.

On Tuesday, Mr. Harnett will offer sixteen lots with right to the land under water along the East River, Eighty-seventh street and Av B; also, on the same day, Ninth avenue property on the northeast corner of Sixty-first street. On Wednesday, by the same auctioneer, comes off the sale of the valuable building lots on Fifty-seventh and Fifty-eighth streets, between Sixth and Seventh avenues, all restricted against nuisances, and to which attention has been called more at length in another column.

On Tuesday, also, Mr. Kennelly will sell, by order of the Commissioners of the Sinking Fund, several parcels on the east side of the city belonging to the corporation. On the same day, Mr. Bernard Smyth will offer an elegant house on Sixty-fifth street, only 150 feet east of Fifth avenue.

Valuable Harlem lots will be offered by the Messrs. Muller, along One Hundred and Twenty-eighth and One Hundred and Twenty-seventh streets, on the same day.

On Thursday next Messrs. A. H. Muller & Son will sell, by order of trustees, sixty-two valuable lots on Madison avenue, Eighth avenue, Sixty fifth street, near Fifth avenue, Seventh, Eighth, Ninth and Morningside avenues, and also along One Hundred and Ninth, One Hundred and Tenth and One Hundred and Eleventh streets. The Sixty-fifth street lots are now ready for building. On the same day, by order of the executors of the late Valentine Mott, the remaining twenty six lots and gores forming part of the estate, and situate along the Grand Boulevard, Eleventh avenue, Riverside avenue and Ninety fourth street, will be sold by Mr. Bleecker.

GOSSIP OF THE WEEK.

Of course the great sale has been the main topic of conversation in real estate centres, and is, with one accord, voted a success, in so far, as for the first time since the revival of activity, values have been established. To show that everybody interested is satisfied with the result, we give the views as expressed on the one side by an officer of the company, by Mr. Muller himself, and by another auctioneer. On the day after the sale, an officer of the Mutual Life Insurance Company said: "The prices obtained were much better than we expected, and the sale has not hurt the market, as some real estate men feared, but, on the contrary, has benefited and improved it, and this fact, I think, will now be admitted by all. The property on the block between Tenth and Eleventh

avenues and One Hundred and Thirty-fifth and One Hundred and Thirty-sixth streets, was sold at the lowest figure, but this was probably due to its irregular shape. I think that real estate, especially on the West Side, will advance in price, and this is shown by the fact that the sale drew a large crowd of eager, interested bidders, the majority of whom bought for investment."

Mr. Adrian H. Muller, Jr., said: "The total sum was more than we expected the property to bring. A few lots, of course, which were not as desirable as others, did not fetch so good a price. The lots on the upper part of the Island brought much better prices than we had any reason to believe they would bring. For instance, some lots on the corner of Eighth avenue and One Hundred and Twenty-third street were sold for \$5,100 apiece. These lots are about twelve feet below the grade, and One Hundred and Twenty-third street is not cut through. I do not mean to say that this price was more than the value of the lots, for I think that the purchaser got a good bargain, but the prices were so much better than any that have been obtained lately that we were more than pleased."

Mr. Harnett said: "The prices were the highest which have been offered at any time since 1874, but it would require a further advance of about 50 per centum to reach the highest prices obtained for real estate before the panic of 1873. The prices obtained are certainly more than double the amount which could have been secured in 1874. Lots which were sold for \$4,000 would not have brought more than \$1,200 or \$1,500 in 1874, and it would have been hard work to get rid of them at those figures."

The immediate effect has already been noticeable on the market, several private transactions having been reported to us at the close of the week.

Messrs. Lespinasse & Friedman sold to Messrs. Dinkelspiel & Heyman, at private contract, four lots on the north side of Fifty-seventh street, 200 feet east of Sixth avenue, for \$120,000. Mr. W. P. Seymour has since resold these lots for D. & H. to Mr. O'Reilly, the builder, for \$130,000.

Messrs. L. J. & I. Phillips have sold four lots on the south side of Seventy-second street, 175 west of Eighth avenue, belonging to the Lane estate, for \$57,000, to Mr. Thos. B. Kerr; they have also sold at private contract for Mr. John A. Stuart, two lots on the south side of Sixty-ninth street, between Lexington and Third avenues, for \$8,000 each.

The same firm has sold two lots on the north side of Eighty-fourth street, between Fifth and Madison avenues, for \$32,000; also, some Eighth avenue property, below Seventy-second street, of which they refuse to give particulars. We might say right here, speaking of Eighth avenue property, that a well authenticated report reached us yesterday, that Governor E. D. Morgan intends, at a very early date, to begin improvements and build on the Eighth avenue fronts, between One Hundred and Third and One Hundred and Sixth streets, purchased a few months ago from Homer Morgan.

Mr. Henry A. Cram has sold the plot at the southeast corner of Madison avenue and Sixty-second street, 100x100.7, for \$87,500.

Messrs. Crevier Brothers have sold, for the German Savings Bank, two lots on the south side of One Hundred and Sixtieth street, west of Tenth avenue, and frame houses for \$6,850, to E. J. F. Gaynor.

Mr. William Kennelly has purchased for his own use the residence of the late Miles O'Reilly, No. 58 West Forty-seventh street, for \$30,000.

Mr. V. K. Stevenson, Jr., has sold the four-story residence, No. 572 Madison avenue, for \$48,500.

The Westminster Hotel, corner of Sixteenth street and Irving place, has been leased for five years to Mr. William G. Schenck, of the old Merchant's Hotel on Courtland street, for \$25,000 per annum. Mr. Schenck is one of the most successful hotel keepers in our midst, and during more than a quarter of a century has acquired a reputation for probity and energy, which in itself will prove a fortune to him in his new uptown surroundings. The lease was effected through the efforts of Mr. Edwin B. Dow, of 181 Broadway.

It came to our knowledge yesterday, from what appeared to be an authentic source, that the new Opera Company have definitely fixed upon a site below but not far from Fifty-seventh street, the information reaching us at too late an hour to gather further particulars.

From Brooklyn we hear of the sale of seventy-four more lots of the Lefferts estate at private contract, and that negotiations are pending for the balance of the estate. Mr. Geo. W. Sickles has sold at private contract a three-story brick building on Degraw, near Smith street, to Mr. MacDonald for \$1,800. Several Brooklyn brokers state that they have done more business this spring than during the past four years.

From other parts of Long Island we hear of the purchase of the farm of John Sammis at West Neck, Huntington, by Ex-alderman Jenkins Van Schaick. Twenty acres of land at Sayville have been sold for \$2,000. The Murray farm at Woodbury has been sold to Mr. Nostrand for \$11,000. It comprises 150 acres of land.

In this connection we call the attention of our readers to an advertisement in another column where twenty lots near the Atlantic Docks, Brooklyn, are offered for sale or to lease on favorable terms.

The following are the sales at the Exchange Sales-room for the week ending April 23:

* Indicates that the property described has been bid in for plaintiff's account:

Boulevard, s e cor 69th st, 23.64x136.8x25.5x123.8, to E. Livingston	\$13,000

CIRCULAR LETTER.

To Architects, Engineers and Mason Builders:

GENTLEMEN:—Permit us, through the valuable medium of the REAL ESTATE RECORD AND BUILDERS' GUIDE, to call your special attention once again to our Saylor's American Portland Cement, and ask you to note particularly the progress we have made to date with our home product against cement of foreign manufacture.

We are now entering upon our sixth year, and the following recapitulation of the results of our past efforts we think a sufficient guarantee that our Saylor's Portland Cement may be approved, recommended, specified and used instead of goods of foreign manufacture (and with perfect confidence), by gentlemen of the above professions.

"Saylor's" Portland Cement was first presented to the trade in 1875, and, although there has been a deep-seated and strong prejudice in favor of foreign and against American Portland Cement, our progress has been constant, steady, rapid and permanent, as the following report will show.

See recapitulation of sales to Jan. 1st, 1880:

For the year 1875	over 1,700 bbls.
" " 1876	" 3,800 "
" " 1877	" 13,500 "
" " 1878	" 18,000 "
" " 1879	" 29,000 "

Total 66,000 bbls.

See recapitulation of where placed:

Mississippi Jetties over 12,000 bbls.
Department of Docks, N. Y. 11,000 "
New York and Brooklyn Bridge, Hudson Tunnel Co., Department of Public Works, N. Y. (Croton Aqueduct and Sewer Department), Department of Improved Sewerage, Boston, Mass., New Capitol at Albany, N. Y., and Des Moines, Iowa, Department of City Works and Department of Parks, Brooklyn, N. Y., Sault Ste Marie Canal, Patent Office and National Museum, Washington, D. C., New Jail, Brooklyn, N. Y., Soldiers' Monument, Manchester, N. H., J. & L. Weber, Mason Builders, N. Y. (the Messrs. Weber have used several thousand barrels for brewery works, foundations, floors, &c.). Also for numerous railroads and other large corporations; Cistern and Tanners' Vat Work, Sidewalks, Park Walks, Foundations for Machinery, Gasometers, &c., and for any and all work where none but the best article of foreign cement has been used hitherto.

To all in above professions, who take an interest in advancing the sale of home production of real merit, we invite your attention, and ask that you investigate and prove for yourselves the quality of our brand. All architects, engineers and masons who have tried and proved, and who are calling for Saylor's Portland in their work, we shall be pleased to hear from by postal card, as there are many who have adopted its use with whom we are not acquainted.

With the assurance that you can rely upon the even quality of our goods, we solicit your favor.

Very respectfully,

JOHNSON & WILSON,
General Agents, 93 Liberty St., New York.

BUILDING MATERIAL MARKET.

BRICKS.—Some little irregularity has been shown on the market for Common Hard's, but without resulting in changing the general range of values, and, if anything, the selling interest may claim to have fairly retained the advantage. At times, the amount of stock afloat has temporarily accumulated, but as a rule there was a very good balance between supply and demand, and the consumption promises to continue full for some time to come. As we write, the rates stand at about \$8@8.25 for 'Up Rivers,' and \$8.75@9 for Haverstraws, with an occasional choice cargo at \$9.25, and we are informed that most of the really fancy brands are still held back. The remaining stock of old Brick, however, now at the primary points is likely to move forward with greater freedom, indeed, some anxiety to ship has been shown in several instances as manufacturers are desirous of clearing up, in preparation for the new stock. The probable date when new Brick can be expected upon the market is as yet very uncertain, but some negotiations for future delivery have been in progress, in which the sellers were among those likely to be about the first ready, and they, without positively naming a day, intimated quite strongly that arrivals might be looked for not far from the 10th of May. All accounts still agree that there is every prospect for a liberal production. The demand for Pales has continued good, and at full former rates, with the supply all disposed of, and more wanted. Fronts without much of a market in view of the slight stock available, and an indisposition among buyers to close upon many parcels for future delivery, although manufacturers assert that they have figured rates down to about as low a figure as they are likely to go.

HARDWARE.—From some sections the demand has been large, but there is no general improvement in the volume of business, and the market as a whole still fails to assume a really satisfactory position. In fact buyers commence to feel that the natural tendency of the position is in their favor and few, if any, will move except on the pressure of actual necessity. Values are still held in many cases by "main strength" but in occasional instances signs of weakness are shown, though on the other hand some manufacturers add a trifle to cost. The production generally is being conducted with greater caution and except contracts are unfilled manufacturers are cutting down the output of supplies. The changes announced of late are as follows: The Stanley Rule and Level Company have issued a revised price list of "Victor" and "Defiance" Adjustable Planes, and announce a uniform discount of 20 and 10 per cent. on all Planes. The Pump Manufacturers' Association of the United States have adopted the following discounts: Cistern and Pitcher Pumps, 35 per cent; Drive Well Yard, and Set Length Lift, Set Length Force and Well Force Pumps, 30 per cent; Iron and Brass Cylinder Force Pumps, with or without Windmill Top, Single or Double Acting, for hand use; Brass Cylinder Cistern and Pitcher Pumps, Hand Boller Pumps and Rotary Pumps for hand or on frame, 25 per cent; Hydraulic Rams, 20 per cent; Garden Engines, 20 per cent; Windmill Force Standards, 40 per

cent; do do do anti freezing, 50 per cent. The Brass Manufacturers have changed the discount on entire list from 10 per cent. to 20 per cent.

LATH.—The alleged commercial journals gravely tell their readers that "holders of lath offer their stocks freely at \$1.75." It is possible that the holders from whom the above valuable (?) information is obtained may "offer freely at \$1.75," and, if so, it is about all they do, as scarcely a receiver has thought of asking more than \$1.65 all the week, the bulk of the business transacted in the ordinary wholesale way was at \$1.60, and we hear of sales for prompt cash and easy delivery as low as \$1.55 per M. There is not, however, signs of any positive depression, but on the contrary we still find an under current of considerable hope and confidence among wholesale dealers. Of late the market has been laboring under the influence of pretty full arrivals and competition from accumulations held on speculation. The latter, however, are working out pretty rapidly, and the ruling prices are likely to prove more effective than anything else in checking the arrivals, and, as consumption promises well, a change for the better on prices is naturally looked for.

LIME.—A better tone has been manifested on this market since the writing of our last report. Offerings of stock were not so free, either on spot or to arrive, buyers manifested a better inclination to move both through the attraction of the low prices ruling, and the increasing consumption, and thus threw the advantage into the hands of sellers. On Rockland Common the cost was advanced to \$1, and on Finishing to \$1.25, with the State grades following in sympathy. At the improvement, the feeling is firm as manufacturers still have only a limited margin, if any at all, and are not likely to ship with much freedom.

LUMBER.—The weak spots in this market are still exceptional, and in no case so decided but that a very small influence of positive character would bring a renewal of strength. Indeed, even where the selling interest is, for the time being, compelled to ease off a trifle, no discouragement is shown, and it is accepted as simply the natural pruning off of the sharp edge of the "boom." Of course, some are dissatisfied, and a few appear to have a touch of the "blues" for some unexplained reason, but they are fairly balanced by a limited portion of the trade, who talk as if in expectation of steady advance in the price of lumber all summer and up to the close of navigation. The more conservative and majority of the trade, however, simply accept a cheerful, hopeful view of the situation, which points to a continuation of the present good demand, with the chances favorable for an increase, both on home and foreign account, with such natural fluctuations on value as may arise through ordinary influences. The selling interest is considered to have secured about the top rates warranted by the situation, but there is no reason now shown through which buyers should expect a radical reaction, and appearances would indicate a fairly steady general market for some time to come.

The serious break in the canal at Utica causes some apprehension, as considerable delay in the movement of lumber Eastward is likely to follow.

Spruce, since the slight shading made early in the month, seems to have become a little more steady, and all desirable parcels of late coming to hand have been disposed of without much difficulty. Some receivers think they have secured a fractional addition to values, but when the circumstances of delivery, etc., are considered there was no actual gain for the seller. Indeed, the check to the declining turn cannot be accepted as showing the probability of a reaction on the upward scale, and it is likely that even still further shadings may have to be made as the season progresses. Supplies accumulated here and expected, balance the consumption indicated for some time ahead, the call for bids and specifications is smaller, and manufacturers commence to offer for comparatively near future on rather easier terms. It is possible that a choice special would now command \$18, but \$17@17.50 about general top, and randoms from \$17 down to \$15.50, and common even lower.

White Pine without much change. Some little irregularity of expression is to be heard among the trade, but the majority agree in calling matters promising and values are well supported throughout. Efforts to reach desirable stock have again proven unavailing, either through the fact that buyers have been in "just a little ahead and secured the lot," or owing to the extreme limit of valuation standing above a parity of this market. Supplies here are moderate and do not increase as a great many, if not the bulk of the recent arrivals, went directly to fill contracts, either on home or shipping account. We quote at \$17@18 per M. for West India shipping hoarua; \$22@25 for South American do.; \$16.50@17 for box boards; \$17.50@18 for do. wide and sound do.

Yellow Pine retains a firm position and the entire line of dealers speak in the most cheerful and confident terms of the condition of the market, present and prospective. Anything in the way of a random coming to hand receives immediate and direct attention at full rates and the orders tendered for specials show no abatement, with a great many buyers willing to pay a premium for early accommodation. The agents who make a specialty of export orders report some falling off in the call from Europe, but that is no more than natural after the liberal quantities already forwarded. The mills, however, have a full line of orders, and there is little probability that they will turn out any surplus stock for a long time to come.

We quote random cargoes at about \$24@26 per M; ordered cargoes, \$25@27 do; green flooring boards, \$2@27 do, and dry do do, \$26@28. Cargoes at the South \$18@18 per M. for rough, and \$22@24 for dressed at Atlantic ports; \$15@16 for rough, and \$20@22 for dressed at Gulf ports.

Hardwoods continue in moderate supply, the demand very good, rather on the increase, if anything, and the position for all kinds is well supported. Manufacturers' wants are keeping up to a pretty full total, some are on the increase, and, as they seem inclined to draw supplies from here instead of going to the primary points, dealers feel the want of a larger and better assorted stock. Supplies are not accumulating in the interior, and manufacturers' views on price are full. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple, \$30@35; chestnut, 1st and 2d, \$30@35; do. cills, \$18@20 do; cherry, \$45@75 do; white wood, 1/2 and 3/4 inch, \$25@27.50, and do. inch, \$30@35 do.; hickory, \$35@45 do, for Western, and \$65@75 for good nearby stock.

Among the yards the reports obtained are of a cheerful character generally, and no dealer who has any kind of an assortment to offer appears to experience much difficulty in securing a customer. Values are well maintained on all grades.

From among the lumber charters recently reported we select the following:

An Am ship, 2178 tons, from St. John, N. B., to Liverpool, deals, 60s; a SWE barque, 524 tons, from St. John, N. B., to Bristol, deals, 62s 6d; a Br ship, 1060 tons, same voyage, deals, 61s 9d; an Am ship, 1203 tons, same voyage, 6s 6d; a Br brig, 416 tons, from St. John, N. B., to East Coast Ireland, deals, 60s; an Am barque, 312 tons, from Brunswick to Tenerife, lumber, \$16; a schr, 365 tons, from Richmond to Bilbao, white oak ties, and back to New York, iron ore, £1,000; a schr, 199 tons, hence to Cape Hayti, lumber, \$8; a brig, 362 tons, hence to Ponce, P. R., white pine lumber, \$6; a brig, 232 tons, from Calais, Me., to Curacao, lumber, \$1,500; a brig, 452 tons, from Portland to Havana, sugar shooks and heads, 24c; a brig, 212 tons, from Portland to Point-a-Petre, cooperage, \$1,200; a brig, 438 tons, from Portland to River Plate, lumber, \$14 net; a schr, 250 M lumber, from Fernandina to New York, \$3; a schr, 261 tons, from Norfolk to New York, lumber, \$3 25; a schr, 300 tons, from Bangor to Savannah, ice, \$2.50, and back to Gildersleeve's Landing, Conn., lumber, \$8, landing deck load at New York, \$7 25; a schr, 280 M lumber, from Pensacola to New York, \$9 25; a schr, 190 M lumber, from Jacksonville to New York, \$8.25; a schr, 260 M lumber, from Pascagoula to Boston, \$9 25; a schr, 300 M hewn timber, from Darien to New York, \$9 75; a schr, 210 M lumber, from Darien to Waldoboro, \$8.50; a schr, 266 tons, from the Potomac to Boston or Bath, oak timber, \$4.50 per ton; a schr, 160 M lumber, from Satilla River to Boston, \$8 50; a schr, 118 tons, from Bucksville, S. C., to New Bedford, lumber, \$9.50; a schr, 111 tons, from Calais to a port on Long Island, lumber, \$3; a schr, from Richmond to New York, oak ties, 16c; a schr, 300 M lumber, from Savannah to Bath, private terms.

Exports of lumber from the port of New York:

Total.....	1,685,067	21,379,413

STATE.

The Albany lumber market, for the week ending April 20th, is reported by the *Argus* as follows:

There has been a fair business for the season in the district since our last report; still the general trade has been about as quiet as is customary prior to receipts by canal. We have not any change in quotations. The knowledge among Southern and Eastern buyers that our stock of Pine lumber is light and that there is not any Coarse Lumber in the district and will not be until we have receipts by canal, keeps them away. In about a week or ten days our supply of both Pine and Coarse Lumber will be ample. Orders, however, for Coarse Lumber are coming forward freely.

The lumber trade at New York is temporarily depressed owing to strikes, the high price of building materials, etc., but this will no doubt adjust itself as the season advances.

In Canada there is no Lumber to buy; the product of all the mills has passed from first hands.

In Bay City no change is reported; the feeling is one of firmness; dry stock is in limited supply; sales round lots of 3,000,000 feet and 1,000,000 feet at \$7, \$14, \$30, and 1,100,000 feet and 500,000 feet at \$7 50, \$15, \$35. At East Saginaw not much activity; sales 1,500,000 feet to be cut, at \$7, \$14, 35; 1,800,000 feet dry at \$7, \$14, \$30, and \$8, \$16, \$35.

At Chicago cutting prices is still the order. The *Tribune* says "prices are all to pieces" in the Lumber market of that city.

The receipts of Lumber by lake at Buffalo for the week are 4,073,000 feet; by rail 70 carloads. At Oswego by lake 2,738,000 feet.

Freights from Saginaw to Buffalo are \$2.50 per M feet; from Tonawanda to Albany, \$2.25 per M feet; last spring, \$2. Lake Ontario freights to Oswego \$1 per M feet, and \$1 80 from Oswego to Albany.

The Tonawanda *Herald* spreads as follows: More Lumber Facilities—On Monday last there arrived in this village the first installment of 150 new

lumber cars built by the New York Central Railroad specially for the accommodation of our large and rapidly increasing local traffic in that valuable commodity. They are of the regulation pattern, known as long lumber box cars painted brown, with a prominent inscription in white which reads thus: "Tonawanda Lumber Line." This is the first step in a series of systematic efforts to increase our facilities for shipment of lumber to all points East and South by rail, and bring into prominence the name and fame of Tonawanda as an important wholesale lumber market.

The Lumbermen's Association of this place can well congratulate themselves upon the considerate manner in which they have been treated by the authorities of the New York Central & Hudson River Railroad, and anticipate better time hereafter than they have ever before experienced. Our citizens, too, will promote their best interests by encouraging the lumber trade and the lumbermen in all their efforts to attract trade and enterprise, for their success in all their undertakings means material wealth and prosperity for the entire community.

THE EAST.

The Fairfield, Me., *Pine Tree State* says:

From all the sources from which we have been able to get any information on the cut of logs in this State, we estimate the winter's operations as follows:

Penobscot River and tributaries.....	126,000,000
Kennebec River and tributaries.....	115,000,000
Androscoggin River and tributaries....	30,000,000
Saco River and tributaries.....	15,000,000
Union River and vicinity.....	15,000,000
Other localities	10,000,000

Total for the State..... 311,000,000

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette Office,

BAY CITY, April 20, 1880.

The inquiry for lumber continues to be sufficient to back up the views of holders, who continue firm in their disposition to ask outside figures for good stock. The offers of the week have been more numerous than the sales. There has already been so much sold ahead of the cut that manufacturers are refusing to take any further orders at the mean price prevailing. An offer of \$7, \$14 and \$35 for 2,000,000 feet, and \$7 and \$14 for 500,000 feet was refused. Quite a number of small sales are noted at the range of the market: 800,000 feet at \$7, \$14 and \$32, and 2,000,000 feet at \$7, \$14 and \$35.

Shingles are scarce and prices firm at \$2 for clear butts, and \$3 for XXX. Commission men say they are unable to buy shingles at less than these rates. The stock of lath is low and prices firm.

Lake freights on lumber are: Bay City to Buffalo and Tonawanda, \$2.50; Saginaw to same ports \$2; Bay City to Ohio ports, \$2; East Saginaw to same ports, \$2.25. The amount of lumber which has already been shipped is quite considerable, as will be seen by the report below.

The mills are are starting up and will soon all be cutting, as the booms are beginning to tie out logs. We quote cargo rates:

Three upper qualities.....	\$30 00@35 00
Common.....	13 00@15 00
Shipping culls.....	6 50@7 50
Lath.....	@ 1 75
Shingles.....	@ 3 00

OFFICE OF LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, Minn., April 15, 1880.

It has been repeated in the Chicago dailies for the last two months that somebody among the lumbermen was going to move, and were cutting prices to run down stocks. This was a thin story in the beginning and has grown more attenuated every day since but it has to some slight extent demoralized, what promised to be the firmest market ever known, this spring. It is to be hoped these fellows will do their moving before long so that every lumberman in the West will not take a notion to move, in which case somebody will get squeezed for another year or two. The stock of logs in the West is ample to run the mills steadily until winter. Nearly all of them are now in operation. All the Eastern markets are reported firm. St. Louis is meeting the cuts made at Chicago and doing a fair business. Large invoices are being received and with a little swapping, all orders are filled promptly, the shipments running from 500 to 700 M per day. The hardwood trade is especially brisk. The prices on walnut have been materially advanced during the week. The other river towns are also enjoying a fair trade. Many of the stocks are broken up so badly as to make it difficult to do business with them, but the demand for green piece stuff which can now be supplied, helps out seriously.

Log driving is progressing satisfactorily on all the streams, and will undoubtedly be a short season. After this year the system of driving logs will be revolutionized by the government reservoirs, which will do away with all uncertainties involved in this branch of the business.

NORTHWESTERN LUMBERMAN, }
CHICAGO, April 15, 1880. }

The Chicago market is in a demoralized condition still, and this has had the effect to check receipts and to hinder sales. This statement must, however, be taken in a qualified sense, as the comparative receipts of the week are slightly in excess of the corresponding week of last year, the total receipts since January 1 being 11,200,000 feet in excess of the corresponding three months in 1879. Of the shipments the

same may be said, those of the past week being 1,340,013 feet in excess of the corresponding week of last year, while the shipments for the three months show an increase for the current year over last of 7,183,018 feet. In shingles, the week's receipts fall short 5,325,100 from those of the corresponding week of 1879, while the shipments are about 2,000,000 greater, the total receipts for the three months being less by 2,932,000, while the total shipments for the same period have been in excess of the former year by 13,608,000. The reduction of stock in the yards during the month of March amounted to 75,543,830 feet. When, therefore, we speak of dulness in this market, it is but in comparison with the hopes which had been entertained of a still heavier trade. That it has not been heavier is no doubt due to the issuance of cut lists, which has led country buyers to believe that it will be a better time to purchase by and by, when the Chicago trade gets a little more demoralized.

At the cargo market but few loads have been offered as yet, and these principally of green piece stuff, which has been sold at about \$9, one cargo bringing \$9.12 1/2, and a small one of short lengths from White Lake selling at \$9.50. On the 14th inst. cargo of red knot and apparently very desirable strips from Ludington, was held at \$14.50, although green from the saw, and a cargo of Manistee piece stuff was held at \$9.50. A deck load of small timber from 6x6 to 8x8 and 8x10 was held at \$13. The offerings have not embraced any quantity of dry lumber, but two cargoes of Grand River mill run of fair quality boards and strips, sold on the 12th inst. at \$14.50@15. Shingles have sold at \$2.25 for extra and choice A, with fancy brands at \$2.50. There is no animation in the cargo market, and there is not likely to be until after May 1, when general opinion points toward a settled and active business.

Freights are decidedly off. Charters for lumber from Muskegon to this port are rumored as low as \$1 but we have been unable to learn of anything below \$1.25, which is now the ruling price, wito \$1.50 from Ludington, Mich., and the same from Manistee.

METALS—COPPER.—Ingot has again shown some little irregularity with the tendency rather in buyers

favor, but holders not offering stocks freely are not making any special effort to realize. As we close the quotation on Lake stands at about 21 1/4@21 1/2c.

Manufactured copper in moderate demand and remains nominally steady. We quote as follows: Brazier's Copper, ordinary size over 16 oz per square foot, 34c per lb; do do, 16 oz and over 12 oz per sq foot, 36c per lb; do do, 10 and 12 oz, per sq foot, 38c per lb; do do, lighter than 10 oz per sq foot, 40c per lb; circles less than 84 inches in diameter, 37c per lb; do 84 inches in diameter and over, 40c per lb; segment and pattern sheets, 37c per lb; locomotive fire box sheets, 34c per lb; Sheathing Copper, over 12 oz per sq foot, 32c per lb, and Bolt Copper, 34c per lb. IRON.—Scotch Pig has not been much sought after, and while parcels in store are held at about former rates, offerings from wharf are occasionally made at a considerable reduction. We quote nominally at \$2@29 per ton according to brand and quantity. American Pig remains dull, the reduced cost failing to attract demand, and sellers declining for the present to make any further concessions. We quote at \$33@34 per ton for No. 1; \$30@32 do for No. 2; and \$28@30 for No. 3. Rails have been a trifle more active, principally in steel, but the offering fair and prices on the whole favorable to buyers. We quote at \$55@ 0 for iron, and \$70@75 for steel, according to delivery. Old rails \$34@35 per ton; scrap, \$33@38. Manufactured Iron is very much neglected and actual values quite uncertain. Former list figures are named but they are, without doubt, very extreme on all grades. Nominally we quote Common Merchant Bar, ordinary sizes at 37 from store, and Refined at 4c; wrought beams at 46c@47c. Fish plates quoted at 38c; track bolt and nut, 4c; railway spikes, 5 1/4@5 1/2c, tank, 48c; horseshoe 47c; angle, 4 3c; best flange, 63c; and domestic sheet on the basis of 5@5 1/4; for common, 10@20. Other descriptions at corresponding prices with 1-10c. less on large lots from cars. LEAD.—Domestic Pig has had a pretty firm market, and, while the demand was in the main of a jobbing character, it took out a pretty full aggregate of stock. We quote 5 1/2@5 3/4c. The manufactures of lead are firm and quoted: Bar, 7 1/2c; Pipe, 8c, and Sleet, 8 1/2c. less than the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 45c. on same terms. TIN.—Pig was rather under neglect, and the market in quite a dull and stupid position. Holders, in most cases, appear anxious to unload their stocks, but find no outlet even with a liberal concession hinted at. We quote 18 1/4@18 3/4c. for Australian, 19@19 1/2c. for Straits, 19@19 1/2c. for English Refined, 18 1/2@18 3/4c. for do. Common. Tin Plates have, as a rule, found only a jobbing demand, the liberal supply was freely offered and prices continued weak and unsettled all around. We quote I. C. Charcoal, third cross assortment, \$8.25@8.50 for Allaway grade, and \$8.5@8.75 for Melvin grade; I. C. Coke \$6@6.25 for B. V. grade; \$6.25@6.50 for Yspitty grade; Charcoal terme \$7@7.25 for Allaway grade, 14x20; \$15.50@15.62 1/2 for do., 20x28; Coke terme, \$6.25@6.50 for Glais grade, 14x20, and \$14@14.12 for do., 20x28—all in round lots. Spelter net with a rather slow and uncertain demand, and values inclined somewhat in buyers favor. Quoted about 6@6 1/2c. according to brand. Sheet zinc moderately active and about steady at 8 1/2@8 3/4c. according to quantity.

OILS.—The distribution of most kinds continues moderate but still comparatively steady and a reasonably full aggregate is reached. On the majority of stock prices are maintained for jobbing parcels but cost from first hands weakens. We quote Linseed oil at 78@80c from crushers' stock.

PAINTS.—A steady and pretty full demand continues for johhing parcels and the market appears to be in a satisfactory conditon to dealers generally. Some points in the interior have as yet failed to call for the amounts expected, but others have gone beyond calculations and the aggregate distribution does not suffer. Local demand is also very good and at pretty full rates. From first hands the distribution is not very free, hut stocks are well under control and firmly held.

PITCH.—Operations have again been fair on the regular outlets and dealers apparently very well satisfied with the condition of trade. Prices maintained and a steady tone preserved. We quote at \$2@2 12½ per hbl for city delivered.

SPIRITS TURPENTINE.—Business has not been very active and the tone of the market somewhat irregular being a sort of stand off between buyers and sellers. As a rule, however, the tendency was downward and the line of cost is further reduced. As this report is closed, the quotation stands about 31½@33c per gallon, according to the quantity of stock handled.

TAR.—Holders views remain about as before on prices, and the tone of the market is quite steady, with a fair average business doing on the regular outlets. The supply does not greatly increase and the control of it is well preserved. We quote at \$2@2.25 per bbl for Newherne and Washington, and \$2@2.25 for Willmington, according to size of invoice.

NAILS.—Buyers still appear very generally determined not to handle stock in excess of early wants, and the demand is in consequence moderate and of an uncertain character. Prices also show the previously noted irregular tone with, however, the buyer retaining about all the advantage and the "official" card rates at last reduced to somewhere near a selling basis. We quote nominally 10d to 60d common fence and sheathing, per keg, \$5.10; 8d and 9d, common do, per keg, \$5.25; 6d and 7d, common, do per keg, \$5.50; 4d and 5d, common do per keg, \$5.75; 3d and 4d, light, per keg, \$5.50; 3d, fine, per keg, \$7.25; 2d per keg, \$7.25.

Cut spikes, all sizes, \$5.25. Floor casing and box, \$5.75@6.50. Finishing, \$6.10@7.10.

CLINCH NAILS.
1½ to 1½ in. 2 & 2½ in. 2½ & 2¾ in. 3 in. & longer
\$7.25@7.60 \$7@7.10 \$6.75@6.85 \$6.50@6.60 per keg

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty. 2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

REAL ESTATE.

NEW YORK CITY.

MISCELLANEOUS.

We call the attention of our readers to the announcement made by Mr. E. A. Boyd of the removal of his glass warehouse from Murray street to South Fifth avenue and Wooster street. The continued demands for increased room required by Mr. Boyd's business necessitated the removal to more extensive quarters, the new warehouse running through the block, 300x58.

LEGAL NOTICES.

NOTICE IS HEREBY GIVEN THAT HENRY Hartman, Mary P. Hartman and William B. Somerville, all of the City of New York, have formed a limited co-partnership, for the purpose of carrying on the Wholesale and Retail Drug Business, Manufacturing, Buying and Selling all such goods as are thereunto belonging, in the City of New York, under the firm name and style of HARTMAN & CO.

Said partnership to commence April 1st, 1880, and to terminate April 1st, 1883.

The said Henry Hartman and Mary P. Hartman are the general partners, and William B. Somerville is the special partner, and has contributed the sum of twelve hundred dollars in cash toward the capital of said Co partnership.

Dated March 29th, 1880.

HENRY HARTMAN,
MARY P. HARTMAN,
by H. HARTMAN, Att'y,
WILLIAM B. SOMERVILLE.

THIS IS TO CERTIFY THAT THE UNDERSIGNED have formed a limited partnership pursuant to the Revised Statutes of the State of New York.

The name or firm under which such partnership is to be conducted is FEINBERG & CO.

The general nature of the business intended to be transacted is that of Purchasing Agents and Commission Merchants.

The names of all the general partners are as follows:

Moses S. Feinberg, who resides at San Francisco, in the State of California, and Max Mayer, who resides at San Francisco, in the State of California, are the general partners, and Zadoc Staab, who resides in the city of New York, is the special partner.

The amount of capital which the said special partner, Zadoc Staab, has contributed as capital to the common stock, is the sum of five thousand dollars.

The period at which said partnership is to commence is the 31st day of March, 1880, and at which it is to terminate is the 31st day of March, 1882.

Dated the 6th day of March, 1880.

MOSES S. FEINBERG,
MAX MAYER,
General Partners.
ZADOC STAAB,
Special Partner.

LEGAL NOTICES.

The names of all the partners are as follows: John R. Morewood, who resides in the City of New York; William H. Lefferts, who resides in the City of New York; Louis O. Henderson, who resides at New Brighton, Richmond County, N. Y., who are the general partners, and John C. Henderson, who resides at New Brighton, Richmond County, and State of New York, is the special partner.

The said John C. Henderson has contributed the sum of seventy thousand dollars in cash, as capital to the common stock.

The said partnership is to commence on the first day of April, one thousand eight hundred and eighty, and is to terminate on the thirty first day of March, one thousand eight hundred and eighty-five.

New York, April 1st, 1880.

J. R. MOREWOOD,
WM. H. LEFFERTS,
LOUIS O. HENDERSON,
General Partners.
JNO. C. HENDERSON,
Special Partner.

NASH & HOLT,
Attorneys, 50 Wall st.

H. L. HORTON & CO.—THE UNDERSIGNED have formed a limited partnership upon the terms following:

First.—That the firm under which such partnership is to be conducted is H. L. HORTON & CO.

Second.—That the general nature of the business intended to be transacted by such partnership is the buying and selling on commission of Specie, Stocks Bonds and Securities.

Third.—That the names of all the general and special partners interested in said partnership are as follows: Harry L. Horton, residing at New Brighton, Richmond County, New York; Joseph Trumbull, residing at the same place; J. Frank Emmons, residing at the same place, are the general partners. Davis Johnson, residing at the same place, and Frederick T. Brown, residing at the same place are the special partners.

Fourth.—That said Davis Johnson has contributed sixty-five thousand dollars, and said Frederick T. Brown has contributed sixty-five thousand dollars as capital to the common stock.

Fifth.—That the period at which the said partnership is to commence is the first day of April, 1880, and the period at which it is to terminate is the first day of April, 1882.

New York, April 1st, 1880.

H. L. HORTON,
JOSEPH TRUMBULL,
J. FRANK EMMONS,
DAVIS JOHNSON,
by H. L. HORTON, Att'y.,
FREDERICK T. BROWN,
by H. L. HORTON, Att'y.

J. A. HATRY & Co.—NOTICE IS HEREBY GIVEN

that a limited partnership has been formed by the undersigned, pursuant to the Revised Statutes of the State of New York; that the name or firm under which said partnership is to be conducted is J. A. HATRY & CO.; that the general nature of the business intended to be transacted by said partnership is the manufacture and sale of antiseptic and deodorizing compounds; that the general partner interested therein is Joseph A. Hatry, who resides in the City of Brooklyn, Kings County, New York, and the special partner is Lewis H. Bullard, who resides in the City of Brooklyn, Kings County, New York, that the said Lewis H. Bullard, special partner, has contributed as capital to the common stock the sum of twenty-five hundred dollars; that the period at which the said partnership shall be deemed to have commenced is the 1st day of March, 1880, and the period at which it will terminate is the 1st day of March 1882.

Dated New York, March 1st, 1880.

JOS. A. HATRY,
L. H. BULLARD.

NEW YORK SOAP STONE WORKS, 61 GOLD STREET.

Laundry Tubs, Bath Tubs, Sinks, made from the celebrated *Francetown Soapstone*, the only Soapstone in the market which takes a polish equal to the best Italian Marble, polished inside and out to order. Also, Tanks, Fireplace Linings, HYGIENIC STOVES, Register Frames, Griddles, Foot-Warmers, Slabs, Dust, &c. W. H. RAMSDELL, Proprietor.

J. H. Serene's Vermont Soap-Stone Works, 4 and 6 Peck Slip, and 310 Pearl Street, New York

Soap-Stone Stationary Wash-Tubs and Sinks
Soap-Stone Urinal Floors, Wainscoting and all kinds of Plumbers' work done to order. All work warranted. Price Lists furnished on application
SOAP-STONE BASE BURNING STOVES
a specialty.

J. L. MOTT'S "ST. GEORGE"

ELEVATED OVEN AND

"DEFIANCE"

LOW OVEN

KITCHEN RANGES,

Suited to all sizes and styles of Buildings. Sizes specially adapted for use in Flats.

"DEFIANCE" BROILER,

A new and desirable addition to the Defiance Range

"SOCIAL"

FIREPLACE HEATER; handsome in appearance perfect in operation, and durable in construction.

Mott's "STAR"

HOT AIR FURNACES, Unequalled for Heating Power and Economy in Fuel. Also,

MOTT'S "PIONEER"

Wrought Iron

HOT AIR FURNACES

Portable and brick set; all sizes.

GRATES AND FENDERS,

New and Handsome Designs.

ANDIRONS in Brass and Bronze, Antique and Modern Designs.

SCHWEIKERT'S Improved Patent Ash Chute

Folding Washstands.

Patent Folding Self-Acting Urinal.

A most ingenious and desirable Urinal for private houses.

DEMAREST'S

Patent Water Closets.

Thoroughly reliable and strictly first class in every respect.

MOTT'S

ENAMELLED BATHS & WASH TUBS
IMPROVED KITCHEN SINKS,

AND ALL KINDS OF FIRST CLASS SANITARY GOODS.

All goods warranted. Estimates furnished. Send for Circulars.

No. 137 BROADWAY

ANDREW H. GREEN AND THE PARKS.

INTERVIEW WITH THE NEW COMMISSIONER—THE NEGLECT IN THE CENTRAL PARK, DECAY OF FOLIAGE AND STRUCTURES—VANDALISM BY EX-COMMISSIONERS—TIME RIPE FOR IMPROVEMENTS EVERYWHERE—THE WORLD'S FAIR THE GREAT AGENCY FOR BUILDING UP THE WEST SIDE—WHAT MUST BE DONE.

The appointment of Mr. Andrew H. Green as Park Commissioner, is regarded by property owners as the return of an efficient public officer to the labors of his first love. It was as the organizer of a commission which had no precedent in our midst that Mr. Green first won his municipal spurs in 1865. The ring times, and the period of business depression have filled the gap that intervened between the time of Mr. Green's exit from that department and his return to his accustomed seat. Times have changed, but the sturdy official has not, as will be seen by the following conversation, had with Mr. Green a day or two ago, after he had been informed that numerous property owners desired THE RECORD to obtain his views as to matters and things in general, over which he had once more, if only partial, control.

"How do you find the management of the Central Park, since your return to the Board?" asked a representative of THE RECORD.

"There is a want of system in its control, I find men having charge of work there, many of whom are not adapted to the business they have in hand. The Park Commissioners themselves, perhaps, do not know that some of their subordinates are unfit for the work required of them. None but first-class men should be used for such work, or rather specialists. They may be good men, but if so they are very good men in a wrong place. In fact, Tammany Hall seems to exercise much influence in running the machine of the Park, and that is the entire story. I cannot better illustrate it than by supposing that the Western Union Telegraph Company should place in charge of their operating department a man who never had handled a battery in his life. True, we hear a great deal of architects in the employ of the Park Department, and they may be very good architects, but at present, we don't want architects, we require good landscape gardeners of the very best ability, and the very highest talent. I am sure, there is not a very large supply of such men in our midst. You can easily count them on your fingers."

DECAY AND NEGLECT IN THE PARK.

"Has there been any decay of architectural structures and neglect of the Park's foliage, Mr. Green? If so, what should be done to prevent it; what, in fact, should be done to fully complete the Central Park?"

"There has been fearful neglect and considerable decay—not, mind you, solely by the present incumbents, but their predecessors in office. It is impossible to specify in a few minutes of our conver-

sation all the various improvements that ought to be done in the Park. It seems to have been forgotten that the most attractive features of the Park are, the lawns, the foliage, and drives, the flowers and walks. Of late years this does not appear to have been uppermost in the minds of the Commissioners, and too little attention has been paid to it. When I practically ceased to have any control of the Department in 1870 a variety of improvements were proposed for the Park. The conservatory was cut off in 1874, the Belvidere plan has been disfigured, a ridiculous sheep-fold has been erected better fitted for a regiment of artillery than for sheep, and since my return to the Board I have introduced a resolution for the purpose of having an ornamental clock placed in the Belvidere as originally intended. But there are a thousand things of interest that might be introduced in the Park for the amusement of the people, and which would not cost much. Even that picturesque scene of feeding pigeons and other birds on the Mall I see has been abandoned. The rustic structures are very much decayed and others neglected. Now, you will remember that there were three rows of trees near the Fifth avenue entrance. These trees were purposely planted there to obstruct the fast travel when rushing from the Park to the avenue. Police regulations will not stop the rush when coming through that so-called throat into the open plaza, hence the trees as we had originally planned them were placed there so as to divide that travel. The centre rows of trees, after they had been there for sixteen years, full grown, and for a useful as well as ornamental purpose, have been cut down during the past three years, and I believe by order of the present Commissioners or some of them. More than that, the limbs of the trees along the Mall have been barbarously cut, why, I do not know. They claim they did not have money enough to keep the Park in good order. It certainly cost money to do all this unnecessary, wanton and irreparable cutting of the trees."

MORNINGSIDE AND OTHER PARKS.

"What is your idea, Mr. Green, as to the bills now before the Legislature appropriating money for Morningside Park, Tompkins Square and the Fourth avenue Parks?"

"The time has come at last to do all this work, and do it well. Morningside Park should at once be taken in hand and improved. The question, however, to decide is, how it is to be done. No money should be placed in the hands of any one who does not spend it appropriately, who has no ideas of what is actually required. Mr. Calvert Vaux, the best landscape gardener among us, should have charge of this work. The Fourth avenue Parks should also be attended to, and Tompkins Park ought to be completed. The plan of this last park, as now done, looks like the work of a child, and if the concrete pavement which they intend to put down there is no better than some of that on the walks in the City Hall Park, they'd better leave it alone."

"How about Riverside avenue and the petition before your Board requesting it to be opened to the public at once?"

"I have never heard of such a petition having been received by the Board. This Riverside con-

troversy, may, however, soon come up, when I will look into its various phases. As yet I have not fully done so."

"NO OCCASION" FOR MEETINGS.

"Is it not singular that this question has not been discussed at length at the meetings of your Board recently?"

"My dear sir, we have only two meetings a month now. When I say anything about this I am told, 'there is no occasion for more meetings,' just think of it, a department having charge of such vast interests only meeting twice a month. When I was Commissioner before, I gave up my entire business, devoted my entire time to the important work, and there is just as much to be done now, if not more. The entire annexed district is in our charge, a great deal of work is to be done there, but I am told there is no occasion for more frequent meetings. The reason for this will very likely soon appear."

THE WORLD'S FAIR TO BE THE GREAT AGENCY FOR UP-TOWN IMPROVEMENTS.

"What do you think are the prospects of other improvements in other parts of Manhattan Island, outside of those previously spoken of?"

"The World's Fair, of which I have been named as one of incorporators, as I have been informed this morning, will be a most important agency in developing the necessity for pressing forward certain long since planned improvements in the north part of the city. It is now the proper time to go on with these improvements, as New York is quite ripe for it. It was in 1865, I think, that I suggested the Riverside and Morningside Parks, the laying out of the northern end of the island, the addition of the new wards, and the improvement of the Harlem River. The United States Government has taken hold of this last important matter, and we will, ere long, derive the benefits from it. At no previous time but the present, has there been greater necessity for pushing forward needed improvements. The increased immigration to this country keeps pace with the increased population of the city. We are now on a solid financial basis, and the influx of commerce to and from this city, all these combined, have brought us to a period during which the growth of our city will be exceedingly rapid. But, when I speak of improvements, I mean only improvements devised upon an intelligent plan, executed by men of intelligence and needed to meet the present growth of the city."

"No money must be raised on the pretence of making improvements, for the sake of helping Tammany politics, or any other politics, but simply for the business in hand. Property holders, also, before the city enters upon these various works, whether on the West Side or anywhere else, must regard it, for once and all time to come, as a sound principle of administration, that wherever the city throws actual benefits upon them they must share the cost. Of course there are a number of things that must be borne by the city, like the cost of an increased water supply, the improvement of Riverside or Morningside Parks, etc. These matters are for the people at large, and the city must bear the cost, but wherever a property owner has a plot or twenty lots, and they are not come-at-able, and the

city constructs a street to get at them, or builds a sewer for the benefit of that property, the owner must pay, but he ought to get value for what he pays for."

TRUE PROGRESS AND REFORM.

"I am glad, Mr. Green, that you now so strongly favor improvements. Have you not changed your views somewhat in this respect?"

"No, sir; I have always been for true reform and progress, and am so now. I did not want thieves or professional politicians to squander the people's money, and I don't want them to do it now. If I now favor improvements in certain directions it is because the time is ripe for it, while, for some of them, it was not ten years ago. There are localities, circumstances, surroundings to be considered when you speak of improvements. The New York of 1880 can do more, and ought to do more, than the New York of 1870. I have said so before, as far back as 1874, when I was called an "obstructionist." The men who laid out the city of New York in 1811 did not lay out a Central Park. We did so in 1857, when there was necessity for it. Now that we have reached a period that the whole of Manhattan Island will soon be required for that increased population I spoke of, now that the times are far better, I acknowledge the necessity of pushing along these further improvements, but only, as I have told you, upon plain, honest, business principles."

WHERE IS THE WORLD'S FAIR TO BE?

"Can you, as an incorporator, inform THE RECORD readers, Mr. Green, where the World's Fair will be located?"

"No, sir," replied Mr. Green, emphatically. "Nobody knows where the World's Fair is going to be; nobody can know, for the simple reason that those having charge of the matter have not selected the ground. The incorporators are to meet for the first time as such some time this week. Of course, it is but natural that a spot will have to be selected accessible by land and water for visitors and freight."

THE BRIDGES ACROSS THE HARLEM.

"Are there any other matters which you think ought to have the immediate consideration of the Park Department?"

"Yes, sir. I want Manhattan Square finished and placed in proper order at once, and have already introduced a resolution to that effect in the Board, but it has been laid over. They are now dumping rock and other building material there. It will have to be taken all out before long. The bridges across the Harlem River, which are under the control of the department are in a most disgraceful condition and should be at once attended to. Nine years ago a bill was passed through the Legislature appropriating money for the construction of a suspension bridge from Fort Washington to the elevated plateau across the river, and to-day those desirous of going to and from these spots in carriages must go five miles around, as you are aware that the High Bridge is only for pedestrians and for the water pipes. The money was appropriated; the land for the approaches of the bridge was bought and paid for by the property owners, and nothing whatever has been done during all this time. Still the weary travel of five miles around must be made to reach a spot, every part of which can be seen with the naked eye from the other side of the river. I do not say this in a spirit of fault finding, but works of imperative necessity which the ever-increasing growth of our city forces upon my mind, I am determined to see executed, so far as lies in my power."

THE RECORD representative then thanked Mr. Green for his candid expression of views and withdrew, satisfied that during his retirement from public office the ex-Comptroller had lost none of his vigor and energy, and that the future grandeur of our beautiful metropolis depends, to a very large extent, upon the amount of support Mr. Green will

receive from his colleagues in the Park Department. That support will certainly be forthcoming rather tardily if these gentlemen persist in stating that there is "no occasion" for holding more than two meetings a month.

THE RESERVOIR PARK.

Senator Astor wishes the city to remove the reservoir and the wealthy property-holders in the neighborhood to get the benefit by making a public park on the two blocks bounded by Fifth and Sixth avenues, Fortieth and Forty-second streets.

But is this fair? What have these property-holders done to warrant the city in making them a gift which would add thousands of dollars in value to all the houses in the neighborhood? Something has been said about having built upon the square a great polytechnic institute, in which would be taught all the industrial arts. The building might be a marvel of beauty and be an ornament not only to the neighborhood but to the whole city. But this would require years of effort to bring about. After all, would it not be better to put the whole property in the market and sell it to the highest bidder? Our finances are not in a condition to make gifts to any one, and the millions which this sale would bring are very much needed to meet our municipal obligations.

THE DOWN TOWN DEMAND FOR A BOOM.

NEW YORK, April 11, 1880.

To the Editor of THE REAL ESTATE RECORD:

I often buy your paper, and think it a very good and valuable paper, especially to those interested in real estate. I have seen many good points and arguments in it, but have never seen as yet any advice on the subject I wish to ask you about, viz.:

Can you tell me why it is that good property in the heart of the city, between two leading thoroughfares (Sixth Ward), not ten minutes walk from the Brooklyn bridge avenue, or the opening to the Hudson River tunnel (which will be finished by the way before the Brooklyn bridge), and being close to all large business and manufacturing concerns, railroads, etc., is not improving? Can you tell why it is, property away up in the swamps in Harlem has gone up 50 per cent. and taxed so little in proportion, while property downtown has not moved any, and the same price has been offered for my house that was offered to me two years ago.

Is property downtown not worth anything, any more?

There is reason in all things, they say, perhaps there is a cause and I do not know it. I must confess my ignorance in that case, but will you not be kind enough to enlighten me (and perhaps many others) on this subject.

I am free to confess I am not jealous of the prosperity of the Harlem property owners, but I can't see why the poor overtaxed downtown property owners do not come in for a share of this boom. Besides, in these very places (downtown) business of all kinds has been exceedingly good the last year, exceedingly good; business houses have been making plenty of money, and why not share a little around where it is made?

I have written more than I intended. I simply wished to ask you "if you know the reason, downtown property, with all its great business facilities, travel, etc., is not proportionally boomed with other property. Perhaps you can throw us some light."

By so doing, you will oblige,

Yours, respectfully,

PRO RATA.

Our correspondent, though an admirer of THE RECORD, has not been as steady a reader of our columns as he ought to have been. First, he would have ascertained that, though there has been an increase in prices, there has virtually been no boom anywhere, except, if it may be so called, in a number of speculative lots directly west of the Eighth avenue, and more particular on a limited number of street lots on the East side. And even there the boom has not had steady support. The increase of prices of which our correspondent hears so much is limited to certain sections of Manhattan Island that are influenced by local causes, as has been frequently explained in these columns. It has not been

general all over New York city, and the Sixth Ward, to which our correspondent particularly alludes, is one of the sections that has not felt the increase of values.

The reasons for this are obvious. Property in the Sixth and Fourteenth Wards and other downtown localities we might name is to-day in a transition state. It has ceased to be valuable, because virtually it has fallen in a squalid condition, and the business demand for it has not yet arisen. Its former high value has ceased, and the best people that constituted the bone and sinew of that section in times past have left. The tenants who only a few short years ago occupied homes there have been carried away by the uptown stampede. In fact, it may be generally admitted that tenement property in all of the lower wards of the city has slightly decreased in intrinsic value, owing to the elevated roads.

That our correspondent finds no proportionate decrease in taxation for his Sixth Ward property must be attributed simply to the system of taxation under which we are all suffering, and which must be borne philosophically until the entire method of levying taxes—which bears heavily in one quarter and rests too lightly in another—is controlled by that business common sense, which it is to be hoped will one of these days preside over our entire municipal government. At the same time, it should not be forgotten that taxation, whether justly or unjustly levied, always rests most onerous upon those owning property that is stationary, or, rather, under the blight of stagnation.

And yet, after all we have said in regard to the present status of the property owned by our correspondent, we would advise him to hold on and look to the future with confidence. The time is not far distant when the entire region between Broadway and the Bowery, notably the Sixth and Fourteenth Wards, will be required for manufacturing purposes. New York, aside of its commercial and financial character, is fast assuming the role of a great manufacturing centre. Any one traveling on the elevated roads, with his eyes wide open, and seeing the purposes to which the third and fourth stories of buildings are devoted in the streets he now traverses at lightning speed, soon convinces himself that this is indeed a beehive for the manufacture of small wares, and, indeed, all sorts of wares, which as yet has been but little understood or appreciated by those owning downtown property. This manufacturing business is growing at an enormous pace, and slowly but steadily the owners of these establishments are seeking for more expanded quarters so as to accommodate the ever-increasing demand for space, called for by their ever-increasing business. The Fourth, Sixth, Seventh and Fourteenth Wards will ultimately reap the benefit of this increase of manufacturing in our midst. As yet only low-priced property can be secured for branches of industry that are still in their infancy, but our correspondent, if he only will bide his time, will ere long ascertain that even his Sixth Ward property can be sold to advantage for the purposes above described.

The Eureka Consolidated Mine has a splendid history. It has paid as high as three dollar dividends monthly, but recently it has not paid more than thirty cents. The shaft is down fourteen hundred feet, but the ore body, pitching to the east steadily, has made it now difficult to work in the lower levels. The ledge is fully a thousand feet east of the shaft in the lowest level. It is now proposed to sink a new shaft on the east so that it will strike the ledge two thousand feet below the surface. Of course, there will be cross-cuts to the ledge before the two thousand feet are reached. It will take over a year in time and half a million dollars in money to do this. There is a surplus of that amount, but as yet the Eureka Consolidated

has been unable to secure the right to sink the shaft from the K. K. Consolidated, which adjoins. There is some dispute about the ground. In the meantime the stock fluctuates and the insiders, as usual, have a great advantage over the outside public. The Eureka has been a mine of surprises. Mr. Keyes, the present superintendent of the Chrysolite, was formerly the manager of the Eureka Consolidated. He announced to his directors that the mine had "played out," and it was said that he sold the stock short. If he did he lost his money, for the superintendent that succeeded him discovered a new body of ore, and since then the mine has yielded large quantities of base bullion. It is possible that new ore bodies will be found to an indefinite depth, but the Eureka is as uncertain as is all mining properties, and investors would be wise to give it a clear berth. It is not over capitalized, only fifty thousand shares, and is, we believe, reasonably well managed. In the past it has also been honestly handled, as is shown by the heavy dividends it has paid out to investors. But no one can predict the future of this stock, no matter what dividends are paid.

LEADING STATESMEN IN MINING.

It is understood that leading men in Washington have been "bitten" by the mining mania. Secretary of State William M. Evarts is a stockholder in a number of Leadville properties. There is a story afloat that some years since, Mr. Evarts, ex-Judge Pierrepont Edwards and other leading members of the New York bar, were severely singed by dealing in a mining property brought to New York by an operator who is now figuring very largely in mining circles. At that time, Secretary, then lawyer, Evarts lost his money, all the money he invested, that is; but it seems he is again tempting fate in the matter of mining. It is known that the Secretary is restive under his small income, for the people of the United States are very poor paymasters. As a lawyer, he could make \$25,000 to \$30,000 per annum. As Secretary of State he is required to spend double his small salary (\$8,000) in giving entertainments. Mr. Garfield, of Ohio, is credited with having made large investments in mining stocks recently. Benjamin F. Butler has been coaxed into the San Juan region, Colorado. His son-in-law, ex-Senator Ames, is largely interested in mining ventures in this same region, and the Massachusetts statesman, who is known for his speculative temper, is likely to lose a good deal of money before he sees the end of his investments. Ben. Butler is a very daring speculator. He is understood to be a loser by the balloon speculation on Coney Island last summer. Senator Blaine, of Maine, is known to be very heavily involved in mining ventures. His antipathy to the Chinese is understood to be on account of his relations with mining people in California. He has invested in mines on the Pacific Coast, in Colorado, and, it is said, has also been induced to put some money in the silver mines of Maine. Indeed, it is understood that three out of every four Congressmen have the prevailing fever for mining investments.

MINES IN MEXICO.

Ex-Governor Shepherd, otherwise known as "Boss" Shepherd, is to work a mine in Mexico, the old Wells Fargo, which has quite a history. People have been found foolish enough to contribute a large sum of money to buy a mine in that country, and to choose for its executive a gentleman who knows nothing about mining. A mine requires not only honest treatment, but intelligent handling. How can Mr. Shepherd, no matter what his capacity, run this property intelligently? He is a plumber by trade, a politician by profession, and his lack of business sagacity is shown by the fact that, with every opportunity to make money,

he became a bankrupt through over confidence in himself and the enterprises in which he became engaged. But this is not the only peril. Suppose "Boss" Shepherd was thoroughly competent, granted that he knew all about mining, what sane man will put his money in mines in Mexico, where there is no assurance that he will reap the reward of his labor. Property is insecure in that country. When a civil war occurs, which is periodical, the central government cannot control the local chiefs who dominate through the several departments. These having no responsibility to either the central government or the outside world, are certain to levy contributions upon all doing business, including Americans. England protects her subjects, but America does not. In Mexico and Central America, a citizen of this country is forced to call himself a native of Great Britain in order to be respected by the local authorities. Americans have no standing on account of the absence of an army and navy, and the ability to punish those who wrong our people. It is not prudent to invest in property in Mexico or Central America.

BEWARE OF SPECIMEN MINES.

Distrust the mine where specimens of the ore are very rich and visible to the naked eye. It should be remembered that nature is rarely prodigal, and that where great lumps of gold or silver are visible you may be sure there is not much of it. The successful and lasting mines are those in which the precious metals are diffused through a great mass of rock. Gravel beds are more certain than the richest mines. "A rich specimen," said an old operator, "will no more tell the value of a mine than will the color of a horse tell how fast he can trot." And this is literally the case. Californians are aware of this and are not humbugged by extravagantly rich specimens of rock. But today, all over the country, specimen ores are shown to the uninitiated and extravagant statements made as to the richness of the rock in order to induce people to buy mines or at least to purchase the shares of companies already organized. Wherever mining men most congregate there will be found the rock with its rich ore and the magnifying glass. Some of our readers may have heard of the famous Silver Islet Mine, near Thunder Bay, on the north shore of Lake Superior. The specimens from that mine were simply wonderful. The silver was in masses. Quantities could be taken out almost pure, and on the strength of these developments the stock at one time was quoted at \$65, but the last sales in Boston put it at \$14. The history of this particular mine should be a warning to those who form extravagant anticipations of wealth from such investments. After taking out a good deal of ore the levels ran out and the stock became worthless. Through the energy of one or two men, \$40,000 was raised for the purpose of prospecting the mine further. For each thousand dollar bond issued a bonus of twenty-five shares of stock was given. The persons who took those bonds and twenty-five shares of stock were reimbursed by the payment of the bonds, while the stock which was given as a bonus was quoted in time on the market at \$65, but day by day the price has been settling, and now, as we say, at last accounts was quoted at \$14. The fluctuations in this property have been very great and to some people very disastrous. The lesson it teaches, as does all mining adventures, that high prices should never be paid even for the most promising mine. It is true that bonanzas like the Consolidated Virginia might be literally worth at one time \$800 a share, but those who paid these high figures lost money. Again, we say, avoid specimen mines.

The one very great drawback in the Black Hills region is the low grade of the ore which requires economical handling and honest management to be profitable. A syndicate of rich

Eastern capitalists who could command half a million dollars could make a very safe investment in Black Hills mines, but nearly all the mining properties in this region put upon this market are managed by Californians, are assessable, and there is every reason to believe that in the fulness of time they will be allowed to run down and the stockholders will be frozen out. Investors, just now, seem willing to put their money out of their own hands into the keeping of Pacific coast people whose reputation is none of the best. A mine may be perfectly good and yet be the means of ruining the investors. All depends upon the directors and the trustworthiness of those who mine, mill and manage.

THE RECORD'S COURSE ON MINING.

NEW YORK, April 3, 1880.

To the Editor of THE REAL ESTATE RECORD:

SIR.—Though not a buyer of mining stocks, nor a speculator in any kind of securities, "so called or otherwise," permit me as a subscriber to your paper to commend the course you have taken. Your articles on mining and railroad stocks have been of great value to many, and very interesting to all who are desirous of seeing the community prosper, and there is no doubt but that the knowledge of the "true inwardness" of the Wild Cat and other companies may deter many from investing and sustaining losses thereby. I do not write this letter for publication, but only for the purpose of expressing an individual subscriber's views of the course pursued on matters stated, and trust you will continue the good work.

Very respectfully,

* * *

NEW YORK, April 9, 1880.

Editor REAL ESTATE RECORD.

SIR:—I write to express to you my gratification with the "Supplements" to THE RECORD, which you have recently issued. The various articles, whether written by yourself or some collaborator, are evidently the work of one who understands his subject, and is in possession, too, of much information not in the hands of the general public.

The true key-note of your publication—the only one which distinguishes it from other and larger recently started—is that one paper in New York should be published in the interest of the investor. The history of newspapers would seem to show it will be impossible for you to write in this key any length of time; but it is the right one, and so long as you do, you will be a blessing to the public. And—what is perhaps more to the point—they will have to read your paper, not for advertisements but for truths.

To some individual utterances I must take exception. You "warn investors to keep out of the mining share market." Now, I consider mining stocks just as proper "material" for gambling as railroad stocks. Because you prefer faro is no reason you should cry out against roulette.

You warn against certain companies because they are incorporated in California, and hence their stock is assessable. The assessment plan is, in my judgment, the best adapted to mining enterprises. It allows an elasticity in the limits of their corporate capital, which tends to do away with any so-called necessity for large capitalization at the outset, when the costs of future development are unknown.

You hope, I take it, to purge the mining industry, not to kill it. The great bane in New York of this which is a legitimate industry, and an especially appropriate field for corporate labor, is over-capitalization. Cry out against this. Likewise against dishonesty, and interested neglect, in fiduciary trusts, of respectable directors. They put forth their names in half the newspapers of the country to draw money out of other people's pockets. Why should not those other people republish these names, when they find their money is represented in the bank accounts of the promoter-directors, instead of in the bullion or ore promised them?

I know, and care less, about real estate than an Apache (who, in fact, requires much more of it than I do); but I will buy your REAL ESTATE RECORD's supplements as fast as you issue them. You should introduce the word "Mining" conspicuously in their heading, so that the casual observer of the news-stand may know what is the character of the paper which meets his eye.

Wishing you all success in your courageous enterprise, I am, yours very truly,

* * *

SUPPRESSION OF REAL ESTATE RECORDS.

To the Editor of Truth:

Fred. W. Loew announces to the public, through THE REAL ESTATE RECORD, that "instruments" are never suppressed in the Register's office. Yet the very files of the paper that says this editorially tell a tale exactly the reverse in its record of conveyances.

In THE REAL ESTATE RECORD (March 6) is the following:

"Riverside av, e s, 225 n 116th st, runs east 135.5 x northeast 161.9 x northwest 288 x southwest 140.2 to av, x south 172.2. James Scobie to Chr. R. Robert. Jan. 16. nom."

Thus THE REAL ESTATE RECORD proves by its own files that this transfer was concealed from January 16 to March 6, 1880.

Why does not the Register, Fred W. Loew, also deny through THE RECORD the statements made by Truth in its issue of March 16, 1880?

THE REAL ESTATE RECORD of March 20 has the following:

"54th st (Nos. 307 and 309), n s, 64 e 2d av, 36x 120. Abraham and Solomon Simm to Isaac A. and Henrietta Simm, his wife. March 1. nom."

This instrument was concealed, as stated heretofore in Truth, from the 2d day of March until Truth made it public.

Why do not the Loew Brothers explain what all this means? BERNARD J. KELLY,
April 5, 1880. 760 Third avenue.

Mr. Bernard J. Kelly has a perfect right to ask explanations from Loew Brothers, or any other brothers, sisters, cousins or annts, but when he assails the veracity of THE REAL ESTATE RECORD columns he must have better ground to stand upon than the above, before his statement can be accepted.

To begin with, the recent remarks about the non-suppression of records were made by the editor of THE RECORD, and not by the Register of the County of New York. We hereby repeat and re-affirm them, as they are the truth.

Next, if Mr. Kelly will be kind enough to remember that every document, every conveyance, in fact, the moment it is filed and indexed, but not sooner, is copied in THE RECORD, we don't see what fault he can find. It often happens that title is taken to property and that the deed is not recorded until some time after. That is not our fault, nor, indeed, any of our business. We do not intend to put our hands in other people's pockets and pull out documents which Mr. Kelly thinks ought to be filed and indexed at once. Our duty towards our subscribers consists in giving them full transcripts of all conveyances whenever they are placed on record, and not before, and we have an idea that our twelve years' experience in that line is of greater importance to the public at large than Mr. Kelly's desire to fight "the Loew Brothers" over our shoulders. It is generally understood that the dates at the head of our column of Conveyances show the time when the documents were recorded at the Register's office, while the dates printed along with the description of the various Conveyances denote the time when the deed was signed.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages vi, and vii of advertisements.

There were numerous offerings at the Exchange Salesroom during the week, but the result has not been very encouraging to sellers. Even in the early part of the week considerable property was withdrawn from sale, and this was not the case only with vacant lots on the West Side, but with improved property as low down town as the Seventh Ward. Some Harlem lots, however, along One Hundred and Twenty-seventh and One Hundred and Twenty-eighth streets, sold at good prices on Monday last. The corporation sale, which was held by Mr. Kennelly, on Tuesday, passed off to the evident satisfaction of the Boss, who graced the salesroom with his presence and added zest to the bidding. The principal parcel, No. 48 Chatham street, was purchased by John B. Haskin for \$29,100, Nos. 186 and 188 South Fifth

avenue, near Broome, having been secured by J. W. Dimick for \$18,000. It is understood that the controller will sell off more property belonging to the corporation, but no more and no sooner than the market allows or is willing to take. The offerings on Thursday, by Messrs. Bleecker and Muller, met with varied success. The sale of the Mott estate turned out a fizzle, one of the executors announcing, immediately after the \$10,900 bid for the corner of Ninety-fourth street and Riverside avenue had been overtopped by himself, that 'they did not want to sacrifice the property,' so the remainder was withdrawn. It is just here that the real estate market constantly suffers, owing to the sales and announcements of sales that are not meant to be auction sales. When investors know, as they saw at the very outset on Thursday, that there is to be "bidding in," by parties interested, they become disgusted and turn their backs on the auction stand. And yet, considering the state of the market, the prices offered, as far as they went, were quite fair. Why were they not accepted? Because, forsooth, there are yet men left among us who will not learn by experience, and who think that because prices were so and so, years ago, therefore they must be so now. The present is only gauged by the past in so far that we have derived lessons therefrom that warn investors to buy real estate only at its actual value, not in accordance with the ideas that prevailed in inflation times, when a dollar was not a dollar, and when many speculators were actively engaged in digging their own graves. Granted that the corner of Ninety-fourth street and Riverside avenue did sell some years ago for \$13,000, as the auctioneer informed his audience, that is no reason why bona fide investors should pay that sum for a lot that contains a mountain of rock. The executors ought to have taken the bid of \$10,900, it was a fair price, indeed, an excellent price, according to the views of some experts, and they may have to wait some time before they get a better price for it. Once more, executors and trustees generally should take a lesson from the Mutual Life sale. These gentlemen meant business when they entered the auction room, the buyers felt it, and the sale was a success. Those who go to the auction room and don't trust the hammer, had better keep their deeds locked up in their safes and sell their property at private sale until General Boom makes his grand rounds. The Exchange Salesroom ought not to be the place to make experiments. It is an auction room, first of all, and property when taken there ought to be sold. The moment it is withdrawn or bid in, that very moment the property itself is thereby injured, and the market generally sustains a shock that is felt in every broker's office.

Neither was the sale held by the Messrs. Muller for and in behalf of Mr. Van Rensselaer Cruger and other trustees on the same day an unqualified success. The programme was gone through with in good style, and the prices for the few lots actually sold, were quite fair, exactly reflecting the true tone of the market, but out of the sixty-two lots announced, twenty-four only were sold to outside investors, twelve were bought in for the parties in interest, and the remainder were not offered. The details of the lots sold and prices obtained for them will be found in the list at foot.

During the coming week the most prominent sale will be the one announced by A. H. Muller & Son, being a portion of the estate of Andrew Carrigan, deceased, comprising fifty-four lots between the Boulevard and Riverside avenue and Riverside Park. The streets are announced in our advertising columns. On the same day, Messrs. Muller will also sell houses and lots on Lexington avenue.

Mr. Hugh N. Camp will sell, on Tuesday, the entire block between One Hundred and Twenty-second and One Hundred and Twenty-third streets, East River and Avenue A.

On Thursday Mr. Harnett will hold a peremptory partition sale of fifteen lots on Ninth and Tenth avenues. Eighty-first, One Hundred and Sixth and One Hundred and Thirty-seventh streets and Fort Washington.

GOSSIP OF THE WEEK.

Those brokers engaged in removing their offices during the past week did not lose much by the operation. The real estate market was anything but active, and there is once more a temporary lull in the closing of contracts. Had the property sold by the

Mutual Life during the previous week fallen in the hands of speculators of course there would have been "activity," but not that sort of activity which gives strength to the market. The very fact, now amply apparent, that all that vacant property was secured by actual investors shows that there is a healthy tone among capitalists in regard to real estate, and that if it can only be secured at common sense prices there will always be found any number of buyers. In this connection it should be mentioned that Mr. Winston has stated officially, that, in addition to the auction sale, the company has sold at private contract, since January 1st, real estate amounting to \$728,130.

During the past week, No. 15 East Sixty-fifth street, having a frontage of 31 feet, has been sold at private contract to Mr. J. Vilas for \$90,000. No. 17 East Sixty-fifth street, having a frontage of 25 feet, has been sold to Mr. Perkins for \$60,000.

By referring to our column of conveyances, it will be seen that the Mathews family, owning the Florence Apartment House, have secured the southeast corner of Fourth avenue and Nineteenth street, four lots in all, for \$75,000.

We are authoritatively informed by Mr. Roosevelt, of No. 32 Pine street, who is one of the gentlemen on the committee appointed to select a site for the new opera house, that, notwithstanding all rumors and reports to the contrary, no site has as yet been selected.

Messrs. J. Davenport & Sons, of Brooklyn, have sold, at private contract, two four-story and one three-story brick, iron front, stores, 70x135, Nos. 294, 296 and 298 Fulton street, Brooklyn, for \$100,000, all cash, to Mr. Cheesebrough. The property rents for \$11,000.

Twelve lots of ground have been purchased at the foot of Oak street, Greenpoint, by the Knickerbocker Ice Company, upon which large buildings are to be erected for the use of the Company as a delivery depot. The price paid was \$45,000.

The following are the sales at the Exchange Salesroom for the week ending April 30:

* Indicates that the property described has been bid in for plaintiff's account:

† Indicates that the property described was purchased for account of parties in interest.

Barrow st (No. 70), n s, 187 e Hudson st, 29.9x 102.6, irreg, three-story house, to Ambrose K. Ely.....	\$5,200

MAY REMOVALS.

It will be seen by our advertising columns that Messrs. L. J. & I. Phillips have removed from 6 to 4 Pine street.

Scott & Myers have changed their offices to 8 Pine street.

Coles & Heiser to 22 Pine st.

The American Encaustic Tiling Company will, on and after this date, be found at 73 Hudson street.

Everyone's writing like everyone's face, differs from every other—and to help these idiosyncrasies the Esterbrook Steel Pen Co. provide a varied assortment of pens to suit every style of writing, from the finest ladies' pen to the broad point engrossing.

BUILDING MATERIAL MARKET.

BRICKS.—The market on Common Hards has again shown some irregularity, and during the period under review the advantage was mainly in buyers favor, with an average decline of about 26c. per M. This was due to the liberal arrivals, and a constant supply afloat over demand leading to more or less competition in order to secure customers. There is a difference of opinion as to whether the consumption has fallen off, but we think that while possibly about as many Bricks as before may have been used, previous purchases in hand were meeting the wants of the consumer, and the fresh call correspondingly reduced. The quotations now generally named are \$7.25@7.75 for "Up Rivers," possibly \$8 for Fishkill's and \$8.25@8.75 for Haverstraw's, with some of the choice makes at \$9. As an indication that prices here have been very full we note that not only have receipts come in from Poughkeepsie for the first in many seasons, but from even as high up the river as Greenbush, the latter understood to have sold at \$7.50 per M. Indeed, there is some indication that the supply of old brick will prove larger than anticipated and buyers are inclined to move with caution. This prospect, however, is not without a neutralizing influence which comes in the form of difficulties with labor employed at the points of product. The workmen, it appears, have during the present week, in many cases, quit work without making any specific demand, or, indeed, giving the least satisfaction when asked for an explanation of their conduct. Under the circumstances the movement has more irritating features than usual in a strike and seems to have led to determined action in opposition. Manufacturers are at present making such conciliatory overtures as can be done without loss of dignity, but unless the workmen promptly respond, it is almost a certainty that a general lockout will follow. Should this be protracted, of course the new product must be delayed, but the possibilities of such a result have thus far simply given a little better tone to the market as we close. Pales have sold to some extent but with less general animation, and the price is off a fraction, current figures, on the average offering, standing at about \$4 75@5, but a few choice at \$5.25 per M. Front Brick remain to a considerable extent nominal.

The Herald has the following account of the strike at Haverstraw:

The disaffection which has been brewing among the laborers on the brick yards at this place culminated this morning in a "lockout" on the part of the employers. The brick manufacture is conducted here on a very extensive scale, there being between the Clove, south of Haverstraw, and the promontory of Stony Point about fifty yards, employing, when at work in full force, about three thousand men. The trouble commenced about two weeks ago the employers offering the men the same wages as last year. The men asked an increase of about fifteen per cent. in view of the fact that brick were in brisk demand at a much higher price than last season, and that the expense of living was greater. The men arranged their strike very ingeniously. While most of the yards lie north of the village, four yards, em-

ploying about two hundred men, are below the village. It was agreed that these men should strike, which they did last Monday morning, receiving assistance from the men on the forty odd yards yet working. Their object was to break the combination of the employers. At a meeting of all the employers held on Tuesday it was resolved not to yield to the demands of the men. The owners of the yards where the strike prevails cannot afford to let their yards lie idle long, and, at the same time, be indirectly benefiting the working yards by diminishing the amount manufactured and incline to yield to the demands of the strikers. To prevent this the employers all along the beach have agreed to stop until the men on the lower yards agree to go to work again. In consequence of this not a whistle blew this morning. Every engine is still and upward of 2,000 men are idle to-day. All is peaceable, so far. As manufacturers are anxious to make brick and avail themselves of the high prices which at present prevail, and as the men, having done little since last October, need employment, it is difficult to say which party will first yield. The strike and lockout on the brickyards is general. Only one yard attempted to mould. Six hundred men, mostly Canadians, passed in procession from yard to yard and stopped all kinds of work. There has been no violence nor disturbance, and, as yet, there is no attempt at compromise.

HARDWARE.—Much dissatisfaction and disappointment over the general condition of trade may still be noted among dealers. A large number of places from which liberal orders were expected by this time, have been heard from, and they simply furnish small memorandums for a few necessary goods, and buyers conclude to wait for further developments. Even on what is considered the regular trade demand the amount handled proves very small and confined positively to standard goods. Values are unsettled, and while not only do manufacturers retain former lists, but some even make an advance, the condition of the market for material, especially iron, seems to make the claimed strength on prices of the product somewhat doubtful. There is a good, general accumulation available from which to make selections. The Penfield Block Works have issued the following list, subject to a trade discount of 25 per cent. Mallets—No. 16, Round Applewood, Mortised, 5½ inch long, x 3½ inch diameter, Steel Rings, \$4 per doz; No. 17, Round Applewood, Mortised, 6 inch long, x 4 inch diameter, Steel Rings, \$5.50. Stone Cutters' Mallets, No. 12—Hickory or Applewood, Extra, 5 to 5¾ inches, \$8 per doz; do, 6 to 6¾ do, \$12; do, 7 to 7¾ do, \$16; do, 8 do, \$18; Selected knots, 6 to 7¾ do, \$24. Handles for Stone Cutters' Mallets, \$1.25 per doz. They have also advanced list of No. 14 Mallet to \$7.50. According to previous announcement E. M. Boynton has made an advance of 10 per cent, on "Lightning" Saws, patented Files and patented Sets. On Lightning Buck Saws the change is 7½ per cent., but no change made on Lightning Hand Saws and Lightning Double-Edge Pruning Saws. Gay's Double Action Ratchet Screw Driver is quoted at \$2 per doz. for 4 inch, \$10.20 do for 5 inch, and \$16 do for 6 inch, subject to 30 per cent. discount. The Payson Manufacturing Company have issued a new list for their specialties in Builders' Hardware.

LATH.—The ill conceived, poorly conducted and finally disastrous attempt to corner this market, in addition to the misfortune entailed upon both buyers and sellers who were "in" at the recent very extreme rates, has kept matters in a feverish and doubtful condition ever since the break commenced. Especially was this noticeable at the close of last and the forepart of this week when for a time no one appeared to know exactly what the market rate was. A certain portion of the held stock taken by creditors under preferred claims was pushed upon the market under strictly private terms, with the impression that some of it must have been sold very low, and this had the doubtful influence to cut off demand from fresh arrivals, and leave receivers a little sea as to what to ask. Latterly, however, \$1.50 per M seems to have been fairly established as a cargo rate, both through sales and bids, and while at the present writing the market still retains an uncertain tone, the above is probably as low as receivers would accept in the ordinary way.

LIME.—No further change of a decided character can be advised on this market. A good demand is reported for fresh arrivals, and the recent gain on value is pretty well sustained, with advices at hand said to indicate light receipts for some little time to come. At some of the State kilns the production is delayed for want of fuel. The recent attempt to corner this market having proven decidedly unprofitable, it is hoped that business will now settle into legitimate channels.

LUMBER.—The local consumption of lumber of various kinds and for various purposes is good, indeed quite full, there is a considerable call from "the country," and the export movement is about up to expectations, but not much show is made on the surface of the market. This may be accounted for in a great measure to the liberal receipts on contract which gives distributors ample stock for present wants, and checks further demand against the nearby future at least. We also notice some inclination toward a more combative disposition in a few quarters, and it appears to be particularly directed against supplies coming from interior points. The comparative strength of holders is admitted, but the claim is put forth that the advantages of the position are being used to extort unduly high rates, and resistance

is therefore more determined. Sellers certainly have rather the best of it, yet, however, and indeed the slight changes in cost, of late, have been toward a higher level.

Spruce has shown a slight amount of irregularity, but on the whole the final result is favorable to the selling interest. There is no decided reaction on values or indications that such is expected, but we hear of no more offerings at the inside figures accepted for a week or two past, and the supply is less abundant in the way of random both for the present and near by future. The call for specials is a little doubtful. Plenty of buyers can be found who seem very anxious to operate for early delivery, or just what they cannot obtain, owing to the heavy engagements of the mills, but supplies offered for comparatively early June, and beyond, do not secure quite such prompt attention. At the moment quotations may be placed at \$16@17 for random, and \$17@18 for specials.

Piling, thus far this spring, has sold well, owing to the absence of a wintered over stock, and there is still a good fair demand with 6c. about the ruling price. Receivers, however, are pretty well inclined to operate, as certain indications lead to the belief that supplies will run heavy. This week arrivals are full.

White pine still appears to be in rather small stock. A considerable amount has come to hand within the past month, but between exports, and local contracts awaiting consummation, and quite a call from nearby points, there was a pretty steady exhaust, and the accumulation now available is small, with the assortments lacking attractions. Interior points can give no relief at the moment as the amounts ready for delivery are small, or, where a pretty good-sized parcel can be found, the limit of cost is so high as to virtually shut off buyers. The export movement keeps up to about the amount expected, but there has been no actual increase of demand. One or two houses, though having the only desirable stock, received all the orders, and, of course, were very busy, and seeing this, the amateur reporters of the alleged commercial journals rushed into print with "important events," in the way of "increased export demand." We quote at \$17@18 per M. for West India shipping boards; \$23@25 for South American do.; \$16.50@17 for box boards; \$17.50@18 for do. wide and sound do.

Yellow Pine does not on the whole appear to have been quite so active. About all the principal builders have secured contracts for such stuff as they are likely to require for several weeks to come, and a few are ordered well into the summer, and this reduces the demand for specials, while on randoms there is a noticeable inclination on the part of many buyers to be much more particular over conditions, terms of delivery, etc. No weakness, however, can be quoted, and good, serviceable supplies would in all probabilities, cost just as much as for some time past, or, for that matter, even more, as the scarcity and high rates of freight room and the amounts waiting to be shipped, could not be overcome by buyers wanting prompt delivery, unless they bid a good premium. We quote random cargoes at about \$24@26 per M.; ordered cargoes, \$25@27 do.; green flooring boards, \$21@27 do., and dry do. do., \$26@28. Cargoes at the South \$16@18 per M. for rough, and \$22@24 for dressed at Atlantic ports; \$15@16 for rough, and \$20@22 for dressed at Gulf ports.

Hardwoods continue in very good shape. Some recent offerings of Maple, Walnut and Cherry were of extremely poor quality, and it proved a difficult matter to place them, except at a low figure, but buyers are on the look out for attractive stock, and willing to pay full rates for it. Not many purchases are making in the interest by either dealers or manufacturers, owing to the extreme prices asked at points of production, and the continued full freight charges. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple, \$30@35; chestnut, 1st and 2d, \$30@35; do. culls, \$18@20 do.; cherry, \$45@75 do.; white wood, $\frac{1}{2}$ and $\frac{3}{4}$ inch, \$25@27.50, and do. inch, \$33@35 do.; hickory, \$35@45 do., for Western, and \$65@75 for good nearby stock.

Shingles are doing first rate, a very fair run of shipping orders still coming in, and the home trade gradually increasing, especially on Long Island account. Prices firm. We quote Cypress at about \$6 for saps, and \$8.50@9 for hearts; pine shipping stocks, \$4 for 18-inch, and Eastern saw grades at \$2.50@4.50 for 16 inch as to quality and quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, \$16@22.25 for A and \$28.75@33.25 for No. 1; for 24-inch, \$6.50@16 for A and \$16.75@23 for No. 1; for 20-inch, \$5@10.50 for A and \$11.25@15.75 for No. 1.

Operations at the yards are kept up to about the former average, and are on a basis of full prices for all desirable qualities of stock.

From among the lumber charters recently reported we select the following:

A Br ship, 1,135 tons from Musquash, N. B., to Liverpool, deals, 65s.; a Br ship, 1,325 tons, from St. John, N. B., to Liverpool, deals, 61s. 3d.; a Nor barque, 663 tons, from St. John, N. B., to Penarth Roads for orders, deals, 62s. 6d.; a Nor barque, 477 tons, from Baltimore to Hamburg, black walnut, 27s. 6d. per cubic foot; a Br brig, 310 tons, from Bridgewater, N. C., to Cardenas, lumber, \$6; a schr, 269 tons, from Wilmington, N. C., to Curacao, lumber, \$11; a brig, 281 tons, from Pascagoula to Curacao, lumber, \$14.25; a Br schr, 231 tons, from St. John, N. B., to Grenada, lumber, \$7; a schr, 253 tons, from St. John, N. B., to Martinique, ties and lumber, \$7.75; a Br brig, 187 tons, from St. John, N. B., to Matanzas, lumber, \$50; a brig, 326 tons, from Portland to Matanzas, cooperage, \$900; a schr, 325 tons, from Machias to Porto Rico, lumber, \$7; a schr, 160 M lumber, from Jacksonville to New London, \$8.50; a barque, 400 M lumber, from Pensacola to New York, 9; a schr, 825 M

lumber, from Pensacola to New York, \$9.25; a schr, 300 M lumber, from Brunswick to Providence, private terms; two schrs, from Richmond to New York, ties, 16cts.; a schr, 250 M hard pine lumber, from Mobile to Boston, \$9.75; a schr, 225 M lumber from Apalachicola to Newburyport, \$10.50; a schr, 200 M lumber, from Brunswick to New York, \$8; a schr, 250 M lumber, from Brunswick to Philadelphia, \$7.50; a schr, 380 M lumber, same voyage, \$7.25; two schrs, 170 and 250 M lumber from Doboy to Philadelphia, \$7.50; a schr, 250 M lumber, from Satilla River to Philadelphia, \$7.50; two schrs, 217 and 219 tons, from Portland to New York, lumber, \$2.25; one 128 and another 128 tons, same voyage, \$2.75; two schrs, 400 and 350 M lumber, from Pensacola to New York, \$9; a brig, 200 M lumber, from Fernandina to New York, \$7.75, free of New York wharfage; a schr, 250 M lumber, from Savannah to Boston, \$8; a schr, 150 M lumber, from Savannah to New York or Philadelphia, private terms; a schr, 202 tons, from Cedar Keys to New York, 170 M timber, \$11, and small stowage, \$9.50; a brig, 300 M lumber, from St. Mary's to New York, \$7.50; a brig, 529 tons, from Pensacola to New York, flooring boards, \$8.50; a schr, 220 M lumber, from Brunswick to New York, \$8; two schrs, 280 and 175 M lumber, same voyage, private terms.

Exports of lumber from the port of New York:

	This Week.	Since Jan. 1.
West Indies.....	918,285	9,511,774
South America.....	382,104	7,189,760
East Indies, Africa, etc.....	2,575,993
Europe, Continent.....	10,500	729,893
Europe, United Kingdom.....	193,000	2,875,942
Total.....	1,503,889	22,883,302

The following from the columns of a morning contemporary will prove of interest to our local receivers:

DISCHARGING LUMBER.

Important decision by Judge Choate—Receivers must take 30,000 feet per day.

For a long while past, carriers of lumber have been laboring under the injustice of being often obliged to wait in port many days before the receivers have discharged their cargo. The vessels, therefore, have been prevented from making as many trips during the year as they could if the cargoes were discharged promptly and speedily. Judge Choate has just rendered a decision which determines the time the lumber receiver can detain the vessel in discharging the cargo. This is important, as the receivers have been accustomed too often, it is said, to use the vessels as store houses. The case which has just been settled is that of Jeremiah Smith, master of schooner "Florence and Lillian," vs 60,000 feet of lumber, &c., W. A. Parke & Co., charterers. This vessel arrived June 30th, 1878; commenced discharging July 2d, and finished the same July 17. Judge Choate allowed the vessel \$210, being six days demurrage at \$35 per day (rate named in charter), with interest from July 17, 1878, and costs. The vessel brought 210,000 feet of re-sawed yellow pine from Port Royal, S. C. The Judge decided that the reading of the clause, "customary dispatch discharging," means that the charterer and consignee is to receive at the rate of 30,000 feet each day. Sundays and legal holidays excepted, but allows the charterer or consignee three days free of charge after arrival of vessel in which to name the discharging berth for vessel to proceed to, after which time 30,000 feet must be received each day, no allowance of time is to be at the charterer's credit, should the vessel proceed to the discharging berth before the expiration of the three days as above mentioned.

This decision is highly satisfactory to the shipmasters, as at least naming some limit to the delay they are obliged to undergo. They are not, however, disposed to push the lumber receivers too far, as the latter labor under every difficulty, but merely desire that justice shall be done all round, and this Judge Choate's decision secures, although it is easy on the receivers.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette Office,

BAY CITY, April 27, 1880

The demand for new stock has fallen off somewhat, and the feeling is not quite as firm as heretofore. No immediate decline in prices is anticipated, but the extreme views of holders will probably be somewhat modified. The Chicago break has created the impression in the East that a decline might be looked for in this market, but there is no necessary relation between the two markets. Chicago lumber does not go into the Eastern market at all, nor reach the scope of country drawing supplies from the Saginaw district. When stock which sold at \$7, \$14 and \$32, can be turned over without handling at \$8, \$16 and \$35, as was the case, with several million feet of Tawas stock, there is not much reason to look for a break here. Dry lumber is firm at outside quotations and in active demand.

The shingle trade continues good, and the market is not well supplied.

Lake freights: Barges have been in fair demand the past week, and the total shipments shows that a good size fleet has been engaged. Charters have been made chiefly at \$2.50 on lumber from Bay City to Buffalo and Tonawanda; 25 cents better from Saginaw to same ports. From Bay City to Ohio ports \$2 is the rate; 2 cents better from Saginaw. The rates from Lake Huron ports are about the same as from

the river. Salt has been taken from the river at 13 cents.

Lower freights may prevail later. A concession of 25 cents is said to have been made yesterday, but there is no certainty about it. Shipping is dull. A large amount has gone forward already, and the canal not being yet open, the anxiety to get stock forward has about subsided for the present.

The shipments from the river by water during the week ending April 24th, were as follows:

	Bay City.	Saginaw.	Total
Lumber.....	15,532,201	9,509,000	25,041,201
Lath.....	1,455,000	760,000	2,221,000
Shingles.....	2,69,000	160,000	2,581,000

We quote cargo rates:

Three upper qualities.....	\$30 00@35 00
Common.....	13 00@15 00
Shipping culls.....	6 50@ 7 50
Lath.....	@ 1 75
Shingles.....	@ 3 00

NORTHWESTERN LUMBERMAN, CHICAGO, April 21, 1880.

The weather for the past week has been quite broken, and unfavorable for extended operations upon the cargo market. The heavy gales which have thus far prevailed since the opening of navigation, marks the spring as the most disastrous ever experienced by the vessel interest, since navigation was inaugurated upon the great lakes. The mills upon the Michigan and Wisconsin shores are as yet scarcely started, although it is expected that this week will see a general movement in starting up. The arrivals at the cargo market have not been free, but each day has been marked with some few offerings. Piece stuff has sold at from \$8.50 to \$9 as to quality, with but little indication at present that the higher quotation will prevail for many days. It is rumored that mill owners upon the east shore have held a meeting, and resolved not to ship their product, unless it will realize \$9. As has often been remarked in these columns, the policy of piling stocks at the mills and holding for purchasers, has, whenever attempted, resulted in more satisfactory rates for the manufacturer. In the present unsettled condition of the Chicago market, no more ruinous policy can be conceived than the forcing of large bodies of lumber upon the market, which must be sold at whatever price it will bring. Strips and boards have held their own to much better advantage than piece stuff. Sales may be quoted at \$11.50 to \$12.50 for inferior lots; \$14 to \$15 for fair run, while extra nice would readily command \$16 or even \$17. The better grades of lumber have not suffered by the recent decline, at least to anything like the extent which coarse stock has experienced, it being a recognized fact that whatever quantity of piece stuff and timber may be available during the season, the higher grades and finishing stocks will be difficult to obtain.

At the yards, trade is spoken of as fair and inquires more frequent. The impression prevails that no more reductions in quotations will be experienced, the cut rates being already so low as to leave no margin of profit.

The meeting of the lumber dealers of Chicago, upon the 21st inst., was largely attended, and a general disposition was manifested to harmonize the views of the dealers. After discussing the situation, it was unanimously agreed to set the prices at the very foundation, so that there should be no possible inducement for any further reduction, leaving the market only to advance, which the most of those present seemed to think was the more likely contingency. We refrain, at this time, from lengthened comments upon the speeches, or final action of the meeting, further than is embraced in a general summary of the changes agreed upon full details of which will be arrived at from our market quotations. The items of thick clears, selects, finishing lumber, stock and box boards, were left the same as the January list, with the exception of D box, which was placed at \$17. The changes in flooring, dressed and matched, comprise the fixing of fencing flooring at \$16; narrow common boards, selected, dressed and matched, or dressed to ship lap, at \$15, and 10-inch selected common, dressed and matched, or ship lap, at \$15.50, with 10-foot fencing flooring at \$14. Fencing siding was changed to \$9.50. In common and cull boards, 10 to 20 feet, were placed at \$14; 12 to 18 feet at \$13; No. 2 boards, 12 to 18 feet, at \$11.50; 14 and 14-inch common, \$13; first quality fencing, 12 to 20 feet, \$14; No. 2 fencing, 12 to 18 feet, \$12; 4-inch common fencing, 12 to 16 feet, \$14; No. 2, \$12; Norway fencing, \$14. These quotations are for dry lumber, green being fixed at \$1.50 less. A grade of common pickets, with the price named at \$10 was added to the list.

In piece stuff, joist and scantling, 12 to 18 feet, was fixed at \$9.50 for green, \$11 for dry. Timber, 18 feet and under, \$10.50 and \$12; 2x4, 10 and 20 feet, \$10.50 and \$12; 20 feet long at \$10.50 and \$12; 22 feet, \$11.50 and \$13; 24 feet, \$12.50 and \$14; 26 feet, \$13.50 and \$15; 28 feet, \$14.50 and \$16; 30 feet, \$15.50 and \$17. Cull plauk, \$5; 2x4 cull, \$9; 2x12 and 3x12, 20 feet and over, \$1 more than quotations, as to length.

The action of the Michigan lumbermen, in combining to hold and pile their stocks, as mentioned elsewhere, was not referred to, and did not seem to have any influence whatever upon the meeting. Shingles were fixed at \$2.55 for Standard A; \$2.60 for choice A; \$2.75 for extra A; the lower grades remaining at the old list. Lath were established at \$2 for green and \$2.40 for dry. The meeting broke up with a general feeling of satisfaction at the result, and an expressed determination to adhere in good faith to the established quotations. It is but proper to add, however, that several dealers, subsequent to the meeting, refused to be bound by the decline on long piece stuff, and will hold their stocks firm at the higher quotations, allowing those who choose to sell at the

reduction. The stock of this kind of lumber is decidedly low in the market.

OFFICE OF LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, Minn., April 22, 1880.

The demand for lumber continues to be so brisk and large that it is hard to find a cause for the weak and nervous condition of the market, and a considerable drop off in prices at St. Louis, Chicago and other points, on all lower grades of lumber. The situation seems, briefly stated, to be: The proper adjustment of the railway tariffs a couple of months ago, broke off the abnormal, unnatural business which Michigan was doing in the country, west of the Mississippi, and restored the trade to the river points, so far as they were able to do it with their depleted and broken stocks, about all that was left Chicago of Western business, was the shipment to yards, which are owned by Chicago firms, and patching up the stocks at St. Louis, Hannibal and other points, which last item ceased upon the opening of the river. The sales of lumber at the river points have been nearly double, and at some places more than the business of last year. The immense cut of logs in Michigan, as well as on the Mississippi made many nervous, and added to the anxiety of Chicago to control the Western trade, and finally induced them to break prices.

The competing points on the river soon ascertained this fact, and have proceeded to meet drop, and up to this time have gone off about \$2 on common dimension at St. Louis, and Hannibal stands from \$12 to \$13, and boards from \$13 to \$14. Raft lumber in water opens at about \$10, \$11 and \$12 for ordinary dimension boards and strips, although so few sales have been made that the figures are hardly established.

Dealers are indisposed to buy, fearing that Chicago will still further force the freight, in which case they will demand cheap lumber in the water, and must have it if they do business.

THE SOUTH.

The Savannah Morning News has the following:

FREIGHTS.—Lumber.—By Sail.—The marked absence of coastwise tonnage is a most unusual feature at this early date in the year. There are no available spot vessels, and with very light offerings to arrive, transactions are limited and rates unsettled. Mediterranean and United Kingdom vessels are still wanted. We quote: To Baltimore and Chesapeake ports, \$6@7; to Philadelphia, \$7@7.50; to New York and Sound ports, \$7@8; to Boston and eastward, \$7.50@8; to St. John, N. B., \$8; [Timber from \$1 to \$1.50 higher than lumber rates]; to the West Indies and windward, nominal; to South America, \$17; to Spanish ports, \$14@15; to United Kingdom for orders, timber 85s., lumber £5 5s@£5 10s. From 50c. to \$1 additional is paid here for change of loading port.

FOREIGN.

From the Timber Trades Journal we extract the following:

LIVERPOOL.

The excitement consequent upon the recent elections is now abating, and we may now hope for a speedy return to a steady business. This for the present is all that can be expected, and only those of a buoyant turn of mind can anticipate any great demand for timber in the present quiet condition of trade. Those who talk of better times being near at hand, of an increased consumption and limited supplies from abroad, with a consequent advance in prices, would probably find it difficult to give sound reasons for their opinions, and it may in many cases be set down to the fact that "the wish is father to the thought."

It cannot be gainsaid that our market is now easier, and, so far as can be seen at present, it is not likely to see much upward movement in the immediate future, and therefore shippers should be chary of sending forward too large a quantity of goods upon a languid market.

The strike of the operators in the building trade still continues in force, pending the decision of the arbitrators to whom the matters in dispute have been referred.

GLASGOW.

The stocks of Canadian goods are getting very low in general, but of ordinary yellow pine timber the quantity in first hands is still considerable, and in rather limited demand.

An auction sale of timber was held at Greenock on the 13th inst., Messrs. Edmiston & Mitchells, brokers, at which the following prices were obtained:

Quebec waney boardwood, ordinary, 47 c. ft. av. per log, 19d. per c. ft.

Quebec yellow pine, 45 to 50 c. ft. av. per log, 13d. to 14½d. per c. ft.

Hewn pitch pine (beam fillings), 20 c. ft. av. per log 13d. per c. ft.

Sawn pitch pine, 29 c. ft. av. per log, 14½d. per c. ft.

Of walnut there is no stock on hand. It is inquired for. The stock of lower port birch is ample; recent prices, 20½d. to 22½d. per cubic foot.

DUBLIN.

The Irish Times in its timber report of the 12th of April says that the elections have somewhat interfered with business during the past week, but demand is steady and holders are firm. Prices have not yet reached the cost of import, and there is no probability of our market being overstocked when floating cargoes meet with a better market

in other ports. The following are the latest quotations: St. John deals, £13 10s. per standard; first Quebec spruce, £21 to £21 10s.; second Quebec, £13 10s. to £14; third Quebec, £12 to £12 5s.; red pine timber, 75s. to 80s. per ton; yellow pine timber, 87s. to 95s.; pitch pine, 65s. to 70s.; large Memel, 75 s.; do., undersized, 55s. to 60s. Another report is to the effect that there is not much change to report in the market this week. Pitch pine timber scarce and gone up in price. A third report states that a fair business has been done during the week in spruce deals at remunerative rates. Owing to advance in first cost and freights prices are steadily increasing.

Havana advises this week report:

White Pine—The cargo ex Ortolan, in port last week, from Philadelphia, has been reported sold, at \$33 per mille feet, 3 and 4 month's time. We accordingly quote \$31@33 gold per mille feet, as to conditions.

Pitch Pine—Continues scarce and owing to the active prevailing demand, we think that well assorted cargoes would readily bring at from \$34@38 gold per mille feet.

Cooperage Stock—box shooks—The greater part of the arrivals of the week have changed hands at 8½¢s. a price that remains steady for good ones.

Hhd. do.—The market is overstocked and has undergone a decline, some 12,000 for sugar have been disposed of during the week at prices below our previous quotation of \$2¼, while those for molasses have remained neglected and entirely nominal.

Empty Casks—Sundry parcels of hhds. sold during the week at from \$3@3½ cash.

Hoops—Continue in large supply and dull with sales of several thousand at \$40 and \$39 per mille, for long shaved.

NAILS.—The demand has been of much the old general character, buyers simply calling for a quantity of stock suited to immediate wants, and refusing in all cases to anticipate any future consumption, even when quite sure it will develop. They are of course holding off in expectation of a drop on prices, even greater than already shown, and especially as iron continues to decline. We quote nominally 10d to 60d common fence and sheathing, per keg, \$5.10; 8d and 9d, common do, per keg, \$5.25; 6d and 7d, common, do per keg, \$5.50; 4d and 5d, common do per keg, \$5.75; 3d and 4d, light, per keg, \$6.50; 3d, fine, per keg, \$7.25; 2d per keg, \$7.25.

Cut spikes, all sizes, \$5.25. Floor casing and box, \$5.75@6.50. Finishing, \$6.10@7.10.

CLINCH NAILS.

1¾ to 1½ in. 2 & 2¼ in. 2½ & 2¾ in. 3 in. & longer. \$7.25@7.60 \$7@7.10 \$6.75@6.85 \$6.50@6.60 per keg

As we go to press, it is reported that outside lots have "cut" the list rate, with sales at \$4.50, and the Western Nail Association will resume operations on Monday next, with a new card, on a basis of \$4.00 per keg for 10d. to 60d.

PAINTS AND OILS.—Jobbers are somewhat irregular in their reports, a portion inclining to complain of the condition of trade, and others still advising a good full movement. As a whole, however, the market for second and third hand parcels is in very fair shape, with distribution covering a general assortment and extending to most points usually represented at this season. The wholesale market is dull on nearly all classes of stock. Values throughout remain about steady but lack buoyancy. Linseed oil has found a moderate demand with a fair offering of stock and easy terms in most cases. Quoted at 78@80 from crushers' hands.

PLASTER PARIS.—We started out this week with the intention of securing information upon which to write a report of the condition of business, and the line of cost on Calcined Plaster, but find affairs in such a muddle, and statements so flatly contradictory, that we abandon the attempt to give anything of an intelligible character. As a sample of the quotations, we may state that figures were named to us all the way from \$2.25 down to \$1.25 per bbl. on the same grade of stock, and both extremes claimed to be the "regular market rate." Buyers can follow the advice of the showman and "pay their money and takes their choice," but we shall not presume to give even a nominal quotation for the present. Bitter competition is the cause of all this, and under existing circumstances this appears suicidal, as the demand seems to be good from all quarters, and unity of action among manufacturers would insure a remunerative price. Stone does not cost less than \$3.50 @3.75 laid down here, and the supply is very small, with a good demand outside of manufacturers, the farmers calling for larger amounts than usual this season.

PITCH.—A moderate demand from most quarters and without new features shown on the market. About former rates ruling and apparently stock enough in hand to fill all requirements. We quote at \$2@2.12 per bbl., for city delivered.

SPIRITS TURPENTINE.—The inquiry without unusual volume or animation and the market, on the whole, somewhat dull. Stocks, however, appear to be under good control, with holders not much inclined to hasten business, and this sustains values at a somewhat higher range recently established. As this report is closed, the quotation stands about 33@34c. per gallon, according to the quantity of stock handled.

TAR.—Business has shown about the usual volume and features, and there is little or nothing new to advise. Holders continue to offer stocks with care and moderation. We quote at \$2@2.25 per bbl. for Newberne and Washington, and \$2@2.25 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded. Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them to capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

No. 137 BROADWAY

"DOWN WITH THE BARRICADES."

This cry has been raised at last in reply to the brazen defiance of the people's rights by Messrs. Decker & Quintard, the Riverside drive contractors. During the winter, very few persons not Riverside property owners cared whether the new drive was barricaded by these contractors or not, but now that spring and summer are upon us, complaints loud and deep are heard from all sides at the continued unwarranted assumption of these men, without the least shadow of interference on the part of the constituted authorities. The contractors claim that not being paid for work performed, they assume the position of ordinary lienors, who have constructed an ordinary building, and that their lien upon Riverside drive is as good, in law, as that put by any builder upon a private dwelling. This is emphatically against the law, a statute which must be well known to these gentlemen's counsel, providing the very contrary for public works. No man who has a claim against the city can put a lien upon the work done by him, or keep possession of it at his pleasure. If this were so, the contractor who paves Broadway, and with whose work fault is found, might interrupt for ever the traffic of this great city. There is not even a clause in the contract made between the Departments of Parks and Messrs. Decker & Quintard, giving the latter the least show of authority to place obstacles in the way of travel along this beautiful drive. It is not our purpose to discuss here the merits of the contractors' claim against the city. It is evident that the warrants signed by the Comptroller, and as yet unsigned by Mayor Cooper, show that there is a division of opinion as to the justice of the claim, among the authorities themselves. But if, by this delay, the contractors feel themselves aggrieved, there is but one and only one remedy for them, and that is an application to the courts. These are open to Messrs. Decker & Quintard; thither they can go, and sooner or later they will have to go there. They must, however, not be permitted to defy property owners and the public any longer with their barricades. These must come down, and that at once, whether Decker & Quintard are paid or not. In this emergency the public do not look simply to the Department of Public Parks to do its duty, but also call upon Mr. Campbell, the Commissioner of Public Works, to take a hand in the removal of the barricades. His Bureau of Encumbrances is compelled to take cognizance of the obstructions that have been erected by the contractors, not only on the line of the drive, but on the side streets which are under the jurisdiction of the Department of Public Works. As to the harricades on the public drive, the moment the road is declared open as a public highway, any citizen unable to proceed on his

journey may remove them as a nuisance. There must be an end to this defiance on the part of men, who, owing to these high-handed proceedings, control more property than either the Astors or the Rhinelanders, their quasi jurisdiction actually extending over three miles of ground. Instead of continuing performances like these, Messrs. Decker & Quintard had better consider whether they themselves may not, one of these days, be brought into Court by property owners who consider themselves injured by such doings. Whatever course, however, the contractors may deem necessary to pursue to protect their private rights, there can be no question as to the public's rights in the premises, and hence we say again to those in authority, "Down with the barricades."

THE NON-ACTION OF THE PARK COMMISSIONERS.

Since the above was written we have received the following communication, showing at least a temporary triumph for the property owners.

NEW YORK, May 7, 1880.

To the Editor of THE REAL ESTATE RECORD.

In your paper of last week appeared a report of an interview between one of your staff and the newly appointed Park Commissioner, Mr. Green, in which the latter is represented as saying that he was unaware of any petition from the owners of Riverside property, for the opening of that Drive, having been sent to the Department of Parks. Such a petition signed by the owners of more than three-fourths of the front on Riverside Drive was handed to Mr. Wenman, the President of the Board, three weeks since, and was discussed by them at the next meeting on the 5th inst. Of course, in vain! Two Commissioners, a Tammany Democrat and a Republican, voting one way, and a Republican and Anti-Tammany, in true Barnacle fashion, the other, or rather an irreparable breach is said to have occurred early in the meeting on some political question. Consequently the "slate" for that day was broken, and with it the hopes of the long suffering property owners, who have waited in vain for six months past to be allowed even to approach their lots much less to build on, or improve them. At last the gordian knot has been severed in another way, and the public can now judge for itself if the beauty of this long talked of and much wanted drive is founded in fact.

Respectfully yours,

C. R. ROBERT.

The following is the petition:

To the Commissioners of the Department of Public Parks:

The petitioners, who are the owners of the property on the Riverside Drive to the number of feet set opposite to their respective names, respectfully represent that the present inability which they and the public labor under to enjoy the use of the Drive is a very great detriment to their interests and to the pleasure which was anticipated from its building. Your petitioners represent that the serious obstacles to its present use arise from the shanties and other buildings left on the grounds dedicated to public use, and known as Riverside Drive, and articles now left lying on the surface of the Drive by the contractors, and that their removal is what your petitioners desire. Your petitioners, therefore, request your Honorable Body to exercise your power to remove these obstacles, or to authorize your petitioners to have them removed.

Signed: C. R. Robert, 378 feet; C. P. Huntington, 204½ feet; P. Callaghan, 998 feet; William B. Lynch, 101.4¾ feet; Abby B. Blodgett (by I. M. Fiske, att'y), 75.9½ feet; Estate Wm. P. Blodgett (I. M. Fiske, exr.), 27.6½ feet; E. S. Bailey, 25 feet; Levi A. Lockwood, 109.1¾ feet; Fredk. K. Keller, 102 and 164 feet; Henry W. S. Mali (per Charles Mali, att'y) 153 feet; Jas. Rufus Smith, 50 feet; Saml. M. Schafer, 100 feet; Charles S. Weyman, 56 feet; Jno. A. Post, Edwd. C. Post, and Fredk. A. Post, 1,200 feet on Riverside avenue; S. R. C. Furniss, M. E. Zimmerman, and C. Furniss, 1,000 feet on Riverside av; M. A. Griswold, 20 feet; Sarah

S. Whiting (extrx.), 20 feet; James Scobie, 48 feet; Fleming Smith, 241 feet; S. B. Clark (per Cyrus Clark), 210 feet; John A. Monsell, 106 feet; Charles E. Tripler, 89 feet; James A. Downing, 25 feet.

A TEMPORARY INJUNCTION OBTAINED.

As the above petition was not acted upon, the property owners have since succeeded in obtaining the following injunction:

New York Supreme Court, City and County of New York, Christopher R. Robert against the Mayor, Aldermen and Commonalty of the City of New York, Nicholas H. Decker and George W. Quintard. On the complaint in this action, sworn to May 4th, 1880, and on the affidavits of Christopher R. Robert, John A. Post, Charles E. Tripler, Edward H. Ludlow, Homer Morgan, Adrian H. Muller, Hugh N. Camp, Louis Mesier, Vernon K. Stevenson, Jr., George H. Scott, Leopold Friedman, John A. Monsell, all sworn to May 4, 1880, a motion being made by James A. Deering, of counsel for the plaintiff, for a preliminary injunction against the defendants, and it appearing to the Court that the plaintiff has property fronting on Riverside avenue, and has right of free passage and access to said property over and along said avenue, and that in the exercise of such rights, he is obstructed and impeded by the acts of defendants. It is hereby ordered, that until the further order of this Court, the defendants, the Mayor, Aldermen and Commonalty of the City of New York and Nicholas H. Decker and George W. Quintard, be and they are and each of them and their agents, servants and employees, are hereby enjoined and restrained from placing, erecting, continuing or maintaining timber, planks, barriers or any other obstructions upon or along the Riverside avenue or drive, or at any of the streets intersecting and entering upon the same, or from permitting the same to remain as an obstruction or interference to the plaintiff, his agents, servants and employees, or any other person passing into, upon or along the said avenue or any part thereof. And on the complaint in this action and said affidavits, let the defendants or their attorneys, show cause before this Court at chambers thereof, on the 12th day of May, 1880, at 11 o'clock, A.M. of that day, or as soon thereafter as counsel can be heard, at the Court House in the City of New York, why the foregoing order or some order to be made of like purport and effect, should not be continued in full force, and until the final judgment and decree in this suit. New York, May 5, 1880. Abm. R. Lawrence, Justice of the Supreme Court. James A. Deering, Plaintiff's Attorney.

In obedience to the above injunction, the barriers were removed yesterday, and Riverside Drive is now practically open.

THE IMPROVEMENTS AT SIXTY-FIRST STREET AND PARK AVENUE.

The southeast corner of Fourth avenue and Sixty-first street, comprising four full lots, purchased some four years ago by Mr. Francis Ehrmann, druggist of Sixth avenue, have just been improved by him in a manner befitting that locality, and creating a corner that will be universally considered ornamental to what is now generally known as Park avenue. The corner proper is occupied by a large, well-appointed drug-store, fronting eighty-three feet on the avenue and twenty-one feet on the street, occupying the first floor, while the upper stories have been arranged for the occupancy of Mr. Ehrmann's family. The exterior of this corner building, however, which gives to Sixty-first street, as well as to the avenue, an ornamental relief from the architectural monotony that prevails all around, at once arrests the attention of the passer by. It is a four-story and Mansard roof building with basement and sub cellar, but with bow windows extending along the various stories on the corner proper and surmounted by a cupola, numerous ornamental railings adding a cheerful finish to the entire front, which is of Philadelphia brick, trimmed with brown stone and encaustic tiles. The entire design shows artistic skill on the part of Mr. Hugo Kafka, the architect, who, in fact, has superintended not only every detail of construction but also of ornamentation. The bow windows in the drug-store, for instance, are so constructed that the colored bottles, which, also in accordance with his design, are

to be placed there in chandelier-like style, can be seen, owing to this arrangement, several blocks distant. Even the mahogany fixtures, with marble bases, the elaborate counters, the prescription desk with its artistic carvings, are all in accordance with the design of the architect, who has taken especial pains in looking after the various details. Statues of Humboldt and Liebig placed in conspicuous corners complete the ornamentation of the store proper, which is certainly the finest and most elaborate of the kind in that section of the city. In the rear of the store is a laboratory, and back of this again is the proprietor's private office, ample arrangements having been also provided for the storing of wines, spirits and other liquids required for the drug business in the basement and sub-cellar.

We will pass rapidly over the upper floors, constructed on the most approved principles, and provided with means for ventilation that the most scientific student of sanitary laws could suggest, by stating that ample room, in fact, more room than is necessary, has been provided on the various floors for Mr. Ehrmann's family. We desire, however, to call attention principally to the house adjoining, the very first house on Sixty-first street, which Mr. Ehrmann has just completed, also in accordance with the designs of Mr. Kafka. This house is indeed a gem from cellar to roof. True, it has a frontage of 19 feet, but by the peculiar construction of the stairs, which have been set back, and an extension of the parlor wall a 6-foot wide entrance hall has been obtained, leaving besides a passage way of 4½ feet. These stairs, though set back in the main hall are, nevertheless, provided with a flood of light through a light well of 3x8, surmounted by an ornamental dome. The parlors, all finished in the very best of cabinet work, are provided with elaborate mantels of statuary marble, furnished by Mr. A. Klaber, while the bed-room floors, also furnished in the same style, are supplied with all the accommodations and improvements the most fastidious housekeeper can desire. The saloon style of wardrobes and wash-rooms, of course, has been introduced in these floors, and nowhere, even in the very upper floors, where there are also several bed-rooms, is there a lack of closets. A very important feature of this house is the grand and elaborate air shaft, which goes from the sub-cellar to the very roof, and a patent ventilator, which provides at all times fresh currents of air. Every wash stand throughout this house is provided with Bowers' patent glass trap, and on every floor ample provision is made for the escape of sewer gas. The plumbing work, by Mead & Rossman, has been completed in strict accordance with the orders of owner and architect, who were determined in leaving nothing undone that could secure health as well as comfort. In this respect, the arrangement completed on these corner buildings are well worthy the imitation of other architects and builders. The basement, also where the dining-room, butler's pantry and kitchen have been constructed with a single eye to comfort and health, presents a most cheerful appearance. It only remains for us to call attention to the grand portico at the main entrance of this house, and the balcony surmounting this portico, so as to give the occupants a magnificent view of the avenue and the Park, which is only a block distant. Of course, the brown stone forming the front of this house is elaborately carved, and trimmed with encaustic tiles. Mr. Ehrmann asks \$27,000 for this house—a price at which, considering the locality and the construction of the house, it will not take him long to dispose of it. We ought to add that the mason work has been done by Mr. William B. Pettit, the cabinet work by George F. Vogel, and the carpenter work by Smith & Crane. All of these mechanics deserve credit for the manner in which their respective jobs have been attended to. Of course, the house contains the natural appendages of dumb waiters, bells, speaking trumpets, and, in fact, everything that modern ingenuity for the construction of a home can possibly suggest.

DAVIDSON'S SEVENTY-FOURTH STREET HOUSES.

Mr. Davidson is one of the most successful and best known builders in New York City, and it is to his credit that notwithstanding his own experience in that line, he strictly follows, while constructing new buildings, the plans designed for him by such an excellent architect as Mr. Geo. E. Ware. The result is at

once noticeable in the three four-story and basement brown stone houses, just erected by him from Nos. 37 to 41 East Seventy-fourth street, near Madison avenue. The location is on high ground, the houses themselves being built on solid rock in the midst of the now popular Lenox Hill district, which with unanimous consent is now surpassing the fashionable Murray Hill district of the past. The brown stone itself used for the fronts of these houses is of a darker shade and of more uniform style than is generally met with in other houses now being built in the vicinity. They all have a portico artistically designed by the architect, and which gives the main entrance a more than ordinary stylish appearance. They are twenty foot houses, are sixty feet deep, and the depth of the lot is one hundred and two feet. The subcellars are light throughout and floored with an artificial pavement. A large dining or billiard room, finished in hard wood, occupies the front part of the well constructed basements, while the kitchen itself and the laundry are supplied with all the modern improvements and innovations that science has invented or which ingenuity could suggest.

In this connection it is well to state right here that extraordinary care has been taken with the plumbing work in these houses. Every part of them being finished under the immediate supervision of the builder and with the advice of the architect, who, it will be remembered, has acquired quite a reputation, owing to his successful construction of houses with superior plumbing work. Each bath and each basin has independent pipes connecting them with the main pipe, so that the occupants when requiring either hot or cold water are not required to wait when servants or other parties on the other stories are drawing water. Each basin, also, is provided with a special waste pipe, so that if there is at any time any leakage it will be carried straight down to the cellar.

The main or parlor floors are furnished in the very best of style; the mirrors, both in the front and back parlors, showing to great advantage. Hardwood mantels of exquisite design, and grates, gotten up in the most artistic manner, add greatly to the ornamental part of this floor. Nevertheless, it must be admitted that there is no lack of these matters on the other floors; no less than nine mirrors being supplied for each house. In the main hall a new principle of construction has been introduced, the stairway being hidden from view by some sort of nicely-designed curtain, which affords ample opportunity for those entering these houses to view at once, and without any interruption, the artistic appointments of this floor. The upper stories, some of which are finished in pearl, are all supplied with Tennessee marble mantels. Of course, the saloon style, connecting the front and back chambers by elaborate dressing rooms, supplied with wardrobes, has not been omitted, and everything belonging to the comforts and great luxury of a well appointed mansion has been supplied. The cabinet work throughout these houses is done by Gresso, and the grates have been furnished by Hampton. Any in search of a first-class residence in the most eligible locality cannot do better than pay a visit to these really excellent houses.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages vi. and vii of advertisements.

The season, as well as the state of the market, appear to have suddenly conspired to put an end to important auction sales this side of the summer months. There were numerous adjournments in the earlier part of the week, and at the close many withdrawals. Thursday's announcements were looked forward to with considerable interest, and at the hour of noon there was a fair attendance to watch the result of the Executor's sale of fifty-four lots belonging to the Carrigan estate. Messrs. A. H. Muller & Son, who had charge of the sale, announced that every lot offered would be sold, there would be no bidding in, and, in fact, the auctioneer desired the public distinctly to understand that such were the instructions he had received from the executors. This announcement was received with considerable satisfaction by numerous gentlemen facing Mr. Muller's stand, among whom were several owners of

Riverside and Morningside and other West Side lots. The first lot offered was on the South side of 113th street, 194.63½ East of Riverside avenue. After slow bidding it was knocked down to Mr. Simon E. Church for \$2,600. The two lots adjoining to the eastward were then sold to the same purchaser at \$2,500. After a brief consultation with the executors the auctioneer stated that these three lots had actually been sold, but if those present did not intend to bid any higher prices the remainder of the property would not be offered. The audience was somewhat astonished, one or two gentlemen asked that certain particular parcels be put up, but after a brief delay Mr. Muller said that the sale of the Carrigan estate was at an end, and the remainder was withdrawn. The same auctioneer then offered two lots on the West Side of the Boulevard, north of 122d st, but no satisfactory bid could be obtained, and these two lots were also withdrawn from sale. At the conclusion of the sale Mr. Church said to the writer that he was perfectly satisfied with his investment, and that the only reason why he had no more competitors in the bidding was simply owing to the unimproved condition of all property in that section of the West Side. He desired it to be made publicly known that the criminal neglect of the various municipal departments in not opening, regulating and improving certain streets and avenues deterred numerous capitalists from investing on the West Side, and that the blame for the present stagnancy in the market for this class of property must be laid at the doors of these municipal officers.

Others, equally as well posted as Mr. Church, declared that \$2,500 was a good price for that property, and that executors and trustees still bugging the inflation prices of the past would soon be made to understand that speculative property, like the sort just offered, will not at this period—so distant from the time of improvement—command prices beyond its actual value.

Mr. Harnett sold at public auction on Thursday, three lots on the east side of Eighth avenue, between One Hundred and Twenty-sixth and One Hundred Twenty-seventh streets, for \$4,100 each.

In Brooklyn during the past week there have been numerous auction sales, as will be seen by the list at foot; notably, the sale of the sugar refinery on First street, southwest corner of South Second street to East River, for \$120,000. Mr. John Minturn was the purchaser. Fifty-eight lots in the Twenty-second Ward of Brooklyn were sold to various purchasers on Tuesday last.

GOSSIP OF THE WEEK.

The lull in sales at private contract continues and while there is not the least disposition of holders to weaken as to prices, the era of inactivity appears to force itself upon Pine street. Investors are too determined to have, especially vacant, lots at their own figures, and this point owners are not willing to yield. They claim rather that though the Presidential election may somewhat retard operations in the fall, there will be a fair business done, as the country was never in a healthier condition, financially and commercially speaking. "Even," say they, "if we have to wait till next spring when a general revival all along the line is looked for, we can well afford to view the situation with calmness."

On Monday last, the committee charged with selecting the site for the new opera house determined to purchase the block bounded by Forty-third and Forty-fourth streets, Vanderbilt avenue and Madison avenue, 189x210. It is an open plot only recently fenced in. It is understood that the seller, Mr. Wm. H. Vanderbilt, who is one of the incorporators of the new academy of music, has made the terms of sale quite easy to the board of directors and that the consideration is about \$500,000.

By the additional purchase of more lots on the Fourth avenue, east side, 53 feet south of Nineteenth street, 78x150, as will be seen in the column of transfers, Mrs. Virginia B. Matthews acquires title to the whole front on Fourth av, east side, between Elgbteenth and Nineteenth streets. The magnificent building called "The Florence," northeast corner Eighteenth street and Fourth avenue, is also owned by Mrs. Matthews. These important transactions were carried through by the Messrs. Barton & Whittemore, of 106 Broadway. The purchase of the corner of Nineteenth street by the same lady was alluded to in this column last week.

Of sales at private contract made during the week

we hear of the purchase by Mr. Spaulding, the builder, of two lots on the south side of Sixty-fifth street, between Fifth and Madison avenues, for \$25,000 each. Mr. M. A. J. Lynch has sold No. 9 East Thirtieth street (stable), for \$20,000 cash.

In Brooklyn, another block, forming part of the Leffert's estate, has been sold at private contract at an average price of \$750 per lot.

James M. Halsey, assignee of Isaac King, of East Hampton, has sold the Kling farm of 190 acres, with all the buildings, to David E. Oshorn for \$1,700.

John T. C. Norton, of Far Rockaway, has sold the Samuel Norton property to Edward Healy for \$90,000. It comprises about 200 acres of upland, marsh and ocean beach, extending from Jamaica Bay on one side to the Atlantic Ocean on the other, and lies contiguous to the Horace F. Clark property, which was recently sold to Mr. Cheever and others for \$150,000.

The following are the sales at the Exchange Sales-room for the week ending May 7:

* Indicates that the property described has been bid in for plaintiff's account:

† Indicates that the property described was purchased for account of parties in interest.

MAY REMOVALS.

It will be seen by our advertising columns that Siegmund T. Meyer & Sons, Real Estate Brokers and Auctioneers, have removed their offices to 111 Broadway, basement, Room J.

R. C. Ferguson has removed to 150 Broadway. F. G. & Chas. S. Brown to 77 Liberty st.

Hugo Kafka, the architect, has taken new offices at 788 Broadway.

BUILDING MATERIAL MARKET.

BRICKS.—The improved tone noted at the close of our last report has strengthened, and the advantage is entirely in the sellers favor for the present. This arises solely from the stoppage of production at Haverstraw, consequent upon the "lock-out" of the workmen by manufacturers, and some indications that the same course will be pursued upon the east side of the River, at many if not all of the principal yards. We understand that the laborers have been very quiet thus far, indeed unusual so, but seem quite determined and are met by equal firmness among employers, who very reasonably foreseeing that the price of Brick must go down or the consumption greatly diminish, deem it best to resist from the very outset all attempts to add unreasonably to the cost of production. It may, however, be added in this connection that rumor insinuates the possibility that certain pretty large holders of old stock, when prices recently took the downward turn, were instrumental in hastening the rupture, and are not yet fully prepared to see a settlement. Of course in the absence of supply there has been no price for Haverstraw's, and quotations are omitted as entirely useless. "Up River" stock has come to hand fairly, and naturally found a ready sale, the price ranging from \$7.50 up to \$8.25 with no more now available at the inside rate, and a fraction above the extreme also asked in some cases. There has been fair arrivals from Jersey with sales at \$7.50 to \$8 per M, the latter for the best brands. The Long Island manufacturers also have not been behind in discovering their advantage and we hear of a few cargoes coming in on which \$8@8.50 was asked, but the latter even holders admitted to be a little above what could at once be expected. Thus far the local consumption has not been in any way impeded as the amounts held by builders and available from the stock of dealers satisfied all wants. Front Brick still slow and uncertain of sale and wholesale values nominal.

CEMENT.—Rosendale has found a good and general demand with no difficulty experienced in maintaining full former rates. Some of the companies are understood to be running behind in their orders. Foreign is also in first rate shape. Some little irregularity on values accrued under competition between hands to secure certain desirable orders and this led to shading, but in the ordinary way stock costs just as much as ever and importers are not likely to give concessions while the present extreme rates of freight continue. The arrivals this Spring have been liberal, but the bulk went out at once to meet contract and the current demand, therefore, found no relief. There is little or no accumulation in store except of unknown or undesirable hands.

HARDWARE.—The distribution of supplies continues somewhat slow and uncertain, with not many holders reporting the market as having gained strength since our last. There are a few who insist that the position is changing for the better, but the statement lacks solid endorsement, and, indeed, on the contrary a great many signs of weakness are noticeable with a certainty that even a decided concession would not greatly add to the sale of supplies at the moment. Buyers in fact have made up their minds to secure a decline, and it commences to look as if they would get it on most leading styles, as "cutting" is already rumored in several instances.

LATH.—On the whole the market is working into better condition apparently, and receivers speak in more cheerful manner. Some of the "preferred" stock, during the period since our last, has, it is understood, been selling out on "private terms" again, but in the regular course of business, last week's figure was the lowest accepted, and of late receivers have obtained as high as \$1.62½, and not over anxious to sell at that. They say that while the recent unloading of speculative stocks has to a certain extent placed a supply in the hands of dealers, it has also broken the price to a point at which manufacturers will not ship, especially as they secure no reduction in freight charges, and that light arrivals for some little time to come may now be expected. Of course, this is a sort of stereotyped story, but may have somewhat better basis than ordinary just at the moment. The lath business has not been a happy one for several weeks.

LIME.—The market throughout is firm and demand good, such lots of State as come forward are placed without much difficulty, and a great many cargoes of Rockland could, in all probability, be sold, but the arrivals were very limited, and only indifferent offerings made to arrive. Prices firm in all cases.

LUMBER.—The situation does not change to any very great extent. There is in some cases a suspiciously buoyant manner of expression used, especially toward those who might, if they were green enough, be led into printing extreme views, but it must be admitted that it would require a most ferocious "bear" to discover anything of a really depressing nature at this moment. Demand is good from local sources; from domestic points to which shipments hence are made, and also on foreign account. In a great many instances supplies are short and cannot be immediately replaced and buyers rarely object to the former line of cost, thus forming a combination of favorable influences through which business is supported in a healthy and cheerful position. Attempts to increase the cost, however, at once develop the combative disposition before alluded to, and we do not think the inclination among the principal dealers is favorable toward forcing their customers with too much severity. Offerings from primary points increase somewhat, and sellers appear more anxious.

Spruce continues to be quoted with firmness, and receivers seem to have much confidence in their ability to hold the advantage for some time to come. The product at the Eastward is daily increasing, but the major portion of the mills resuming work have contracts for all they can turn out during several weeks, and in common with other sources of supply, are refusing additional orders. This, it is claimed, insures a small and irregular offering afloat with almost a certainty that it would have to be something very inferior, indeed, upon which a concession might become necessary. Most of the arrivals continue to come to hand on contract, and at the close several buyers are said to be anxious, awaiting an offering upon which to bid. Quoted at about \$16@17 for Random and \$17@18 for Specials.

White Pine on all outlets is meeting with a demand quite equal to the supply, and in some cases in excess of dealers ability to furnish the desired assortment. A firmly supported line of values is, therefore, a natural sequence, and under exceptional circumstances buyers will pay a premium, either for favor of selection or delivery. Receipts have been only fair, supplies from the Northward as yet coming forward slowly and the shipments from the West delayed by the crowded condition of the canal. Exports keep up to about calculations. We quote at \$17@18 per M. for West India shipping boards; \$23@25 for South American do.; \$16.50@17 for box boards; \$17.50@18 for do. wide and sound do.

Yellow Pine continues to show the same absence of surface indications of animation before referred to, and through about the same causes. Buyers who were compelled to have stock within a certain specified time, and some almost without regard to cost have now about concluded their arrangements, and left the mills so locked up on orders, that nothing additional can be delivered for many weeks, especially as the supply of tonnage does not increase. Under

these circumstances, therefore, buyers do not find necessity for running about on shopping expeditions which would secure no stock and might further excite the market. In reality, however, there is a first rate demand thus held in check and supplies becoming available do not have to go begging for a customer if no further advance is asked. Sellers who endeavor to reach up for higher figures, however, find resistance and there is no buoyancy in the position. We quote random cargoes at about \$24@25 per M; ordered cargoes, \$25@27 do; green flooring boards, \$25@27 do, and dry do do, \$26@28. Cargoes at the South \$16@18 per M. for rough, and \$22@24 for dressed at Atlantic ports; \$15@16 for rough, and \$20@22 for dressed at Gulf ports.

Hardwoods of really merchantable quality are in good demand and at full prices. There has been an attempt to foist some inferior stock upon the market and it sold low of course, but did not produce the weakness noted by certain journals whose reporters appear to struggle so hard to comprehend the situation, and with such poor success. Indeed all sound, well seasoned wood is scarce, and home demand alone likely to maintain its value which now averages about \$5 per M over last year, especially on Walnut. All interior advices are firm. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple, \$30@35; chestnut, 1st and 2d, \$30@35; do. do. culis, \$18@20 do; cherry, \$45@75 do; white wood, $\frac{1}{2}$ and $\frac{5}{8}$ inch, \$25@27.50, and do. inch, \$33@35 do.; hickory, \$35@45 do. for Western, and \$65@75 for good nearby stock.

The general yard trade has been very good in volume and of quite a general character, with some of the recent accumulations of stock again working down. Prices well maintained and dealers in all cases speaking with firmness and confidence.

From among the lumber charters recently reported we select the following:

A Nor. barque, 475 tons, from Savannah to Passages, 200 M resawed lumber, \$14.50; a schr, 204 tons, from Bucksville to Curacao, lumber, \$11; a schr, 201 tons, from Bucksville to San Fernando, lumber, \$11.50; a brig, 302 tons, from Fernandina to Curacao, lumber, \$11; a barque, 522 tons, from Portland to Buenos Ayres, lumber, \$13.50, net; a Br barque, 356 tons, from Bridgewater, N. S., to Barbados for orders, lumber, \$6.75; a Br barque, 553 tons, from Bridgewater, N. S., to Sharpness, deals, 62s; a Dutch barque, 770 tons, from St. John, N. B., to the Continent, deals, 62s. 6d; two Nor barques, 392 and 419 tons, same voyage, 66s. 3d; a Ger barque, 391 tons, from St. John, N. B., to a direct port in Ireland, deals, 63s. 9d; a Nor barque, 305 tons, from St. John, N. B., to Hull, deals, 62s. 6d; a Nor barque, 255 tons, same voyage, 66s; a Br brig, 236 tons, from Two Rivers, N. S., to New York, spiling 4 c; a Br schr, 98 tons, from St. John, N. B., to New York, spiling, $\frac{3}{4}$ c per foot; a schr, 150 M lumber, from Kennebec to New York, \$1.50, and towage and stevedore charges; a schr, 150 M lumber, from Savannah to Philadelphia, \$7.25; a schr, 200 M lumber, from Brunswick to Boston, \$8; two schrs, 300 M lumber, from Pensacola to Boston, \$9; six schrs, from Richmond to New York, oak ties, 16@17c; a schr, 100 M lumber, from Wilmington, N. C., to New York, \$7; a schr, 160 M lumber, from St. Simon's Island to New York, \$7.50; a schr, 230 M lumber, and a barque, 366 M lumber, from Brunswick to New York, private terms; a schr, 425 tons, from Darien, Ga., to Bath, lumber, \$7.75; four schrs, with an aggregate of 900 M feet, lumber, from Pensacola to New York, \$9; a schr, 325 M lumber, from Pensacola to New York, \$9; a schr, 165 M lumber, from Brunswick to New York, \$8; a schr, 235 M lumber, from Savannah to New York, \$7; a schr, 270 M lumber, from Savannah to Baltimore, \$6.50.

	Exports of lumber from the port of New York:	
	This Week.	Since Jan. 1, feet.

Total	1,748,493	24,631,795

STATE.

The Albany lumber market, for the week ending May 4th, is reported by the *Argus* as follows:

We have new receipts of lumber from Oswego; those from Buffalo will be here to-day or to-morrow; all of it will be wanted. Orders for Pine lumber since our last report from the East and South have been free at steady prices, and now that coarse lumber is arriving, a more general trade will follow its advent with our usual run of purchasers. But little change is expected in present quotations until the close of the month.

Coarse lumber, both Spruce and Hemlock, is arriving freely, imparting much life to business. Quotations are unchanged, but the prospect is good for an advance on both kinds.

The latest reports from Saginaw and Bay City are as follows: "The market shows a fair degree of activity, although the trade is not large or active; some contracts of stock to be cut; 1,000,000 feet by Bay City parties at \$6.50, \$13 and \$30, and 200,000 feet at \$7, \$14 and \$30."

The receipts of Lumber by lake at Buffalo for the week are 10,209,000 feet; by rail 75 carloads. At Oswego 5,177,000 feet.

Freights from Bay City to Buffalo and Tonawanda, \$2 per M feet; from Saginaw \$2. From Buffalo and Tonawanda to Albany, \$2.25 per M feet. Lake Onta-

rio freights to Oswego \$1 per M feet, and from Oswego to Albany \$1.80.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette Office,

Bay City, May 4, 1880.

The market is less active than awhile ago, which is not a matter of surprise; it would be more surprising if it were not so. The stock now on the docks is nearly all sold, only a few hundred thousand feet here and there being obtainable, and a large number of orders for stock yet to be cut have been placed. There is scarcely a mill but has sold stock ahead, some of them so much that they decline any further offers. This, with the flurry in the Western market, has caused a lull in transactions in this market. Small lots continue to be sold, but there is an absence of larger transactions, the only one we hear of being 1,000,000 feet at \$6.50, \$13 and \$30. Two lots, one of 200,000 and other of 300,000 feet have been sold at \$7, \$14 and \$30, and other small lots of ordinary stock at \$6, \$13 and \$30. The feeling among holders is about as firm as formerly, the general feeling being that with freight at present rates, there is no necessity in making concessions on stock. The mills are about under way, but it will be a few weeks yet before the lumber to be cut will be fit for sale, and the present quiet condition is likely to extend until the new cut is ready for the market.

Freights have fallen off about 50 cents. Barges have been loaded at Bay City for Buffalo and Tonawanda at \$2 and at 25 cents latter from Saginaw, but this has only been the case during the better part of the week. Cargoes have been rather hard to get. To Ohio \$1.75 is the lowest we have heard of.

Shingle trade is good. Several millions were sold at Tawas at \$2 and \$3, but \$1.90 and \$2.90 were more common prices. No standard shingles can be got much below these figures.

The shipments by water from the river for the season to May 1st have been as follows:

	1878.	1879.	1880.
Lumber	23,442,646	7,816,447	83,383,068
Lath			3,137,000
Shingles	6,234,000	2,135,000	8,292,100
Hoops			1,970,000
Pickets			5,000
Salt			92,583

We quote cargo rates:

Three upper quantities	\$30 00@35 00
Common	13 00@15 00
Shipping charges	6 50@7 50
Lath	@ 1 75
Shingles	@ 3 00

LUMBERMAN AND MANUFACTURER,

MINNEAPOLIS, Minn., April 29, 1880.

The condition of the lumber trade now is all that any reasonable man could ask, if they were only men engaged in the business who believed that there was any intrinsic value in lumber, that it was worth what it actually cost to produce it, besides the reasonable worth of the standing trees. The general prosperity of the West, with its enormous surplus of grain and money now in the hands of the farmers, to be devoted to improvements involving consumption of lumber, would seem to promise an unprecedented trade for 1880.

St. Louis, and all the markets between there and Minneapolis are selling a much larger per cent. of lumber, as compared with stocks on hand, than ever disposed of before, and at no time has the lumbermen been so able to carry stocks as they are to-day. Nobody is over-loaded.

Chicago is in the pouts; don't know whether she can absolutely drive the lumbermen of the West into bankruptcy without involving themselves in the common ruin or not. If they could get out whole, or even alive, they would quickly sacrifice all their relations (in trade) over the West. The log and mill men of Michigan who have stood all the losses of the last decade, and done all the work, are at last getting a little out of humor, and are talking bravely, and at the same time hunting for boats to lug the products of their mills off to the auction at Chicago to be sacrificed.

The Western lumber dealers will continue to prefer paying a middleman to buy his stock by the cargo and retail it out to him, than to go to the makers and buy of them. This is all that prevents the lumbermen of Michigan from doing what they are now considering.

The rivers of the West are at a grand stage, and nearly all the mills are running. The Chicago drops fall flat, so far as affecting prices in the Northwest.

NORTHWESTERN LUMBERMAN,

CHICAGO, April 28, 1880.

The week past has not been remarkable, either for the extent of business transacted, or for any extraordinary developments in the way of prices. Cargoes have, some days, been in good supply at the sales dock, but the several severe storms which marked the week, combined with other causes, have militated against heavy receipts, while the same condition of weather has somewhat interfered with operations in the yards. Trade at the dock has not been characterized by much life. Piece stuff may be quoted at \$8.50, with one or two sales of white lake at a lower figure, and holders striving for higher prices, while buyers' views tend towards the lower range. Some cargoes have been held at the market for as long as five days, the owners declining the prices offered and holding firm for \$8.50 to \$9. In one or two such cases the owner has at last given up the contest, and sold at the concession, while in others, the price has been obtained, or the cargoes have been placed on dock to be held for a price more in accordance with the

owner's views. The non arrival of larger quantities of lumber is attributed by some to the weather, by others, to the fact that the mills have but just started up, and not all are yet in operation; while others, and among them some of the best informed men with whom we have conversed, attribute the absence of Manistee and Ludington cargoes on the market to the recent agreement entered into among the manufacturers of those places, not to sell piece stuff at less than \$9. One cargo of a lot of 1,000,000 feet of high grade, dry boards and piece stuff, from Ford River, brought \$19; a second was sold at \$18.50, and it is said that a balance of the lot was contracted to arrive at \$19. One cargo, Muskegon choice and dry, sold at \$17, while a load of Muskegon dry, of medium grade, brought \$15.50. A deck load of Manistee boards and strips sold at \$13.50; the hold full of piece stuff brought but \$8.50. Several country dealers have attended the markets during the week, and two or three lots have been taken by them, but we hear of more who, under the conviction that lower prices would yet prevail, have contented themselves with picking up a few car-loads at the yards to answer immediate wants. The offerings of shingles have included some seven or eight cargoes. Favorite brands and, in fact, standards of all reliable makers, have been firm at \$2.25.

As will be seen by the figures, the trade for the past week shows a falling off in receipts to the extent of 2,647,400 feet in lumber, and 10,000,000 shingles as compared with the corresponding week of last year, while the shipments show a falling off of 5,630,419 feet of lumber, and in shingles the gain over last season is but 290,000. In the total business of the year, however, there is a gain, to date, of 2,202,601 feet of lumber, and a decrease of 8,482,000 shingles in receipts, while in shipments there is a decrease of 263,470 feet of lumber, and an increase of 14,035,000 shingles.

The Lumberman and Manufacturer has the following on summer logging:

Many weeks ago we warned our readers that the Michigan loggers would continue to cut timber until a maximum supply would be reached. It seems that there has already been cut a much larger quantity of logs than there was in 1879, and all our Michigan exchanges contain items like the following from the *Muskegon News and Reporter*:—"The prospect is now that there will be more logging done this summer, in this part of Michigan, than was ever known before. The lumbermen have begun to find out that it does not pay to await the fall of snow, but rather that logs can be put in by tram railroads and by tracking, as well as by sleighing. It is going to make lots of work for the boys, which at once makes 'em feel joyful."

THE PRICE OF LUMBER.—The recent decline in prices at Chicago, St. Louis, Hannibal, and other towns along the river, has caused a little uneasiness lest there should be such further movement in this direction as would carry lumber down again to cost. We feel sure that these fears are groundless. Certainly there is nothing in the outlook to justify such a course on the part of the fraternity. Still it is to be taken into account that there was almost no excuse for cutting down prices at Chicago, outside of the desire of the dealers to buy and contract for cheap lumber on the opening of navigation with a view to restoring prices after full stocks were brought.

All over the country the business is good. The demand is very heavy, and the stocks very light. The log crop though full is not excessive, and will all be absorbed in the year. The advance in lumber during the fall and winter did not keep pace with the rise in all other staples, and the prices have not at any time gone beyond reasonable profits as they did in iron goods and other commodities which were more than doubled in a few months. With the present figures well maintained, no more profit can be realized than was made last year, owing to the increased cost of logging and manufacturing. The price of common lumber is only \$2 over the figures of 18 months ago, or 20 per cent. The problem in the West (as we have insisted) is rather one of transportation than cost or profit. The great lumber manufacturers of the West will not submit to a loss of their trade, even if the East and West railway lines force them to sacrifice their profits. With \$21 per car in favor of St. Louis, Hannibal, etc., they ought easily to maintain their present list, and there is no disposition to drop on prices in the Northwest, and there will be none unless it is forced by Chicago.

Despatches from Chippewa Falls this May 4th, reports as follows:

The river is very high at this point. The log-jam on the Chippewa River extends from the Big Eddy to Eagle Rapids, a distance of five miles, and is estimated to contain from 150,000,000 to 200,000,000 feet of lumber.

FOREIGN.

This week's Havana advices report:

White Pine—No further arrival to report and under an active demand, we quote \$31@33 gold per mille feet, as to conditions.

Pitch Pine—Continues scarce and owing to the active prevailing demand, we cannot quote at any thing below \$33@38 gold per mille feet for good assortment.

METALS—COPPER.—Ingot since our last report has further receded in value without attracting much demand, and the major portion of the business is confined to a jobbing distribution. Offering fair. Quoted at 20 $\frac{1}{2}$ @20 $\frac{3}{4}$ c. cash for Lake. Manufactured copper in average demand and valued as before. We quote as follows: Brazier's Copper

ordinary size over 16 oz per square foot, 34c per lb; do do do, 16 oz and over 12 oz per square foot, 36c per lb; do do, 10 and 12 oz, per sq foot, 38c per lb; do do, lighter than 10 oz per sq foot, 40c per lb; circles less than 84 inches in diameter, 37c per lb; do 84 inches in diameter and over, 40c per lb; segment and pattern sheets, 37c per lb; locomotive fire box sheets, 34c per lb; Sheathing Copper, over 12 oz per sq foot, 32c per lb, and Bolt Copper, 34c per lb. IRON—Scotch Pig gained a pretty fair sale at times, but not enough to neutralize the full arrivals and liberal offerings, and prices were weak and unsettled throughout. We quote at about \$21@25 per ton according to brand and quantity. American Pig has been offered with freedom and at pretty low rates; but this was not a success in attracting demand, buyers calling for only small job lots on immediate necessity, owing to the competition from the foreign grades. We quote at \$30@31 per ton for No. 1; \$25@27 for No. 2; and \$24@26 for No. 3. Rails have reached a still further decline in cost without much business made public; but there is reason to believe that in a quiet way quite a number of good-sized contracts are making for future delivery. We quote at \$53@56 for iron, and \$66@70 for steel, according to delivery. Old Rails \$28@29 per ton; scrap \$21@26. Manufactured Iron continues in a dull and more or less nominal condition, although the general tendency is in buyers' favor. Supplies ample, and freely offered. Nominally we quote Common Merchant Bar, ordinary sizes at 3@3.2c. from store, and Refined at 3@3.5c.; wrought beams at 4@4.2c. Fish plates quoted at 3.5c.; track bolt and nuts, 4.3c.; railway spikes, 3 1/2@4c., tank, 4.3c.; horseshoe 4.2c.; angle, 3.8c.; best flange, 5.8c.; and domestic sheet on the basis of 4 1/4@4 1/2c.; for common Nos. 10@20. Other descriptions at corresponding prices with 1-10c. less on large lots from cars. LEAD—Domestic Pig met with only a slow, uncertain sale, and the tone of the market was generally weak, though holders did not force stocks. We quote 5@5 1/2c. The manufactures of lead are firm and quoted: Bar, 7 1/2c.; Pipe, 8c., and Sheet, 8 1/2c., less than the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 45c. on same terms. TIN—Pig in full supply with a tendency to still further accumulation, and the market in a very unsettled nominal sort of condition, but the main advantages with buyers. We quote 17 1/2@18c. for Australian, 18@18 1/2c. for Straits, 18@18 1/2c. for English Refined, 17 1/2@18c. for do. Common. Tin Plates find some little demand from canners, with possibly a tendency to increase; but there is no positive animation on the market, and the general tone is weak on all grades. We quote I. C. Charcoal, third cross assortment, \$7.62 1/2 @7.75 for Allaway grade, and \$7.75@7.87 1/2 for Melyn grade; I. C. Coke \$5.25@5.37 for B. V. grade; \$5.37 1/2@5.52 for Yspitt grade; Charcoal terne \$6.56 @6.62 1/2 for Allaway grade, 14x20; \$13.50@13.62 1/2 for do., 20x28; Coke terne, \$5.50@5.62 1/2 for Glais grade, 14x20, and \$12@12 1/2 for do., 20x28—all in round lots. Spelter was quite dull and uncertain, and the business solely of a jobbing character. Quoted at about 6@6 1/2c. according to brand. Sheet Zinc lower and selling slowly, with offerings of stock fair. We quote at about 7 1/2@7 3/4 according to quantity.

NAILS.—No effort to stir up and stimulate demand has proven very successful, and the business shows much of the old, slow dragging and uncertain tone. Manufacturers, however, seek a controlling influence through reduced production, and supplies from first hands are offered with moderation, while the card rate remains as before. "Outside" lots, in the meantime, continue to be offered with much freedom, and as low as \$4.50, probably lower in some cases. As we close, information is given that at a recent meeting of the Atlantic States Nail Association, the card rate was reduced to \$4.25 from 10d to 60d with 10c. per keg allowance for large lots; but it is said that outside holders are selling even below this.

PAINTS AND OILS.—On local account not quite so much doing in the general line of Paints and colors, but some increase in orders from out of town sources, and especially within what may be called a suburban radius. The accumulation, both as regards quantity and assortment, has been equal to the calls made upon it, and was available at former cost; but holders not pressing business, or showing any inclination to grant concessions as a bait to buyers. Buoyancy is checked, but there is no basis for any material reaction. Linseed oil in very good demand for consumptive, and the tone of the market steady, but without buoyancy. Quote at 76@78 from crushers' hands.

PITCH.—Business fairly active in the ordinary form, and the market steady on the former line of prices. Stock enough available, but no surplus. We quote at \$22 1/2 per bbl. for city delivered.

SPIRITS TURPENTINE.—Demand quite generally has been moderate on all outlets, and buyers could not be hurried, with the natural sequence of this to be found in easier rates. Supplies not over large, but increasing, and offered with greater freedom. As this report is closed, the quotation stands about 31 1/2 @33 per gallon, according to the quantity of stock banded.

TAR.—A good average trade demand prevailing, for which the offering was fair, and the wants of pretty much all buyers met without difficulty. There is no surplus stock however, and prices rule firm. We quote at \$22@25 per bbl. for Newberne and Washington, and \$22@25 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

REAL ESTATE.

IMPROVEMENTS ON RIVERSIDE DRIVE.

We were unwilling to believe the rumors afloat that some of the Park Commissioners were disposed to close up Riverside Drive again. This would have been so antagonistic to the interests of the property owners and taxpayers, and regardless of the public's rights in the premises, that we could hardly credit such an action on the part even of men who consider politics of more importance than the public good. We have reason to believe that these Commissioners, after having settled the, to them interesting, question as to who shall be President of the Department and pocket the \$6,500 per annum, will hold more frequent meetings and settle down to the important labors entrusted to their care. Whatever be the result of the litigation in the Supreme Court, the Park Commissioners henceforth regard the opening of Riverside Drive as an accomplished fact, and no paper resolution of their adoption can or ought to change it, now that the public have actual possession of it. Like sensible men they already acknowledge that they have been beaten by the irresistible force of public opinion, and the wisest thing they can do now is to act up to the requirements of the occasion. First of all, the drive should be watered at once, and some fine trees should be planted so that in the course of time there will be ample shade. Last Sunday's experience was anything but pleasant to those who came to enjoy the natural beauties of the drive, the clouds of dust and the piercing rays of the torrid sun detracting considerably from the comfort of those who visited the new drive. Mounted police should also be stationed along the various sections of the avenue so as to preserve order and prevent too fast driving. In fact, instead of acting counter to the wishes of the property owners, it is the bounden duty of the Commissioners to at once improve Riverside Drive. Seats, for instance, should be provided along the slopes and knolls, and the grass-plots should be kept in excellent order. Seventy-second street, also, from the Central Park to Riverside, should be made into a nice pleasant drive so as to render the connection between the two parks as cheerful and comfortable as other park drives. In all these matters, however, it is important that the property owners themselves should continually urge these improvements upon those in authority. Vigilance on the one side will heget energy on the other. It is to their own interest to keep their eyes continually upon the doings of the Park Commissioners and keep them to their duties. Thus far one or two individuals have taken upon themselves the burthen of all this work. The time has now come at last for vigilant activity on the part of all directly interested, and, by introducing these various necessary improvements property along this most magnificent drive will, probably, in the course of time, command values in full accord

with the ideas of the most sanguine West Side owner.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages vi and vii of advertisements.

The auction sale of the Riverside Park front, between One Hundred and First and One Hundred and Second streets, by Mr. Harnett, on Tuesday last, has been commented upon rather severely by the habitués of the real estate market, owing to the extraordinary terms of sale which the parties in interest instructed the auctioneer to announce. These terms were that the property when sold per lot, would again be put up as a whole, and anyone bidding a round sum over the aggregate figures of the separate lots would be considered the purchaser. Of course, these conditions turned the sale into an actual farce and disgusted quite a number of bona fide investors, who made a short roundabout and quit the salesroom. Nobody blamed the auctioneer, who himself deprecated this novel mode of imposing queer terms of sale; but he had no option, and had to follow orders, especially as it was a Supreme Court sale. If those in interest had followed the precedent set at the sale of the northwest corner of Sixth avenue and Fourteenth street, about a year ago, they would have fared better, and all parties would have been satisfied. At that time the entire property was put up as a whole, first, with the condition that if it should not bring \$190,000 it would be offered in separate lots. It did not bring the sum first mentioned at the first bidding, and when again put up the resale worked admirably, and gave satisfaction to all concerned, the aggregate figure at the resale being \$180,000. The figures obtained at the Tuesday sale of the Riverside lots cannot be considered market prices, there being a mortgage of \$97,000 on the lots offered, and the parties in interest were determined to secure them, regardless of the views of bidders. The following were the original bids, but owing to the peculiar terms these bids were "wiped out:" Northeast corner Riverside Drive and One Hundred and First street, \$12,300; lot adjoining, \$7,100; two lots adjoining, \$6,850 each; one lot adjoining, \$7,450; one lot adjoining, \$6,850; one lot, adjoining, \$7,000; southeast corner Riverside Drive and One Hundred and Second street, \$9,300; one lot on One Hundred and First street, \$1,900.

On Wednesday, Mr. J. Cole sold at the Commercial Exchange, in Brooklyn, sixty-one vacant lots on Wiloughby, De Kalb, Lewis and Stuyvesant avenues, also on Pulaski, Munroe and Madison streets. Though the prices were not all that the sellers expected, everything offered was actually sold to various bidders, as will be seen in the list at foot.

During the coming week there will be several auction sales of importance. On Monday, Messrs. A. H. Muller & Son will offer forty-six lots on Eighth and New avenues, One Hundred and Tenth, One Hundred and Twelfth, One Hundred and Fourteenth, One Hundred and Twenty-eighth, One Hundred and Twenty-ninth, One Hundred and Forty-fourth and Two Hundred and Eleventh streets, all elegantly situated, the property of Mr. Benjamin Lehmaier, who now resides in Europe. It is positively stated that there will be no bidding and that the sale will be a peremptory one. On Tuesday, the 18th, Mr. Muller will sell valuable improved property on Water, Mulberry, Gansevoort, West and Forty-eighth streets, being the remainder of the Hardeinan estate.

On the same day, Mr. Harnett will sell important leasehold property on the southeast corner of Grand

and De Kalb avenues, Brooklyn, also other tax leases in the same city.

GOSSIP OF THE WEEK.

Since the opening of Riverside Drive, there has been renewed inquiry for lots in that locality, and, at the hour of going to press, negotiations are pending for the sale of an entire front. It should be remembered that as yet prices for lots along what is sure to be a great drive of the future are, comparatively speaking, quite reasonable, and, with the constant influx of capital in our midst, it is difficult to say how soon present figures will have to be enhanced. Other West Side property just now is being somewhat neglected and holders are more disposed to sell than they were a month ago. The market, however, is strong for real estate between Fourth and Fifth avenues, all the way up to One Hundred and Tenth street, and holders there are making no concessions.

The bearing of the Riverside injunction matter has been postponed until the 21st of May. Meanwhile the Corporation Counsel has sent a written order of authority to the Park Department to have the drive properly watered, rolled and patrolled by the police, and at their meeting, on Wednesday, they finally passed a resolution to comply and appropriated the funds therefor.

There are but few sales being made at private contract. Nevertheless, we hear of the purchase of several lots on One Hundred and Nineteenth street, between Fifth and Sixth avenues, but the terms of sale have not transpired.

Messrs. Joel B. and John A. Post, the owners of the granite building at Exchange place, Hanover and Beaver streets, have purchased the adjoining premises, Nos. 18 Exchange place and 67 Beaver street, and will construct there a first-class office building at a cost of \$250,000.

On the east side of Fifth avenue, between Forty-seven and Forty-eighth streets, George Opdyke has nearly completed a brown stone dwelling, thirty feet by sixty-seven feet, and four stories high, to cost about \$55,000.

The new building of the Union League Club at the northeast corner of Thirty-ninth street and Fifth avenue is completed to the fifth story and one more story is to be added with a mansard roof. The width will be eighty-four feet, and the depth one hundred and fifty-two feet.

The contract for bricks for the Hudson River tunnel has been awarded to one of the firms along the river (J. I. & R. Washburn, of Glasco). They will be called on to supply 24,000,000, at the rate of 8,000,000 per year.

P. T. Barnum has instructed his agent, in Bridgeport, to build one hundred houses on property he owns, and already some fifteen or twenty of them are under way.

The following are the sales at the Exchange Sales-room for the week ending May 14:

* Indicates that the property described has been bid in for plaintiff's account:

Bond st (No. 20), n s, 382 4 e Broadway, 25.8x 100, four-story marble front dwell'g. Edward P. Dickey. (Am't due, abt \$16,350) ..	\$19,500

Total.....	\$64,182

BUILDING MATERIAL MARKET.

BRICKS.—No very radical change has taken place in the general situation of affairs on this market since our last, except that the outlet for stocks is not quite so free. There has been more or less in the way of sales every day, but the demand, for some reason appears to have fallen off in volume, and, notwithstanding the light receipts, it has not been uncommon to find something in the way of cargoes afloat to carry over. Buyers appear entirely undisturbed by the stoppage of supplies, and if the lock out at the points of manufacture has been protracted through the efforts of holders of brick, anxious to work up a little "boom" on which to unload, there is as yet a failure to attain the end sought. Up to our present writing, we can learn of no settlement between employers and workmen, but certain indications are thought to show an early adjustment of the troubles. Some few Haverstraws have come to hand, but only where the loading was done by captains and crews and under protection. Sales mostly at \$8.50@9.00 per M. "Up-

River" stock came down in about the usual proportion, and the value ranged mostly at \$7.75@8.25 per M. The first of the new crop also made its appearance, during the week, coming from New Windsor, Long Island stock, generally, has been held at \$5.50, or a fraction more. New Jersey made is reported all the way from \$6@6.50 for Keyports, up to \$7.50@7.75 for the best brands, but found no very heavy demand. Pale Brick have done better, the sale of stock proving comparatively quick, and full prices obtained, with \$5.25@5.50 per M shown at the close, and the tone firm with rather light offerings. Front Brick are wanted, but not enough as yet available to make a market.

CEMENT.—Sellers retain most of the advantage, and on both domestic and foreign the tone is quite firm. Possibly there is not so much difficulty in reaching supplies as a short time ago, but there is no surplus of the leading brands of Rosendale, and most stock coming into importers hands, with an established reputation either passes directly out on contract or finds immediate sale.

The following shows the imports of cement at the port of New York for the first third of the past four years:

	1880.	1879.	1878.	1877.
Jan.....	4,406	3,616	4,770	240
Feb.....	2,586	950	3,502
March.....	3,048	5,175	2,835	3,882
April.....	20,533	4,605	8,520	7,725
Total....	30,573	14,346	19,627	11,847

HARDWARE.—On the general market there is still an absence of much animation, and complaints from dealers are more common than words of cheerfulness. From some quarters, however, the demand commences to improve a little, and while the hopes of another "boom" are not very likely to be realized, there is a prospect that a feverish Spring trade will be accomplished, especially with nearby points. Prices continue without many radical changes, but the undertone is unsettled and appearances on the whole favorable for buyers. The price of Pump Chain has been reduced 1c per lb, and is now quoted at 9c for ton lots and upward, 9½c for bbl lots and less than one ton, 10c for half-bbl lots and less than 500 lbs. all net and for quantity taken at one order. The latest figures on Wood Screws were as follows: Flat Head Bright Iron, 35 per cent. discount; Flat Head Brass, 25 per cent. do; Round Head Iron, 25 per cent. do; and Round Head Brass, 10 per cent. A great many of the trade combinations have met and "resolved" not to change lists, but it is understood that even members of some of the associations are constantly "cutting" rates rather than allow customers to go away dissatisfied.

At the close we learn that the Sash Weight Manufacturers of this city and vicinity have agreed to reduce production for the next 30 days, 25 per cent., and confirmed former prices as follows: In 500-lb. lots or more, 2½ cents per lb., net. For all Dumb Waiver and Extra Size Sash Weights, ½ cent. per lb. advance over the above prices.

LATH.—About all the offerings from first hands have found a place, and without much change on the general features of the market, except probably that there does not appear to be quite so much firmness as last week. The average bid has remained at \$1 50 per M, and while special conditions may have formed basis for securing a little more in a few cases, this is about all that could be depended upon under the ordinary form of operations. Receivers continue to report the probability of light arrivals, but still in all cases appear content to offer cargoes upon receipt, and to accept current market rates.

LIME.—No change worthy of note can be advised, the former line of prices remaining on both Eastern and State, with a very good demand prevailing and not much stock left over. No special inclination to buoyancy, however, can be shown.

LUMBER.—Exactly in accordance with the anticipations of many, the market does not retain all the elements of strength that have characterized it for some time past, and without being specific as to "thirty" or "sixty" days time, the evidences point to a lessening and more careful demand. The liberal amounts sold and already delivered, and large supplies still due on contracts, now form more than a balance against proposed early consumption, and as opportunities for reaching additional stock both coastwise and from the interior are improving, buyers move with greater caution and are more inclined to protract negotiations on the general run of operations. In some cases where circumstances make the necessities of the case unusually urgent the demand is, of course, quick and a premium readily bid for difficult sizes, rapid delivery, etc., but they are exceptional, and mislead nobody except an occasional alleged market reporter under orders to write a "booming" account of the lumber market. We must add, however, that while the position evidently lacks buoyancy any expectations of further additions to cost would be disappointed. So far as present stimulus is shown the advantage retained by the selling interest is sufficient to lead to the belief that at the best only small shadings will be necessary and these gradual enough to prevent serious injury to any one.

Spruce has continued to sell very well, and so far as we can learn, no offering of either random or special has failed to find a customer, and at rates about equal to those for some time current. The yards, however, are not so lightly supplied as might be in-

ferred from some reports published, advices at hand indicate that a few more of the mills are overcoming the pressure on their capacity by completing contracts in hand, and other consumptive markets have filled up, temporarily at least, which will have a tendency to increase the amount available for this port. Quoted at \$16@17 for random and \$17@18 for specials.

White Pine is a little irregular. For some time past buyers have been compelled to depend upon certain closely concentrated and well controlled accumulations, and when it became necessary to handle stocks had nothing to do but go to source of supply and pay the rates asked when such came within the limits of their margins. With the fresh arrivals this week, however, and those expected to follow from both the North and West, there is a hope that stock will become better distributed and possibly enough competition excited to modify former extreme views. As yet sellers admit no loss, and full former rates are asked. There is some call on export orders but not to the extent calculated upon. We quote at \$17@18 per M for West India shipping boards; \$23@25 for South American do.; \$16.50@17 for box boards; \$17.50@18 for do. wide and sound do.

Yellow Pine we still find to have about the strongest appearance of any stock on the market. Very little business is reported, but it may be unnecessary to explain again that this is not the result of absence of demand, but due almost entirely to impossibility of finding any manufacturers willing to name a time for delivery within the remainder of the first six months of the year at least. The seller is not dissatisfied with the prices bid, or standing off to force the naming of higher figures which, on ordinary orders, it is well understood cannot be paid with safety, but is compelled to refuse, owing to prior engagements upon which some are now busily at work. Some buyers must and will have a certain amount of stuff for special use at almost any cost, and the fancy premium they bid to secure the prompt delivery desired is the bait which lures local journal with pretensions to accuracy in commercial matters, into mistakes regarding the "booming" condition of the market. The product of the Southern forests is a growing favorite for a great many sources of consumption, and for some apparently indispensable object yet to extend and preserve its general use. This season's experience has convinced some of the most careful representatives of the selling interest, that notwithstanding the temporary great advantages in hand, future modifications of extreme views will have to be made in order to preserve a steady open outlet. We quote random cargoes at about \$24@26 per M; ordered cargoes, \$25@27 do; green flooring boards, \$2@27 do and dry do do, \$26@28. Cargoes at the South \$16@18 per M. for rough, and \$22@24 for dressed at Atlantic ports; \$15@16 for rough, and \$20@22 for dressed at Gulf ports.

Hardwoods of well seasoned and perfect quality continue in good demand and at full rates, with a very limited supply here and not many lots offering from the interior. Indeed on primary points the cost is relatively the highest, and holders indifferent sellers of the stock in hand. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M; ash, \$33@36 do; oak, \$35@40 do; maple, \$30@35; chestnut, 1st and 2d, \$30@35; do. do. c. l's, \$18@20 do; cherry, \$45@75 do; white wood, ½ and ¾ inch, \$25@27.50, and do. inch, \$30@35 do; hickory, \$35@45 do. for Western, and \$65@75 for good nearby stock.

Yard business is good all around apparently, and dealers almost without exception appear satisfied with the volume of business, but some complain of the difficulty of securing a price with a fair margin over wholesale cost.

From among the lumber charters recently reported we select the following:

A Br ship, 1329 tons, from St. John, N. B., to Liverpool, deals, 60s; a Br barque, 564 tons, from Musquash to Liverpool or Bristol Channel, deals, 62s 6d; a Br barque, 593 tons, from St. John, N. B., to Drogheda, deals, 62s 6d; an Am ship, 1194 tons, and a Nor barque, 580 tons, from St. John, N. B., to Liverpool, deals, 62s 6d; an Am ship, 1139 tons, a Br ship, 1123 tons, an Am barque, 768 tons, and a Br barque, 498 tons, from St. John, N. B., to Liverpool, deals, 60s; a Nor barque, 38 tons, from St. John, N. B., to Gloucester, E., deals, 65s; a Am barque, 435 tons, from Brunswick to Rio Janeiro, lumber, \$19, net; a Am brig, 382 tons, same voyage and rate; a barque, 440 tons, hence to Matanzas, lumber, \$5; a Br brig, 211 tons, (bere), from Bridgewater, N. S. to Barbados, lumber, \$7; a barque, 558 tons, from Portland to River Plate, lumber, \$14 net; a brig, 49 tons, from Portland to Havana, sugar shocks and heads, 24c; a schr, 189 tons, from Bucks-ville to Ponce, lumber, \$11; a Br brig, 304 tons, from Pascagoula to St. Jago, lumber, \$10 Spanish gold; a brig, 225 M, and a barque, 350 M lumber, from Pensacola to New York, \$9; a barque, 450 M lumber, from Brunswick to New York, \$7 50; a barque, 300 lumber, from Fernandina to New York, \$7.75; two schrs, 165 and 200 M lumber, same voyage, \$8; a schr, 442 tons, from King's Ferry to New York, lumber, \$8.25, and New York wharfage; a schr, 150 M lumber, from Jacksonville to New York, \$3.75; a schr, 160 M lumber, from Fernandina to New York, \$8; one, 350 M lumber, same voyage, \$7.75; two schrs. from Norfolk to New York, lumber, \$3 25; a schr, 175 M lumber, from Port Royal to New York, \$7.50; a schr, 220 M lumber, from St. Mary's Town to New York, \$8.12½; a schr, 250 M lumber, from St. Mary's Town to New York, \$3; a schr, 300 M lumber, from Brunswick to Philadelphia, \$7 50, or Baltimore, \$7; a schr, 230 M lumber, from Savannah to Perth Amboy, \$ 25; a schr, 300 M lumber, from Savannah to Baltin ore, \$6 50; a schr, 98 tons, from Portland to New York, lumber, \$2; a schr, 131 tons, from Hallowell to Albany, \$2; three schrs, 129 tons, 137 tons and 172 tons, from Gardiner, Me., to New York, lumber, \$2.75; a

harque, 300 M lumber, from Pensacola to New York, \$9; a schr, 260 M lumber, from Brunswick to New York, \$7.75; a schr, 115 M lumber from Brunswick to New York, \$7.50; a schr, 200 M lumber, from Wilmington to New York, \$7.50; three Br schrs, from Shulze and Sackville to New York, spiling, 33c per ft; a Br schr, from Jt. John, N. B., to New York, spiling, 33c.

Exports of lumber from the port of New York :

Europe, United Kingdom	193,887	3,280,829
Total	866,627	25,498,422

GENERAL LUMBER NOTES.
STATE.

The Albany lumber market, for the week ending May 11th, is reported by the *Argus* as follows:

We have a good, steady trade since our last to report; the receipts have been fair, but have mainly been taken on arrival; we have but little addition to stock, which, though light is well assorted. Orders for Pine lumber continue free from South and East. Prices have not undergone any change. The season so far is in marked contrast to the season of 1879; then a week or two of very active trade was followed by a like period of depression; now the trade ever since the opening of river navigation has been very steady.

Coarse lumber is in fair receipt by canal, and is readily placed on arrival. Prices unchanged and firm.

The receipts at Albany by canal from the opening of navigation to May 8th were:

Bds & Sctg. ft. Shingles, M. Timber, c.f. Staves, D.				
1879*
1878	9,228,200

* Canal open May 8.

The receipts of Lumber by lake at Buffalo for the week are 6,050,700 feet; by rail 84 carloads. At Oswego, 3,832,300 feet.

Freights from Bay City to Buffalo and Tonawanda, \$2.00 per M. feet; from Saginaw, \$2.25. From Buffalo and Tonawanda to Albany, \$2.25 per M. feet. Lake Ontario freights to Oswego, 9 c @ \$1.00 per M. feet, and from Oswego to Albany, \$1.75 @ \$1.80. From Ottawa to Albany, \$3.75 per M. feet.

THE WEST,
SAGINAW VALLEY.
Lumberman's Gazette Office,
BAY CITY, May 11, 1880.

The market scarcely less firmer than usual, although transactions have fallen off. It would be most remarkable, indeed, if it were not affected by the decline which has taken place in so many other commodities and the demoralization existing in the lumber trade at Chicago and in the West. The East could not but get the impression that there was going to be a general decline, and to say that this impression has not affected this matter would be to ignore the philosophy of trade. Nevertheless, there is more firmness here than might be expected under the circumstances. Indeed matters here are in a condition to aid the disposition to maintain prices. About one-half the lumber left over from last year has already been shipped, what remains on the docks is generally disposed of, and the mills have been deterred from cutting a great deal by the want of logs, the high water in the streams having prevented rafting to any great extent. What is being cut will not be ready for shipping for some weeks, by which time the Chicago foolishness may have spent its force. At all events, the manufacturers on the river are not disposed to countenance the general demoralization into which Chicago is trying to throw the trade, and, therefore, will not yield unless compelled to do so. A good many of them have orders ahead and are therefore well fortified. The sales made are at a range of prices from \$6.50, \$13 and \$30 to \$7.50, \$15 and \$35. The latter for extra stock.

Shipping is dull. Over 100,000,000 feet have already gone forward, and charters are difficult to obtain, even at the low rates prevailing. Navigation opened too soon. The rates to Buffalo and Tonawanda are, \$2 from Bay City and \$2.75 from Saginaw; to Ohio ports, \$1.50 and \$1.75.

In shingles the trade is moderate, the market is firm and prices unchanged.

We quote cargo rates:

Three upper quantities	\$30 00 @ 35 00
Common	13 00 @ 15 00
Shipping culls	6 50 @ 7 50
Lath	@ 1 75
Shingles	2 00 @ 3 00

NORTHWESTERN LUMBERMAN, }
CHICAGO, May 5, 1880. }

Our reports from the markets this week indicate that trade generally in the Northwest is very much unsettled. It is described as good at some points, fair at others, and at a few, quiet. The nervous feeling, however, which seems to be inseparable from any disturbance here, extends over the entire field, and it appears to be the universal opinion that the demand for lumber, as a whole, is much less active than might have been expected, but for the unfortunate break in this market. The uncertainty in regard to prices which this has given rise to, coupled with the fact

that farmers are now occupied pretty much all of the time with their regular spring work and are hence not in condition to use much lumber, makes the retail dealers care very little about adding to their present stocks. They naturally prefer to await developments, and take the chances of getting as good bargains by and by as are offered to them now. When the circumstances of the case are taken into consideration, it is not strange that they should want to buy only as they need the stock, and, by consequence, that the markets of distribution that depend upon them for orders should be enjoying at best only a moderate degree of activity. Dry lumber is of course, the principal thing called for everywhere, and the supply in many places is no more than large enough for even a quiet trade. This is notably true of some points on the Mississippi river. Though there is no way of proving the fact, it is altogether likely that along that stream there is rather less dry lumber than the dealers would like to have, and, as it will be some time before they can make any additions to their supply, they are no so anxious to sell as they might be. At the same time, they do not care to lose business by refusing orders at current prices, and so the stock is slowly but steadily decreasing. In the eastern section of the Northwest, and generally in the eastern markets, the situation is better in nearly all respects than it is west of Lake Michigan. At Detroit and Saginaw there is perhaps a trifle less doing, but in the sections that are removed from competition with Chicago, business is said to be good.

The few changes in our quotations all come from western points, and are avowedly made for the purpose of bringing the lists into conformity with the figures ruling in this market. If there can be said to have been any decline in prices it has occurred in this city; for it is plainly evident that competing points are not leading in any reduction. What variations they make to enable them to sell along side of Chicago price lists, are clearly forced upon them, and cannot be adduced as an evidence of their weakness. The only point, in fact, where any real indication of weakness is observable, is Chicago, and the cargo market may be said to be responsible for this. It arises wholly out of the resolution on the part of the dealers that they will buy their season's stock at bottom figures—a resolution, indeed, which they always make at the opening of the season, and carry out if they can. Perhaps the most discouraging feature of the present week here is an offer made by a prominent firm of dealers to sell several million feet of piece stuff, to be delivered at any time within 90 days, at \$7.50, the current price being \$8.25. Two or three million were sold under this offer, which is made at the lowest figure that has been talked of so far this season. This looks like an attempt to make lumber a product to be bought and sold for speculative purposes, on option deals, which seems to the *Lumberman* like carrying enterprise a step too far.

LUMBERMAN AND MANUFACTURER, }
MINNEAPOLIS, Minn., May 6, 1880. }

The situation is interesting rather than critical in the lumber markets of the West. Every eye is turned to the little knot of operators at Chicago who seem to be hardly aware of the significance of their position. Some of them are evidently bent on mischief and the so called union list went by the board before the ink was dry. Piece stuff was last week offered at Kansas City at rates that demonstrated that both the railroads and lumbermen were concerned in the plot. The offer was so low as to convince all that it was made for effect and nothing else, so we suppress the figures.

Trade is as active as could be expected during the seeding time in the West. The manufacturing season has fairly commenced with a full supply of logs at all points, and with the increased capacity for sawing, the mills in the Mississippi Valley are turning out lumber faster than they ever did and cheaper.

We warn our friends in Wisconsin again not to go shoving lumber down into the Hannibal and St. Louis market in such quantities as may be furnished within the next ninety days. Don't send it unless you have information that somebody wants to buy. Let the Lake Michigan lumber makers do all the business of this kind they want to, but do not follow their example. Cannot help it, Eh? Well, shut down then.

The rivers are all at a fine stage for driving and rafting operations, except the Wisconsin, which has suddenly dropped, so as to hang up many drives. The mills on that stream have secured enough to run for a time upon.

CHIPPEWA FALLS, May 6.—The jam on the Chippeewa, at Paint Creek Works, now holds 200,000,000 feet, but is not piling or bad, and will be worked off as fast as they can be sorted.

The *Tonawanda Herald* as follows:

At a meeting of the Lumbermen's Association, Tuesday evening, the election of officers for the ensuing year occurred, with the following result: President, A. G. Kent; Vice-President, Alex. McBean; Secretary, J. F. Vincent; Treasurer, W. R. Gregory; Directors, Jas. A. Fassett, W. H. Cowper, Edw. Goodrich, E. Evans, A. B. Williams.

FOREIGN.

Mail dates from Rio Janeiro to April 14th report:

Pitch Pine.—There have been no arrivals. We quote 30\$000—31\$000 per dozen. Market well supplied.

White Pine.—The arrivals consist of 39,763 feet per J. B. S., from New York; 62,321 feet, per David Stewart, from Baltimore. Market steady at 90 to 100 rs. per foot.

Spruce Pine.—No arrivals.

The Havana market, by latest mail, is reported as follows:

White Pine.—Last arrivals on contract and under

an active demand, we quote \$31@33 gold per mille feet, as to conditions and assortment.

Pitch Pine.—Continues scarce, and, owing to the active prevailing demand, we still quote \$33@38 gold per mille feet for good assortment.

The *Timber Trade Journal* says:

London seems by all accounts to be the only active selling market for timber just now, and even here things are nothing like so brisk as we should like to see them. The deliveries from the docks and the prices are vacillating, and have been maintained with some difficulty. On all sides there is more disposition to press sales while the season is yet in its infancy, but holders of large stocks abroad still speak confidently of a good demand later on. As grounds for this it is asserted that the north of Europe production will be considerably short of last year, and though with the opening of the Gulf ports a fleet of vessels will be let loose, it is stated that there will be little or none of these cargoes on this market, as the stuff is already placed.

A communication from Ottawa, Can., says:

Freight rates for lumber have advanced 33 1/3 per cent.

Mr. Adams, a prominent New York lumber dealer, was in the city recently endeavoring to buy several million feet, but could not succeed, every foot in the Chaudiere yards had over from last year, as well as this season's cut up to September 1st, having been sold, some of it at an advance of 100 per cent. over the previous year's rates.

NAILS.—The market still fails to reach a very settled condition. Demand fluctuates and holders' views vary both as to price and the quantity of stock they are willing to part with, and there seems to be no regular basis at all. As noted in our last, a reduced association card rate has been adopted and we revise figures on this apparent official basis, but outside lots can still be found at "something off," an inducement which, of course, diverts demand from the regular offering. We quote nominally 16d to 60d, common fine and sheathing per keg, \$4.25; 8d and 9d, common do. per keg, \$4.50; 6d and 7d, common, do per keg, \$4.75; 4d and 5d, common do per keg, \$5.00; 3d and 4d, light, per keg, \$5.75; 3d, fine, per keg, \$6.50; 2d per keg \$4.50.

Cut spikes, all sizes, \$4.50. Floor casing and box, \$4.90@5.65. Finishing, \$5.15@5.90.

CLINCH NAILS.
1 3/4 to 1 1/2 in. 2 & 2 1/4 in. 2 1/2 & 2 3/4 in. 3 in. & longer.
\$6.40@6.75 \$6.15@6.25 \$5.90@6 \$5.65@5.75 per keg
Advices from Pittsburgh report that the Western Nail Association have reduced the card rate to \$3.25 per keg.

PAINTS AND OILS.—On the wholesale market the tone continues about steady, with a fairly active business doing and of a general character. Jobbers, as a rule, seem to be very fairly satisfied with the market. Business shows some irregularity, but does not fall behind much in the aggregate, and the distribution is made without the necessity for cutting down the line of cost beyond such ordinary concessions as may be deemed necessary under special influences. Linseed oil has sold with somewhat greater freedom, but was quite irregular in value, and the tendency mainly in buyers favor. Quoted, as we close, at about 75@77c. from crushers' hands.

PITCH.—Demand about as usual, with the supply available quite equal to the outlet, and the tone of the market easy all around. We quote at \$2@2.12 1/2 per bbl. for City, delivered.

SPIRITS TURPENTINE.—Only a very uncertain demand has prevailed, and values were unsettled but in the main on the downward turn. Accounts from the south were unfavorable, and holders seemed anxious to realize. As this report is closed, the quotations stand about 29 1/4 @ 31 per gallon, according to the quantity of stock handled.

TAR.—Stocks appear to be equal to the consumptive demand, which is not free or general, and holders, as a rule, willing to accept former rates. There is, however, no pressure to realize, and it would probably be difficult to secure concessions. We quote at \$2 @ 2.25 per bbl. for Newberne and Washington, and \$2 @ 2.25 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:
1st—Q. C. is an abbreviation for *Quit Claim deed* i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or waranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

C. W. SWEET,

No. 137 BROADWAY

THE NEW YORK WORLD'S FAIR AND THE MANAGER'S RESPONSIBILITIES.

The random suggestions made, for some time past, by self-appointed committees in regard to a New York World's Fair, are at last crystallized into something tangible by the enactment of a Congressional Law creating a corporation charged with carrying to a successful issue the great enterprise. The names of gentlemen who act as incorporators are, by a large majority, those of public spirited citizens, whose entire aim and purpose ought to be, and will be, we hope, the increased grandeur of our own Metropolitan city. Those who cannot devote time, energy and brains to this vast project, it is fondly hoped, will be requested to go to the rear before many steps in advance have been made. The city of New York cannot afford to have a mediocre universal exhibition, it must be excelsior, like the State in which it is to be held, and must out-rival all those previously held. And, in order to make it so, no time must be lost. We are a very fast people, but in order to do this work thoroughly, so as to reflect honor upon our city and stimulate manufactures throughout the country, work should be begun at once. Three short years pass by very rapidly in this era of the Republic's existence, and the material benefits to be derived from a successful universal exhibition are so multitudinous that those authorized to nurse the plan from its very inception can well afford to devote their best talents and their entire time to the cause. It should be remembered that the Paris Exhibition, the second one in the line of World's Exhibitions held since the one originated in London, by the late Prince Albert, created almost a revolution in the industrial pursuits of England. Strange to say it was found there that while the Continental nations had made rapid advance in manufactures, the artisans of England had stood still during the previous ten years. When it was then ascertained that the French and Germans had been educating their working classes by industrial schools, England at once followed their example, and the result was, that at the Philadelphia Centennial, the excellent progress made by English manufacturers became at once noticeable. A generation had passed by since the previous competition, and the interval of time had been taken advantage of to recover ground previously lost. These are, among others, the lessons taught at universal exhibitions. Nations there ascertain their shortcomings, and now that it is universally acknowledged that these United States cannot only depend for their permanent prosperity upon agriculture and commerce, but must also foster and keep on fostering manufactures, the importance of making the New York World's Fair something more than a noisy jubilee, will at once impress itself upon the minds of the projectors. It should be, as it ought to be, the great competitive arena upon which the industries of the

world are to be engaged in an earnest contest for the crown of superiority. America may not succeed in securing that crown, but the very defeat will amazingly help our industries hereafter and teach our artisans how to work better, and manufacturers how to sell cheaper. The time will come in a very few years, that we must take a stand in the neutral markets as a great manufacturing people, if we at all care to add to our resources, now mainly dependent upon the soil. No better school, no better stimulus for such a status can be devised than this Universal Exhibition. Let all persons then engaged in this business not under-rate the task they have taken upon themselves, nor fritter away their valuable time by matters of minor importance. We have heard rumors, for instance, that the committee charged with selecting a site for the World's Fair may possibly not report until next fall. This is all wrong. It should be selected before that time, and that, too, with the least possible delay. It will be generally admitted that a New York fair should, to say the least, be held on Manhattan Island. This preliminary question being settled, there are but very few spots to select from, whether in the Central Park, Morningside Park, at the Terminus of the Metropolitan Road, or on the New Parade Ground about 205th street, is all the same to us; but settled it must be at once, so that the City Government not only, but private individuals, may take advantage of this year's summer weather, and make whatever improvements the emergency requires. Delay in this instance will be detrimental to the interests not only of the West Side, but the entire city of New York.

In this connection we ought to state that some public-spirited citizens, who have taken a deep interest in the preliminary organization of the fair, do not look with despair, as others do, upon the financial side of the enterprise even in the absence of a Government subsidy. They claim that the citizens of New York, alone, if called upon by merchants of standing, will themselves contribute out of their own pockets all the money required for the proper organization and maintenance of the great Fair. They themselves feel, as others do, that whatever the outlay, even if not paid back to them in the same amounts, it will be returned to them in some manner or other, with interest, by the millions and millions of people who will, owing to the World's Fair, consider New York not only as the gay metropolis of the country, conducive to their temporary happiness, but as the great school for their permanent prosperity.

THE BARRICADES REPLACED BY LIVING OBSTRUCTIONISTS.

It will be seen by a communication from Mr. C. R. Roberts, one of the leading owners of property along Riverside Drive, that notwithstanding all efforts on his part and others associated with him, the great drive continues to be neglected by those having control over the same to the detriment of the public and private rights. Like veritable demagogues, the Commissioners, week before last, made a show as if they were disposed to do something for the property owners, but, beyond asking the Board of Apportionment for a sum entirely unnecessary for the work in hand, nothing has

been done. The clouds of dust have turned this beautiful spot into a veritable Sahara, and have made it anything but the paradise upon which New Yorkers were anxious to pride themselves. Two of the Park Commissioners claim that the paltry sum required for sprinkling and rolling this drive can be easily taken out of the regular fund, but two others oppose this. It was believed at first that it was the question of patronage that caused this deadlock, as the owners of eight water carts, sixteen horses and a dozen drivers or so, have a direct or indirect voting power not to be sneezed at by ordinary politicians. We are credibly informed, however, that this cannot be the cause of the trouble, as an old precedent, which has never been ignored, divides the patronage of the Department among the four commissioners, thus securing to each of them two carts, four horses and probably one full grown driver. We rather incline, therefore, to the belief that nothing but stubbornness, growing out of the presidency question, stands in the way of the proper management of the Park. How long the property owners are going to stand this remains to be seen. The commissioners to-day virtually occupy the position of the barriers, which an indignant crowd hurled down the embankment during the midnight hour. The question to be answered now is whether the Park Commissioners will eventually be doomed to share the same fate of the obstructive materials, which so long defied public sentiment.

SUSPICIOUS LEGISLATION.

There are now before the Legislature two measures which, considered upon their simple merits, are really called for by the constant growth of our city and the increased demands to accommodate travel and traffic. The West Street Improvement bill, as well as Senator Strahan's act in relation to elevated roads, are but the mere outgrowth of a steady but irresistible demand to make the most of this longitudinal and narrow island, and enable it to furnish all the room and all the convenience for that vast amount of shipping of merchandise and moving of passengers called for by the increased traffic of the city. Nobody denies that West street should be widened; nobody begrudges the elevated roads the task of combining their East and West Side branches, but the *modus operandi*, as set forth in these two bills, deprives them of the support to which they would otherwise be entitled. To give the present owners of West street property so much additional "land under water" at a fixed sum, regardless of the wishes of the Commissioners of the Sinking Fund, looks too much like a gigantic job, and hence we are not surprised, that with an almost unprecedented unanimity, the leading officers of the corporation of New York have sent an emphatic protest to Albany, so as to prevent the passage of the bill. To change the license held to-day by the elevated roads along Battery Park into a grant not revocable by the Park Department is also a piece of uncalled-for legislation, ruinous of the city's rights, interests and dignity. There certainly can be no question that the authorities of the city of New York should be left free to control the streets, parks and river-front of our city, without any dictation on the part of the State authorities. If improvements, like those mentioned above,

are required for the good of our city, it is imperatively necessary that those having charge of the city government should be at liberty to impose whatever checks and restrictions are required, so as not to enable individuals or corporations having control of these improvements to consider themselves above all municipal law or restraint.

GAS FIXTURES AND MIRRORS.

In *McKeage v. Hanover Fire Ins. Co.*, New York Court of Appeals, April 20, 1880, it was held that gas pipes which run through the walls and under the floors of a house are permanent parts of the building; but fixtures attached to those pipes, where they are simply screwed on projections of the pipes from the walls, which can be detached by simply unscrewing them, are not. Neither are mirrors, put up after a house is built, supported in their places by hooks and supports, some of which are fastened with screws to the wood-work and others driven into the walls and capable of being detached without injury to the walls. Such articles are not appurtenances. And the mere declaration of the owner that he intends that such articles shall go with the house does not make them realty, nor does the purchase of them with the house, as between a mortgagee under a mortgage from the purchaser and his lessee, even though the mortgage, when negotiating for the lease, represents that they go with the house, no mention of that fact being made in the mortgage. And a purchaser from the mortgagee, without notice of such articles, would not be bound by the equities which might exist between the mortgagee and mortgagee by reason of such representations.—*Albany Law Journal*.

THE DILATORINESS OF THE PARK DEPARTMENT.

To the Editor of THE REAL ESTATE RECORD:

NEW YORK, May 18th, 1880.

SIR:—The Riverside Drive was opened on the 10th inst., as announced in your paper. Since then, persistent personal applications have been made by several of the property owners to the Department of Public Parks to induce it to have the roadway watered and rolled, and, in order that the Commissioners might be relieved of all responsibility in the matter, a letter, of which a copy is enclosed, was procured last week from Mr. Whitney, Corporation Counsel, empowering them not only to water and roll the Drive, but to station a sufficient police force there to protect it from immoderately fast driving and riding. Thus far nothing has been done, and nothing seems likely to be accomplished by the Commissioners pending the settlement of a wrangle between those gentlemen as to which of their number shall be chosen for the office of President of the Board, with its accompanying salary of \$6,000 per annum, (three out of the four at least, if not all four, wishing to vote himself into that position), and meanwhile this magnificent drive, which has already cost the city millions of dollars, is not only perfectly useless, owing to the intolerable dust which prevails there, but is rapidly deteriorating to an extent that it will cost thousands of dollars to repair later. Mr. Green, at an interview had with the Commissioners yesterday, stated that an outlay of \$400 to \$600 per month, only, would keep the roadway well watered and rolled, but that, notwithstanding the Corporation Counsel's opinion, above referred to, he had doubts on the subject. Another member of the Board thought perhaps they might not assume too much responsibility if they watered and did not roll it, and vice versa. A third thought they could not devote the paltry sum of \$2,000 or \$2,500 for this purpose from the \$479,000 granted them this year for the protection and maintenance of Public Parks, Squares and Avenues, and the Board could or would not say anything.

In behalf of the property owners, the tax-payers of this city, and the public generally, we would like these facts ventilated in your journal, with some expression of opinion as to whether we have any rights at all in the premises, and if there is no way by which this red tape Commission can be gotten rid of, or made to attend to the business for which they were supposed to be appointed.

For the property owners,
C. R. ROBERTS.

THE CORPORATION COUNSEL'S SENSIBLE ADVICE.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION.
NEW YORK, May 11, 1880.

Hon. JAMES F. WENMAN, President of the Department of Public Parks.

Referring to the interview this morning between yourself and my assistant, Mr. Anderson, in relation to the injury alleged to have already been done to the Riverside Drive, and your request for a written communication in relation to the matter, I have to advise you that several gentlemen called at this office

yesterday and stated to me that the roadway of the drive has been very badly cut up by vehicles of various descriptions and that such injury would have been in a great measure prevented if the roadway had been properly rolled and sprinkled. As I understand, the Department has refrained from taking any care of the drive, lest such act should be regarded as an acceptance of the work and should add to existing complications.

I take the liberty of calling your attention to the matter and of making the following suggestions. This drive, under the provision of Chapter 447 of the Laws of 1876, is a part of the Riverside Park, which has already cost several millions of dollars, and the expense of improving which, incurred under the contract with Decker & Quintard, amounts to four or five hundred thousand dollars more. The Park is under the exclusive charge and control of the Department of Public Parks. Upon evidence that the drive is practically completed the Supreme Court has restrained the contractors from excluding the public and has refused the contractors' application to modify the injunction. As I understand from you, the only work remaining to be done is the placing of gravel upon a hill at the northerly end of the drive which will involve an expenditure of about \$2,000 only. It is alleged, as I understand, by one of the Commissioners of the Department, that portions of the work have not been done according to the contract, but, however that may be, it is certain that a large amount of work has been done which the city must ultimately accept and pay for.

The city has retained 30 per cent. of the contract price, amounting to at least \$150,000, and if there are imperfections in the work, this will be amply sufficient to protect the city. These matters can be settled hereafter and before the work is finally accepted and the 30 per cent. paid to the contractors. If, however, the drive is ruined in the meantime for want of proper care, the loss will undoubtedly fall upon the city. Under these circumstances I advise you that no legal reason exists why the Commissioners of the Park Department should not take such care of the drive as will protect the property and interests of the city.

They can make proper regulations in regard to the use of the drive and place policemen there to enforce the same, they can also roll and sprinkle the carriage way and do such other work as is necessary to protect and preserve it. I advise, however, that before doing this, they should send notice to Decker & Quintard stating that the drive is being injured, and that they propose to take such action as will protect it without prejudice to the rights of the contractors or of the city. I am sir, yours respectfully.

(Signed) W. C. WHITNEY,
Counsel to the Corporation.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages iv and v of advertisements.

There were several sales of more or less importance, all of them well attended, at the Exchange Sales-room during the past week. Mr. Lehmaier's lots did not sell up to the ideas of the owner, nor, in fact, appeared there to be any disposition on the part of bidders to take hold of the property. Messrs. A. H. Muller & Son sold the four lots on the northwest corner of Eighth avenue and One Hundred and Fourteenth street, and those on the northeast corner of New avenue, but the inside lots were not offered. After a few more attempts to dispose of the property, the sale was adjourned sine die. A lot in One Hundred and Tenth street, between Fifth and Madison avenues, was offered at an upset price of \$5,000, but, no bid being received over that amount, it was withdrawn. Some lots along Vermilye avenue, Two Hundred and Eleventh and Tenth streets were offered at \$500 apiece, but they shared the same fate as the others. Far more satisfactory was the sale by the same auctioneers, held on the following day, when there was spirited bidding for every piece of improved property put up. Quite a number of Ninth Warders were on hand, and, when Gansevoort street property was up, it was plainly evident that the presence of the new market business there had infused confidence in the minds of bidders. Throughout the week, whenever improved property at all situated near the principal lines of travel was offered it readily became the object of spirited bidding, in many instances good prices being secured for the property.

During the coming week, Mr. Harnett will sell some Bushwick avenue (Brooklyn) lots, and also two choice lots on One Hundred and Tenth street, now the great thoroughfare connecting Central Park with Morningside and Riverside avenues.

An important sale of over fifty lots, lying between Riverside avenue, Eighty-eighth and Eighty-ninth streets and West End avenue, is announced to take place on June 8th. The sale being made by order of the Supreme Court, will be peremptory, and opportu-

nities will there be offered to secure bargains on terms favorable to the purchaser. We will give further particulars in regard to this sale in our next issue. Mr. Harnett will be the auctioneer.

GOSSIP OF THE WEEK.

The week closes upon a more hopeful market, indications increasing all around, that the lull of the past six weeks has indeed been a "blessing in disguise." There is also more honest inquiry for vacant property, and several transactions, not of any magnitude, but nevertheless showing increased activity, have come under our observation. Not that on the eve of the summer solstice anyone expects to see a very busy market, but a healthy, steady current of business is nevertheless making itself felt in the real estate market. On Thursday, for instance, we heard of an offer of \$250,000, cash, made for a parcel of West Side lots. On the same day we heard of the sale at private contract, of six lots in the Eighties, the details of which are as yet being withheld.

Mr. Edward Clark has actually begun operations on his Eighth avenue and Seventy-second street property, where the mammoth apartment house is to be erected, Mr. Crimmins having set his men at work on Monday last. The importance of this improvement cannot be overestimated by West Side owners, and congratulations for Mr. Clark are heard all over the market for continuing to be the pioneer of West Side building. At the close of the week we hear of his example being followed by a well-known builder.

It was reported yesterday that 1½ lots on the north side of Fifty-seventh street, between Fifth and Sixth avenues, had been sold at private contract to Mr. David L. Einstein for \$48,000, the lot being valued at \$36,000.

Four lots on the south side of Seventy-third street, 70 feet east of Lexington avenue, 100x102.2, containing two three-story brick houses, have been sold by John Seaman to William Lalor for \$28,000.

Two lots (stable lots) on the south side of Sixty-sixth street, between Lexington and Fourth avenues, have been sold to M. A. J. Lynch for \$19,500.

The contract to build the Manhattanville, St. Nicholas Avenue & Forty-second Street Railroad was given out on Thursday. The road is to be finished on September 1st. It will run from Manhattan street and the North River, by double track to St. Nicholas avenue, down which it will continue to One Hundred and Tenth street, through which street it will run to the East River. From the corner of First avenue and One Hundred and Tenth street there will be a single track through First avenue to One Hundred and Ninth street, thence to Avenue A, and along Avenue A to the main line at One Hundred and Tenth street. A double track branch will be operated in Eighty-sixth street, between Tenth avenue and the North River, and another double track branch will run through Tenth avenue, from Manhattan to Forty-second street, and through the last named street to the Weehawken Ferry, on the North River, and along Twelfth avenue to Thirty-fourth street, stopping at the Manhattan Market.

Great activity has prevailed in Brooklyn lots on the Lefferts-Brevort farm during the past few weeks. Jere. Johnson, Jr., having sold for John A. Monsell 250 lots for upwards of \$175,000 to prominent New York capitalists, the average price being more than \$700 per lot. Negotiations are now progressing for the sale of four more blocks belonging to the same gentleman.

Dr. Aaron Wright, of Cincinnati, has purchased from Mr. Monsell one lot on the north side of Remsen street, between Henry and Hicks street, for \$12,400. The doctor has already begun to build a mansion for himself on the lot thus acquired.

The following are the sales at the Exchange Sales-room for the week ending May 21:

* Indicates that the property described has been bid in for plaintiff's account:

20 tax leases and certificates on lots situated in Brooklyn. Benjamin Andrews. (Subj. to all liens)	200
Total	\$19,375

BUILDING MATERIAL MARKET.

BRICKS.—Demand has been fair on the market for Common Hards, but that is about all, and with supply enough to satisfy current calls, sellers have rather lost advantage. Indeed, the market is a trifle off, and, as we write, the turn still appears to be downward. The arrivals from up-river have rather increased, and some of the manufacturers have again managed to load and ship a few cargoes from Haverstraw, which, with odd arrivals from other points has furnished a stock somewhat in excess of the requirements of the market, if anything. Some pretty good sized jobs are laid out, and will progress in due time, but tearing down of old buildings and other necessary preparations, tend to delay consumption for the time being. On "Up-River" stock \$7.25@7.50 seems to about cover the present value, except for the extra brands, and on the Haverstraws \$3.25@3.50 per M is about the figure on the average run of the offering. Pales are not doing quite so well as last week, and wholesale dealers tell us it must now be something pretty nice to exceed \$5 per M. No positive settlement of the strike is yet advised, and some claims assert that there will be none until the first of the incoming month at least, but on the other hand we have an intimation that, in a quiet way, work is gradually being resumed, or will be within a few days. Front Brick remain nominally steady, but the offering still rather small, and the position not fully determined.

HARDWARE.—Pretty much the same old story may be repeated as regards the condition of the general market. In a spasmodic sort of way, more or less stock is taken out, but the distribution is really very small and business generally proved unsatisfactory. Stocks and assortments are all full, accumulated in anticipation of a spring trade and disappointed holders commence to feel quite discouraged over the outlook. It is still the fashion to quote the position steady and refer to the announcements that lists are not to be changed, but, in point of fact, there is no regular market rate on any thing at the moment and scarcely a doubt exists as to constant "cutting" in order to effect sales. Indeed, on some goods, outside of "builders hardware" the combinations of manufacturers have all gone to pieces, and sellers are now operating on their "own hook" or at the best rate possible. Padlocks are reduced to 33 1/3 per cent. discount.

LATH.—The market has remained about steady, but did not respond to attempts to infuse a more buoyant tone. Consumption at the moment is only fair, nearly all dealers have more or less stock, and it requires a smaller number of arrivals to form a surplus than a few weeks ago. It is, however, not considered likely that there will be found any very great accumulations afloat, as the shipments from the Eastward have been smaller, and manufacturers are not satisfied to forward with freedom at the present return to be obtained. Receivers are quoting from \$1.60 down to \$1.50 per M., but the majority admit that for actual sales the latter is about the best figure.

LIME.—There does not appear to be anything really new to write upon the position of this market. Demand continues good, and of a comparatively general character with no accumulation of supplies in first hands, and some of the stock engaged ahead of arrival, while former rates are sustained with little or no difficulty. The production is reported as small, and manufacturers said to be unwilling to increase it, as between the additional cost of labor and transportation they have no better margin than last season.

LUMBER.—There has been no change in the general characteristics of the market since our last. There is the same inclination among buyers to stand off, and wherever it is possible to do so, orders are withheld under the hope that better terms must ultimately be offered. This is noticeable among consumers, dealers and shippers, and upon pretty much all grades of stock. As last noted, however, the only apparent effect thus far has been to check the buoyancy on prices, and make terms less exacting where offerings were lacking in attractive qualities. Indeed, from the sellers side of the story everything is going on swimmingly, and the majority seem to think it almost a sin to even hint at the probability of any positive weakness showing itself. This, according to their view, is the one article which is to hold its own, and it is certainly doing so very well at present, but precisely the same argument has been used on every kind of merchandize in the country, and the heavy collapse which pretty much all have undergone shows that a market cannot seem one way all the time. The supplies here have shown a slight increase, but the accumulation available for competition is quite light, and it will require a great many random lots as well as the ordered parcels expected to made the assortment equal to even an ordinary call. A great many of the current arrivals especially, from coast wise sources, go direct into consumption on winter made contracts. Spruce remains about as before. Demand continues good enough to exhaust about all the supply, and would take a little more if quality was right up to the mark, but buyers are not running around beg-

ging for stock by any means. A good average random commands \$16, a rate which seems satisfactory to both buyer and seller, but occasionally something choice reaches 50c. @ \$1.00 more, and we have heard of two or three cargoes poorer sold at \$15.50 per M. There is the stereotyped report about the "very small" amounts to come from the East.

White Pine has been quiet, all classes of buyers standing off to secure the lower rates they have been expecting. The demand on fresh orders for building purposes is rather high, and export orders are held in abeyance to secure whatever advantage there may be in the reduction of cost. This reduction, however, it would appear has yet to be made, except upon a few unimportant lines of stock, and sellers are in no way backward in suggesting that it may be a long time before it is made, especially upon any stock. The Canadian supply appears to have been all appropriated, while the few parcels available at Albany, Buffalo, Tonawanda and the Western points can only be reached at a cost relatively above that prevailing here, and even if taken, it is claimed, would not meet the wants actually existing, but for the time being conceded. Arrivals fair, but there does not seem to be much growth to the supply. We quote at \$17@19 per M. for West India shipping boards; \$23@24 for South American do.; \$15.50@16.50 for box boards; \$17@18 for do. wide and sound do.

Yellow Pine remains in first-rate shape. Not many randoms were offered, and they were seldom offered twice, buyers standing ready to handle almost anything merchantable and would gladly have taken more. A great many specifications have been offering also and when closed upon, the basis was always full former figures. Indeed, there has been nothing shown to indicate that expectations of a downward turn would be realized; but on the other hand the only buyers who can be induced to submit to a positive advance are those under dire necessity to secure early delivery of stock and pay a premium to accomplish this object. We quote random cargoes at about \$24@26 per M; ordered cargoes, \$25@27 do; green flooring boards, \$25@27 do, and dry do do, \$26@28. Cargoes at the South \$16@18 per M. for rough, and \$25@24 for dressed at Atlantic ports; \$15@16 for rough, and \$20@22 for dressed at Gulf ports.

Hardwoods of desirable character are not plenty either here or in the interior, black walnut in particular, and the market remains firm, with a good general demand ruling. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple, \$30@35; chestnut, 1st and 2d, \$30@35; do. do. culls, \$18@20 do; cherry, \$15@75 do; white wood, 1/2 and 3/4 inch, \$25@27.50, and do. inch, \$33@35 do.; hickory, \$35@45 do. for Western, and \$65@75 for good nearby stock.

The distribution from yard is keeping up fairly and covers all classes of stock to a sufficient extent to prevent an accumulation. Prices about as before.

From among the lumber charters recently reported we select the following:

A Br ship, 1312 tons, from Bay of Fundy to Liverpool, deals, 61s. 3d; a Br barque, 576 tons, from Halifax to Liverpool, deals, 60s; a Br barque, 595 tons, from Richmond, Va., to Liverpool, oak plank, 80s, and primage; a Gr barque, 463 tons, from St. John, N. B., to Bristol, deals, 62s. 6d; a Nor barque, 432 tons, from St. John, N. B., to Hull, deals, 62s. 6d; a Br barque, 329 tons, and a Gr barque, from St. John, N. B., to Bristol Channell, deals, 61s. 3d; a Nor barque, 425 tons, from St. John, N. B. to Amsterdam, deals, 65s; a Nor brig, 202 tons, from St. John, N. B., to Waterford, deals, 67s; a barque, 783 tons, from St. John, N. B., to East Coast Ireland, deals, 60s; an Am barque, 634 tons, from Savannah to River Plate, lumber, \$18.75; a schr, 200 M lumber, from Bangor to Philadelphia, \$3; a barque, 484 tons, from West Coast Florida to Boston, lumber, \$9.75; a schr, 230 tons, hence to Key West and Cedar Keys, general cargo, \$800, and back with dry boards, \$9.50; a schr, 180 M lumber, from Jacksonville to Fall River, \$9; a brig, 350 M, and a schr, 260 M lumber, from Pensacola to New York, \$9; three schrs, from Richmond to New York, railroad ties 17c, and oak lumber, \$5; a barque, 487 tons, hence to King's Ferry in ballast and back with lumber, \$8.25; a schr, 200 M lumber, from Jacksonville to New York, \$8.50; a schr, 350 M lumber, from Union Island to Philadelphia, \$7.50; a schr, 150 M lumber, from Savannah to Washington, D. C., \$7; a schr, 234 tons, hence to Galveston, \$4.25, and back from Mobile with lumber, \$9.50; a schr, from Gardiner to New York, lumber, \$2.50 and loaded; a schr, from Portland to New York, lumber, \$1.75; a schr, 202 tons, hence to St. Augustine and back from Jacksonville, lumber, \$10.50 for the round; a schr, 335 M lumber, from Port Royal to New York, \$7.50; a schr, 440 M lumber and timber, same voyage, \$7.50 and \$8.50.

Exports of lumber from the port of New York:

Europe, United Kingdom	212,966	3,493,795
Total	1,315,063	26,313,485

GENERAL LUMBER NOTES.

STATE.

The Albany lumber market, for the week ending May 18th, is reported by the Argus as follows:

The demand for lumber is good with more tone to the market than was apparent a week ago. There are several buyers here to-day; the prospect good for

an active business. Though a material advance is noted in canal freights the shipments of lumber from Buffalo to Tonawanda is not so free as is demanded by the necessities of the trade. Boxmakers and others engaged in the use of lumber are very actively employed. Quotations for the various descriptions of Pine lumber are steadily held.

Coarse lumber, Spruce and Hemlock, is firm in price; the trade is good; the receipts are freely taken and the addition to stock is scarcely perceptible. The Northern mills are already feeling the effects of the dry weather.

The receipts at Albany by canal from the opening of navigation to May 15th were:

Bds. & Sctg. ft.	Shingles, M.	Timber, c. f.	Staves, D
1879*.....
1880 .. 23,563,400	50

* Canal open May 8.

The receipts of Lumber by lake at Buffalo for the week are 6,552,500 feet; by rail 93 carloads. At Oswego, 7,733,900 feet.

Freights from Bay City to Buffalo and Tonawanda, \$2.00 $\frac{3}{4}$ M. feet; from Saginaw, \$2.25. From Buffalo to Albany \$2.65; from Tonawanda to Albany, \$2.50 $\frac{3}{4}$ M. feet, boats far from plenty. Lake Ontario freights to Oswego, 90c @ \$1.00 $\frac{3}{4}$ M. feet, and from Oswego to Albany, \$1.75 @ \$1.80. From Ottawa to Albany \$3.75 $\frac{3}{4}$ M. feet, and boats very scarce.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette Office.

BAY CITY, May 18, 1880.

Much the same tone heretofore noted is maintained in the market here. The condition is satisfactory and no anxiety is manifested for the future. The limited amount of marketable lumber is being sold in small lots at good prices, dry lumber quite readily commanding \$7, \$14 and \$35, while orders for stock to be cut cannot be placed at less than about \$9.50, \$13 and \$30 for desirable stock. Logs are being delivered more freely to the mills and the piles of new lumber on the mill yards are beginning to increase more rapidly. As soon as the new cut is sufficiently seasoned for shipping, no doubt the market will exhibit more exciting features, if firmness admits of excitement. There is no doubt that the demand for the eastern trade is going to be brisk; and the reports from thence indicate it.

Shingles are in fair request at previous quotations. The stock is not large and outside figures usually prevail.

The shipments of lumber from the river for the week ending May 15, make quite a favorable showing with those of the corresponding week of 1879, as will be seen by the subjoined table:

	1879.	1880.
Lumber.....	11,760,000	22,806,612
Lath.....	800,000	555,000
Shingles.....	3,500,000	3,256,000
Hoops.....	1,313,000

Freight charges are getting down to about the prices prevailing at the opening of navigation last Spring. They will probably not remain there long, and those having lumber to get forward would do well to move it without unnecessary delay. The going rates are about \$1.25 from Bay City to Ohio ports and \$1.50 from East Saginaw; from Bay City to Buffalo and Tonawanda \$1.75 and from Saginaw \$2.

We quote cargo rates:

Three upper quantities.....	\$30 00@35 00
Common.....	13 00@15 00
Shipping culls.....	6 50@7 50
Lath.....	@ 1 75
Shingles, XXX.....	2 75@3 00
" clear butts.....	1 50@1 90

NORTHWESTERN LUMBERMAN, }
CHICAGO, May 12, 1880. }

The general situation of the trade remains pretty much as it was a week ago. It has certainly not improved, but our readers are fully entitled to what encouragement they can get out of the fact that it is in no worse shape now than then. There is some business doing all the time at Mississippi points, and in some cases trade is reported good, though the complaint is invariably made that much injury has been done by the weakness and indecision of the dealers here. The feeling of exasperation against Chicago is noticeable, too, among the operators situated farther eastward, as is shown by two communications in this week's *Lumberman*, one from Alpena and the other from Detroit. At the latter point it seems they are threatened with direct competition from this market, and having had the opportunity of observing how this sort of thing affects others, they naturally prefer to have nothing to do with it. The manufacturers in the entire Eastern section of the Northwest, if our Alpena correspondent's letter can be taken as a fair presentation of their views, feel firmer and more disposed to fight a reduction in prices, than those of Lake Michigan or the western district. As to what the intentions of the Lake Michigan mill men are, it is rather difficult to find out. They are apt to talk glibly of firmness whenever they get a chance, but their actions do not seem in harmony with their conversation. In spite of the agreement which they entered into not to take less than \$9 for dimension stuff, there is enough offered here every day at \$8 to keep the commission men busy finding buyers for it.

In the matter of yard prices at the principal points of distribution, except this one, there is no material change to be noted. It is notorious that the late union list adopted by the Chicago dealers is not a good authority regarding prices in this market. Deviations from it are openly and frequently made, and

as fast as the lumbermen at other points learn of the cuts they drop their own figures to correspond. This is the way all the changes at outside points are made, and it is noteworthy that none go farther than is necessary to meet the actual prices here. This shows that there is really no weakness anywhere else; that were it not for Chicago the trade, as a whole, would be disposing of its lumber at very satisfactory figures.

Affairs at the cargo market do not assume any brighter aspect than at the date of our last report, except in the more frequent presence of dealers both from city and country. Prices are less fluctuating and unsettled than last week, in that piece stuff is rather steady at \$8. Boards, strips and fencing are now partaking more largely than heretofore of the demoralization, and while quotations are nominally unchanged, can be bought at a discount of 50 cents from former standards of quality and value. There is not much activity manifest, sellers holding for firm rates, while buyers claim concessions, and generally manage to get them.

CARGO QUOTATIONS.

Good joist and scantling.....	\$ 8 00@ 8 25
Common to fair joist and scantling.....	7 75@ 8 00
Good boards and strips.....	15 00@18 00
Common to fair boards and strips.....	10 00@14 00

Receipts and shipments of lumber and shingles from January 1 to and including May 11:

	RECEIPTS.	SHIPMENTS.
	Lumber. Shingles.	Lumber. Shingles.
1880.....	179,923,000 92,515,000	177,948,478 30,895,000
1879.....	164,325,398 102,354,000	190,058,907 17,775,000

LUMBERMAN AND MANUFACTURER, }
MINNEAPOLIS, Minn., May 13, 1880. }

The business at St. Louis and Hannibal has fallen off slightly during the week, but receipts are lighter and will probably continue so until the problem at Chicago is solved so as to fix prices. If the manufacturers of the Black, Chipewa and St. Croix do not force the market there will be no trouble on the river, but of course the dealers along the river must and will meet any price Chicago may set. Chicago is the only point in America where the lumber trade has fallen off as compared with the business of 1879.

The trade in the northwest is especially good. A large demand comes from Dakota, Manitoba and Northwestern Minnesota, which region is being rapidly settled up by a remarkable well-to-do class of emigrants. There is no shading on prices at any point in the west that we know of. The lists are not all uniform but are being well adhered to. 1880 will be long remembered as the most favorable driving season ever experienced on the waters of the Mississippi. There has been no floods to carry the logs out over the bottoms nor such low stages as to interfere with the driving of logs anywhere except on the upper Wisconsin River, where they have met with partial success.

THE EAST.

A report on last week's Boston market is as follows:

There has been more inquiry for Western lumber during the past week, and a better state of things is noticeable, the improvement being especially shown by the fact that holders feel more strongly entrenched in their position and are less disposed to make concessions to buyers. Sales of Western pine have been made at quotations, and some dealers report more business during the past few days, than at any time since January. Hardwoods show especial firmness, and walnut has met with an advance. There is also a better feeling in the Eastern lumber market, and though hemlock has been depressed in price, owing to large arrivals from the Provinces, spruce and pine are quite strongly held. Pine clapboards are scarce and firm. We note no change in Southern hard pine.

THE SOUTH.

The Savannah Morning News has the following:

LUMBER.—Mills are supplied with work for the present. Demand good. Prices range about as follows:
Ordinary sizes.....\$16 00@18 00
Difficult.....18 00@20 00
Flooring boards.....18 00@20 00
Shipstuff.....18 00@20 00
TIMBER.—Few arrivals this week; all arrivals sold readily at quotations. Prices remain firm. Demand good. We quote:

Shipping timber by the cargo f. o. b.—	
700 feet average.....	\$ 9 00@10 00
800 " ".....	10 00@11 00
900 " ".....	11 00@12 00
1,000 " ".....	12 00@14 00
Shipping timber in the raft—	
700 feet average.....	\$ 7 00@ 8 00
800 " ".....	8 00@ 9 00
900 " ".....	9 00@10 00
1,000 " ".....	10 00@11 00
Mill timber \$1 below these figures.	

FREIGHTS.

LUMBER.—By Sail.—There are no arrivals of seeking vessels since our last, and coastwise tonnage is in demand for lumber and naval stores, outside rates being readily obtainable. We quote: To Baltimore and Chesapeake ports, \$6.50@7.00; to Philadelphia, \$7.00@7.50; to New York and Sound ports, \$7.60@8.00; to St. John, N. B., \$8.00; [Timber from \$1 to \$1.50 higher than lumber rates]; to the West Indies and windward, nominal; to South America, \$17; to Spanish ports, \$14@15; to United Kingdom for orders, timber, 35s., lumber, £5 5s. @ £5 10s. From 50 cents to \$1 additional is paid here for change of loading port.

EXPORTS OF LUMBER AND TIMBER FROM THE PORT OF SAVANNAH FROM SEPTEMBER 1ST TO DATE.

The Charleston News and Courier reports as follows:

TIMBER AND LUMBER.—There is a fair supply of the article with a good inquiry. Hewn timber may be quoted at \$3.50@4.50 per thousand for docking \$5.50 @7 for mill, and \$7@9 for shipping qualities. Lumber is at \$12.50@15 for city sawed, \$11@12 for railroad, and \$6@8 for rafted.

FOREIGN.

The Timber Trade Journal furnishes the following:

LONDON.

Pitch pine timber is becoming more general in the market here every succeeding year, and in time will almost supersede the North German balks, the lengths of the former being so much more useful. A great quantity of re-sawn stuff figures in the floats now in the docks, and a specially fine lot of good long lengths and clean looking logs were observable in Acorn Pond.

At the recent sale of Messrs. Foy, Morgan & Co. no timber was offered of this kind, but pitch pine planks were submitted in all the usual sizes. Later, to keep pace with the state of the demand here, the producers at the shipping ports have cut this class of wood to the ordinary sizes usual in other kinds of deals. We notice the price is also pretty well maintained, though for a small parcel of Pensacola deals imported last year, that have been under cover ever since, only \$11 per Petersburg standard was realized. It is perhaps unfortunate for this kind of stuff that it comes on our market unclassified, or perhaps we should say unsorted, and consequently meets the ordinary kinds of deals at a disadvantage. In the course of time no doubt this will be altered, and be much more satisfactory to the shippers abroad as well as to the buyers here. There is no reason why it should be otherwise, as the wood is growing in favor among consumers here every day.

GLASGOW.

The only arrivals of wood goods to Clyde during the past week are two cargoes of pitch pine timber and deals. Importations of this wood to date are considerably in excess compared with corresponding period of recent years, as shown by the figures given below:

	Hewn logs.	Sawn logs.	Deals, pieces.
1878.....	922	5,885	13,045
1879.....	1,405	8,775	8,700
1880.....	3,319	17,432	12,554

For some time it has been rather slow of sale, and prices not improving the consumption on account of the continued dullness of the house trade is very much confined to shipbuilding. Hewn timber brings about 18d., and sawn 15d. to 16d. per c. ft.

There have been numerous inquiries of late for prime waney boardwood, stocks of which are well cleared out. Prices for 18 to 21 inch average have ranged from 19d. to 2s. 8d. per c. ft. Of deck plankwood there is very little of the best kind in stock, and it is expected to be all taken up before fresh timber can arrive. The stock of good red pine is very much reduced; there are inquiries for good large-sized wood. Of oak there is no first quality wood now on hand. Elm, ash, and walnut, of which there is none in stock, are also enquired for.

METALS.—COPPER.—Another decline took place on ingot following our last report, but this seems to have attracted a little more attention and, as we write, the tone is steadier, quoted 18 $\frac{3}{4}$ @19 cash for Lake. Manufactured copper not selling with much freedom and the supply fair, but holders talk steadily at the late shading. We quote as follows: Brazier's Copper ordinary size over 16 oz per square foot, 31c per lb; do do do, 16 oz and over 12 oz per square foot, 33c per lb; do do, 10 and 12 oz, per sq foot, 35c per lb; do do, lighter than 10 oz per sq foot, 37c per lb; circles less than 84 inches in diameter, 34c per lb; do 84 inches in diameter and over, 37c per lb; segment and pattern sheets, 34c per lb; locomotive fire box sheets, 31c per lb; Sheathing Copper, over 12 oz per sq foot, 29c per lb, and Bolt Copper, 31c per lb.

Iron—Scotch Pig "went all to pieces" during the period intervening since our last report owing to heavy pressure to realize. Holders, however, have since recovered. In a measure, from their panic and there seems to be a little more tone with even a fair sort of demand. The quotations may be placed at \$20 00@23 50 per ton, according to brand and quantity. American Pig also underwent another considerable break and has, it is thought, at last reached "hard pan." Supplies are in strong hands, the production under better control and, while no positive reaction on cost is expected by sellers they seem confident that a further decline is out of the question. We quote at \$25@27 per ton for No. 1; \$24@27 do for No. 2; and \$22@24 for forge. Rails have apparently had a quiet market but there is reason to believe that in a quiet way a considerable amount of stock changed hands. Valuations are a little nominal for the time being. We quote at \$48@52 for iron and \$67@68 for steel, according to delivery. Old Rails \$25@26 per ton; scrap \$24@26. Manufactured iron has scarcely reached a settled basis. Indeed, of all articles on the list of iron, is probably the most uncertain as to position and value. Buyers, however, evidently have the most advantage and are in no way anxious to improve it. Nominally we quote Common Merchant Bar, ordinary sizes at 2.8@2.9c. from store, and Refined at 3@3.1c.; wrought beams at 4@4.1c. Fish plates quoted at 3.5c.; trackbolts and nuts, 4.3c. railway spikes, 3½@4c., tank, 4.3c.; horseshoes, 4 2c.; angle, 3 2c.; best flange, 5 8c.; and domestic sheet on the basis of 4@4½c. for common Nos. 10@20. Other descriptions at corresponding prices with 1-10c. less on large lots from cars. Lead—Domestic Pig has been quite dull and few movements made public except in a jobbing way. Stocks, however, are partially withdrawn and, as a rule, held firmly. We quote 4¾@5. The manufactures of lead are firm and quoted: Bar, 7½c.; Pipe, 8c., and Sheet, 8½c., less than the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 45c. on same terms. Tin—Pig has been quite unsettled with only a light trade made public and the feeling generally nominal. We quote 16½@17c. for Australian, 17@17½c. for Straits, 16¾@17c. for English Refined, 16½@16¾c. for do. Common. Tin Plates have been in better demand and were, as a rule, steadier on all the leading grades of stock. Offerings, however, proved few and the general disposition of holders appeared quite favorable to keeping the outlet open. We quote I. C. Charcoal, third cross assortment, \$7 12½@7.25 for Allaway grade, and \$7 25@7.37½ for Melyn grade; I. C. Coke \$5.37½@5.50 for B. V. grade; 5.50@5.62 for Yspitty grade; Charcoal terne \$6.50@6.50 for Allaway grade, 14x20; \$13.50@13.62½ for do., 20x28; Coke terne, \$5.25@5.37½ for Glais grade, 14x20, and \$12@12.12½ for do., 20x28—all in round lots. Spelter in a very slow and irregular condition and prices apparently lacking strength. Quoted at about 6@6½c. according to brand. Sheet Zinc in moderate demand with prices a little weak. We quote at 7½@7¾c. according to quantity.

NAILS.—Matters do not improve to any extent. A portion of the trade make an effort to bring a more uniform tone into the market, but with scarcely any success, and the cost of supplies still varies quite decidedly, and is likely to do so, until outside or competing stocks are used up. The demand has if anything been somewhat more active of late, but buyers by no means plenty or anxious, and few willing to move beyond early and positive wants.

At a meeting of the Atlantic State Nail Association, held this week, the list rate was reduced to \$3.10 per keg, the effect of which has not as yet fully developed, but buyers do not seem to show any increase of interest.

PAINTS AND OILS.—As usual, at this season, the local consumption has been first rate on all standard descriptions of stuff, and demand still continues pretty. This acts as an offset to some loss in the call from the country, and preserves an average show of animation, but the market has no real spirit. In most cases prices are quoted "almost as before," which in reality means a weak undertone, and it is asserted that on many articles, list rates, are continually being cut, and more especially on leads and zincs. There is the usual seasonable flurry over Paris Green, but no great buoyancy shown on values. Linseed Oil has been rather quiet, and prices somewhat irregular but as a rule without much strength shown. Quoted 74@76c. from crushers' hands.

PITCH.—Operations are moderate and uncertain, and not much of a market current. Supplies, however, do not appear to be very full, and much the old line of values are ruling. We quote at \$2@2.15 for City, delivered.

SPIRITS TURPENTINE.—Much the same general features have prevailed. The demand proved very moderate, and confined in the main to small parcels wanted for immediate use, and with continued unfavorable accounts from the South, prices favored the buyer. Offerings fair. As this report is closed, the quotations stand about 28@29 per gallon, according to the quantity of stock handled.

TAR.—The demand continues moderately active and mainly from local sources, with no new features of specially interesting character to advise. Stocks are under fair control and this prevents weakness on prices or pressure to realize. We quote at \$2@2.25 per bbl. for Newberne and Washington, and \$2@2.25 for Wilmington, according to size of invoice.

CONVEYANCES.

1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

Harding, Thos. F.—Michael Sullivan, same property.....160

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

REAL ESTATE.

C. W. SWEET,

No. 137 BROADWAY

LOUD DEMANDS FOR PUBLIC IMPROVEMENTS.

There appears to be an increasing disposition now on the part of owners of vacant lots in the upper sections of New York to improve their property, the recent decline in material and the constant influx of a new population favoring this desire. But what is the use of constructing houses on streets that are not curbed, guttered and sewered? On Tuesday last, an avalanche of petitions was poured by property owners into the meeting of the Board of Aldermen, all of these petitions containing demands for improvement. In all instances they were referred to committees, no doubt for the purpose of "seeing" somebody about it, thus creating delays that are, indeed, hurtful to the interests of owners. The latter are willing and anxious to bear their due share of the cost of these improvements, and now is the time to make them. To bury these petitions in the pigeon holes of committees simply results in the continuance of a state of affairs which has been too long a drawback, especially to the West Side. The city authorities are bound to encourage enterprising owners in all matters of improvements, and not to stand by them in a season like this only delays for another year building operations that should be attended to this year.

From the Twenty-third Ward, also, we have authentic information that there would be four times the amount of building if the Park Department, having charge of the annexed District, would only attend to its legitimate duties instead of keeping a constant wraugling about small matters. Sewers are wanted in many places in the district, in fact a regular system of drainage should be at once agreed upon by the Commission. Property owners in the Twenty-third Ward have for months past petitioned the authorities to begin certain improvements that must precede building operations, they have even offered to pay the entire cost of these public improvements out of their own pockets, and yet a deaf ear is turned to these appeals. It is of no use saying this man or that man will build while city authorities are in a state of lethargy most provoking, not only to owners, but to the great public that stands ready to fill every part of this island and the suburbs with habitations of larger or smaller dimensions.

BRING ON THE WATER CARTS.

Would it not be well for the Park Commissioners to drive through the Central Park and have their good clothes and clean linen spoiled just once by the clouds of dust that abound there? Or have they a private understanding with the tailors of New York that Central Park shall only be sprinkled just enough to make people believe that those engaged in that work are doing their duty. The entire sprinkling

business is simply a fraud and a sham. The very worst is near Stetson's, where, on one of the warm days of the past week, there was no watering worth mentioning, and where the "Pleasure Drive," owing to the clouds of dust, made man and beast decidedly more uncomfortable than if they had remained in the hot city streets.

MARKET REVIEW.

REAL ESTATE MARKET.

 For list of lots and houses for sale see pages iv and v of advertisements.

The atmosphere in the Exchange Sales-room during the torrid days of last week was such that no one remained there longer than was actually necessary. Some of the best known frequenters were absent during the entire week. The public sales, though more numerous than during the previous week, were, however, most of them unimportant, with slight exceptions. Two lots on the north side of One Hundred and Tenth street, between Tenth avenue and the Grand Boulevard—a street that has probably a great future before it—were sold for \$4,800 each, by Mr. Harnett. Considerable East Side property was disposed of by Mr. Bleeker, among others two small houses on Ludlow street, near Rivington, for \$25,750, and some Mulberry street houses, by Mr. McGuire, for about \$9,000 each. The southwest corner of Tenth avenue and One Hundred and Eighth street (100.11x100), was sold on Thursday by Messrs. E. H. Ludlow & Co., for \$13,950. The Hoffman property, on Jerome avenue, at Yonkers, was sold by Mr. Bleeker for \$1,100, and Richmond County, Staten Island, property was sold for \$27.50 per acre. Considerable satisfaction was expressed at the Exchange Sales room during the week when it became known that all of those who purchased lots at the great Mutual Life sale had taken title, without a single default.

The next sale of importance will be the Supreme Court sale of Riverside avenue, Eighty-eighth and Eighty-ninth street lots, over fifty in all, which Mr. Harnett will sell on Tuesday, June 8. The best results are anticipated from this sale, as the property is to be disposed of without reserve.

GOSSIP OF THE WEEK.

There has been a marked change for the better in the various broker's offices during the week. Notwithstanding the worse than midsummer weather of the past few days, there has been remarkable activity in the sale of vacant lots, especially in Harlem. Other districts also give evidence of the determination of investors to buy while yet the figures are reasonable. This renewed state of the market must not be considered as being the second chapter of the recent boom, but as an indication that the real estate market is in a thorough healthy condition, with steady, honest business transactions. The fact that prominent investors have recently begun to improve property that has long remained vacant, and that, slowly but steadily, their example is being followed by others, gives an undertone of strength to the market which has heretofore been absent. It is really only just now that the people at large begin to appreciate the effect of rapid transit on Manhattan Island. While yet the elevated roads were in their infancy, there was an ample supply of houses in the upper part of the city for those who wanted them. Now, not only the increased population, but the shifting up-townward of our own people has reversed the situation. There is more demand and less supply, and hence those who build in certain localities find remunerative returns for their investments,

Mr. E. S. Higgins, the carpet merchant, who for years has accumulated vacant property without selling anything, has at last begun to build seven eighteen foot houses on One Hundred and Thirtieth street, between Sixth and Seventh avenues. His example, it is reported, will soon be followed by Mr. Simeon Bernheimer, who owns property on One Hundred and Twenty-ninth street, between Sixth and Seventh avenues.

Mr. Henry L. Pierson, we understand, will also build shortly twelve three-story houses on One Hundred and Forty-first street east of Willis avenue.

Mr. Edward Clark has purchased six more lots, during the past week, on the north side of Eighty-fifth street, 100 feet east of the Ninth avenue, for \$36,000. These identical lots were sold on March 5th of this year, by Mr. Salem H. Wales to Dan B. Alger for \$25,000, and the latter has, therefore, made a profit of \$11,000 in less than three months.

The disposition to build, now noticeable in various localities, is shown, for instance, by a sale of lots made at private contract during the first days of the week to Mr. Van Duzen, a builder, who has already begun to improve them. He bought four full lots on the southwest corner of New avenue and One Hundred and Twenty-third street, west of Mount Morris Park, for \$40,000, and intends to erect some fine houses there, Mr. Ketchum and Powers having fine buildings on the adjoining block.

The northeast corner of Fifth avenue and One Hundred and Twenty-ninth street, 50x110, has been sold at private contract during the week, for \$22,000.

Mordecai & Bellamy have sold, at private contract during the week, for Mr. John A. Monsell, ten lots on the north side of One Hundred and Twelfth street, 150 feet west of Seventh avenue, for \$2,900 each; also seven lots on the north side of One Hundred and Eleventh street, 200 feet east of Eighth avenue, for \$2,900 each. The same firm has sold one lot on the south side of One Hundred and Fourteenth street, between Fifth and Sixth avenues, for \$2,700.

[Siegmond T. Meyer & Sons have sold to investors considerable improved property at private contract during the week. Among others, 49 East Fifty-seventh street, 20x92, for \$42,500, and five houses in Brooklyn, viz: 173, 175, 177, 179 and 181 St. Mark's avenue, between Carlton and Vanderbilt avenues, all 20x45x131, for \$9,000 cash each.

Benner & Zeller, who have recently moved to Cedar street, have sold six lots on the south side of One Hundred and Seventh street, near Second avenue, to Deane & Chamberlain for \$11,400. The same firm is negotiating for the sale of ten lots on One Hundred and Sixteenth street and fourteen on One Hundred and Nineteenth street, east of Third avenue, on the basis of \$95,000 for the twenty-four lots. At the time of our going to press there was every indication that the contract for the sale of these lots would be signed. Benner & Zeller have also sold at private contract the following apartment houses: No. 82 East Seventh street, between First and Second avenues, 25x68, five-story brick, for \$13,000, to Daniel Gundall; also, 306 East Eightieth street, near Second avenue, 25x100, a five-story Philadelphia brick house, for \$12,300, to a wealthy young lady.

Scott & Myers have sold one lot on the northwest corner of Sixth avenue and One Hundred and Thirty-first street, and one lot adjoining on the street for \$9,000.

The act providing for a commission of six persons—Mayor Cooper, Comptroller Kelly, Commissioner Campbell, John S. Lawrence, Daniel Lord, Jr., and George H. Andrews—to modify, reduce or vacate assessments, will, no doubt, be signed by the Governor, when the commission will at once organize for active

work. Property-owners intend to closely watch the operations of the commission.

The following are the sales at the Exchange Sales-room for the week ending May 28:

* Indicates that the property described has been bid in for plaintiff's account:

† Indicates that the property described was purchased for account of parties in interest.

BUILDING MATERIAL MARKET.

BRICKS.—On the market for Common Hards, the weakness noted at the date of our last report has taken even more decided form, and prices generally are lower. Receivers say there was not what, under ordinary circumstances, would be called a large amount of stock afloat, but still the supply has exceeded the demand, and a constant shading became necessary in order to secure customers, and, as we write, the tendency still appears downward. Indeed, it seems to be quite universally acknowledged that the attempt to "boom" the price of brick this spring is a failure, and the only course now to pursue is to feel the way down gradually until a basis is reached at which buyers will be willing to take hold with greater freedom. Reports in regard to the strike are quite contradictory, but up to the time of our writing we do not think any general settlement has taken place: Work was resumed at some of the yards, but only under the understanding that rates would be fixed upon the basis of those finally agreed upon in the settlement of the controversy. Since the decline, employers have given up even this arrangement as they feel that with the close margin already existing they must have some idea of the cost of wages. In the meantime, at all other points along the river, production is being pushed with the utmost vigor, and, as shown this week, there is little danger of a scarcity of brick, unless demand greatly and unexpectedly improves. Besides this, there is twenty odd million or so of old stock on hand for which owners had calculated to realize \$11 per M and upward at the yard and district. Quotations are quite irregular at the moment but on "Up Rivers" \$6.50 appears to be about the top, with some sales down to \$6 per M for poor quality. On Haverstraw, sales have been made at \$7.25@7.50 for ordinary up to \$7.75@8 for choice with the figures barely supported at the close. Pale Brick have done the best of any offering and show closely sold supplies with prices firm at \$3 and \$5.25 for the best lots. The demand came principally from Harlem and South Brooklyn. Fronts continue quiet at about former rates.

HARDWARE.—Dealers very generally appear to have given up all attempts to convey a cheerful tone to their reports on the market, and a great many indeed, do not hesitate to characterize matters as hopelessly demoralized, for the present at least. The distribution of supplies is confined entirely to small jobbing parcels, and beyond this limit buyers seem fully determined not to go. Supplies in the country hold out remarkably well and in addition to this decided check to demand is the evident weakness on values, which naturally makes buyers more than ever cautious. A great many manufacturers, organizations have "resolved" to retain old lists, but the idea that the figures are adhered to seems to be considered a pretty good joke by most of the trade.

LATH.—Not much of interest has developed since our last. Supplies have been small and the few sales made were at previous rates, receivers finding the outlet small and buyers indifferent. Within a day or two evidences of increasing interest have developed and the feeling is much better. Quite a number of enquiries have come to hand from out of town sources, principally New Jersey, and a few of our local yard dealers have also exhibited greater anxiety with the general evidences favoring the idea that if ready for delivery a considerable amount of stock could be placed. The prospect for consumption is good.

LIME.—The advantage remains with sellers and the market shows a generally steady tone. Supplies not very large and apparently exhausted without much difficulty, with room for more and some occasional selling of stock ahead of arrival.

LUMBER.—Our market continues to afford an outlet for pretty much all the desirable stock offering, and the changes in value are few. Where there has been any variation, however, it was rather on the downward incline, and the advantage is not so universally in sellers favor as at the commencement of the month. This, however, is a natural and ordinary development of the season on many grades of stock, and has thus far taken less positive form than usual with a probability that no important break can occur, for some time at least. Since means of communication with the primary points were restored, the receipts of supplies have been universally heavy, but the proportion moving direct into consumption also greatly exceeded that of former years and hence the accumulation in dealers hands was of slow growth. Stocks, however, now commence to make some show, the orders for specials are less plenty and buyers very generally manifest an absence of sufficient confidence in the future to induce them to continue operations with the same freedom as early in the season. Still, as we have noted above, the demand appears full enough to take about everything possessing merit, and the principal feature is the greater caution of buyers who select more closely and contest extreme cost with better success.

Spruce has probably weakened to the greatest extent. Not many receivers are willing to admit this, and some refuse to acknowledge that the market is "off" at all, but on sales made and negotiations pending in a quiet way, the buyer has for some little time been securing fractional advantages. In fact, orders have now been fairly cancelled by many mills, and the supply of stock is in consequence larger, especially for the coming two months, and with sellers taking the initiative in most new transactions, the

natural sequence is to be found in easier rates. As low as \$15 is reported for undesirable, and \$15.50@16 is about all that can be depended upon for regular random, with specials somewhat uncertain.

White Pine shows no great change. Some increase in the actual sales to the export outlet are reported, but these cover merely the old orders held back as long as possible, awaiting better terms, and which are understood to have been obtained in a few cases. On home account, however, there is not quite so much call, in part due to the fact that some consumers, before dependent upon this market, are now getting receipts direct. Advances from the interior continue to speak of much strength and confidence among all holders of clear dry pine, and a moderate offering at all the principal points. We quote at \$17@19 per M. for West India shipping boards; \$23@24 for South American do.; \$15.50@16.50 for box boards; \$17@18 for do. wide and sound do.

Yellow Pine affords little opportunity for the introduction of new features into the market report. Demand is still good, and especially so for prompt deliveries, with buyers to be found for anything desirable in the way of a random, or a special available during the next month or six weeks, and full former rates bid. For distant deliveries, however, the call is not quite so sharp, and buyers incline to modify their bids a trifle, as advices at hand indicate that some of the mills are a little behind on summer engagements. We quote random cargoes at about \$24@26 per M; ordered cargoes, \$25@27 do; green flooring boards, \$2@27 do, and dry do do, \$26@28. Cargoes at the South \$16@18 per M. for rough, and \$22@24 for dressed at Atlantic ports; \$15@16 for rough, and \$30@32 for dressed at Gulf ports.

Hardwoods have continued firm on all grades, as the supply of desirable parcels is small and the demand very good, consumers are the principal buyers here but export agents continue operations at the West and are securing most of the desirable parcels, especially of Walnut. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$4@35; do. do. c. l. s. \$18@20 do; cherry, \$15@17 do; white wood, 1/2 and 5/8 inch, \$25@27 50, and do. inch, \$30@35 do; hickory, \$35@45 do, for Western, and \$6@7.75 for good heavy stock.

Shingles have been selling very well this spring, the home consumption keeping up full, and quite a number of export orders requiring attention. Prices, as before, are steady. We quote Cypress at about \$6 for saps, and \$8.1@9 for hearts; pine shingle stocks, \$4 for 18-inch, and Eastern saw grades at \$2.50@4.50 for 16 inch as to quality and quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, \$16@22.25 for A and \$28.75@33.2 for No. 1; for 24-inch, \$6.5@16 for A and \$16.75@23 for No. 1; for 20-inch, \$5@10.50 for A and \$11.25@15.75 for No. 1.

At the yards business is good and full rates obtained with no surplus of stock of any kind, but enough to go around.

From among the lumber charters recently reported we select the following:

A Br ship, 1,379 tons, from St. John, N. B., to Liverpool, deals, 58s; an Am bark, 667 tons, from St. John, N. B., to Cork Quay, deals, 61s 6.0 c; a Br bark, 1,278 tons, from St. John, N. B., to Liverpool, deals, 58s; an Am ship, 981 tons, from St. John, N. B., to Liverpool, deals, 59s; a Br ship, 812, and a Br bark, 593 tons, from Doboy to a direct port United Kingdom, hewn timber, private terms; a Br bark, 630 tons, from Doboy to the United Kingdom, hewn timber, at or about 35s; a brig, 393 tons, hence to Cardenas, lumber, at or about \$5; three schrs, 142, 173 and 178 tons, from St. John, N. B., to New York, lumber, \$4, and laths 80c; two schrs, 141 and 113 tons, from Portland to New York, lumber, \$2@2.20; a schr, 160 M lumber, from Bangor to Philadelphia, \$3; a schr, 250 M lumber, from Pensacola to Portland, lumber, \$10 50; a schr, 425 M lumber, from Port Royal to Boston, \$7.50; a schr, 150 M lumber, from Norfolk to New York, \$3.50; a schr, 210 M flooring boards, from Stockton, Ala., to New Bedford, \$12; a brig, 225 M lumber, from Savannah to New York, \$7.50; a schr, 215 M lumber, from Savannah to Philadelphia, \$7; a brig, 220 M resawed lumber, including deck load of timber, from Darien to New York, \$7.75 and \$8.75; a schr, 210 M lumber, from Wilmington to Poughkeepsie, \$8, and Hudson River towage up and down; a schr, 287 tons, hence to Fernandina and back with lumber at or about \$9 for the round; a schr, 200 M lumber, from Wilmington, N. C., to New York, \$7.50, out in ballast; a schr, 153 tons, hence to Brunswick, railroad iron \$1.00, and back from Jacksonville to Albany, lumber, \$10.

Exports of lumber from the port of New York:	This Week.	Since Jan. 1.

GENERAL LUMBER NOTES.
STATE.

The Albany lumber market, for the week ending May 25th, is reported by the *Argus* as follows:

The attendance of buyers in the district, daily, since our last report has been large; a good business has been done, including several round lots, one covering 1,350,000 feet common, on prices not made public. The general tone of trade in the District is good and the business done so far this season compare

very favorably with that of 1879 so far. There is not any change to note in the price of any article in the entire list. The deliveries from the canal during the third week in April have been free and in excess of the deliveries by canal at New York, Waterford and West Troy combined, but it has been largely of coarse lumber.

Coarse lumber has been in demand equal to the receipts; even those receipts have been more than usually free. Prices are steadily held, and there has been a good trade since our last report and at full prices.

Freights have undergone considerable change. From Saginaw, where the stock of dry lumber to be shipped is at a low figure, freights to Buffalo and Tonawanda are 50c. per M feet lower. From Buffalo and Tonawanda to Albany, where boats are in great demand, freights are up to \$2.90 and \$2.75 respectively, and higher prices are reported to have been paid. From Oswego to Albany the rate is reported as ranging from \$1.65 to \$2.

The receipts at Albany by canal from the opening of navigation to May 23d were:

Bds. & Sctg. ft.	Shingles, M.	Timber, c.f.	Staves, M
1879..	9,653,700	50
1880..	35,244,700	50

The receipts of Lumber by lake at Buffalo for the week are 10,194,500 feet; by rail 72 car loads. At Oswego, 6,990,500 feet.

Freights from Bay City to Buffalo and Tonawanda, \$1.50 M feet; from Saginaw, \$1.75. From Buffalo to Albany \$2.90; from Tonawanda to Albany, \$2.75 M feet, boats still wanted. Lake Ontario freights to Oswego, 9c @ \$1.00 M feet, and from Oswego to Albany, \$2.00. From Ottawa to Albany \$3.75 M feet, and boats very scarce.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette.

BAY CITY, May 25, 1880.

It has been pretty well demonstrated that the Saginaw Valley market is as nearly independent of Chicago as it is possible for one point to be of another engaged in the same trade. Prices remain as previously reported and are maintained without great difficulty. Lumber is in fair demand, and transactions are equal to the expectations of the season. Offers are quite free at \$6.50, \$13 and \$30, and sales are reported at this figure and at \$7, \$14, \$30. No anxiety is felt by manufacturers regarding prices. They are satisfied their products will be wanted at going rates. The eastern market is not well stocked, at least does not contain enough to carry it through the season, but will be compelled to lay in a considerable supply to prepare for the fall trade. Freights are so low that lumber is costing less at the east than it did last fall. There is not a large supply of lumber anywhere in the country, while the consumption is much greater than is supposed and is not likely to fall off but rather increase. The general outlook for the trade, except at Chicago, is quite encouraging. Should it be necessary, later in the season, to shade prices the manufacturers on the Saginaw River will make concessions with as much cheerfulness as they now maintain the prevailing rates.

The drives are all progressing favorably and quite a number of them are safe in boom limits. The Tittabawassee Boom Company has finished rafting out the stock of last season's logs and began on new logs. The amount rafted out for the season to May 22 was 514,144, being a little less than 74,000,000 feet.

The shipments by water of the week have been moderate in quantity, yet quite free as compared with the corresponding week of last year, when they were a little over 11,000,000. The figures for the past week are:

	Bay City.	Saginaw.	Total.
Lumber.....	13,525,033	5,450,000	18,975,033
Lath.....	2,370,000	550,000	2,920,000
Shingles.....	2,944,000	800,000	3,744,000

Lake freights are as low as any one can reasonably expect, and lower than they should be. Charters are reported at \$1.50 @ \$1.75 to Buffalo and Tonawanda and \$1.25 @ \$1.37½ to Ohio ports. Lumber ought to be going forward rapidly at these figures, and would be but for two circumstances, there is not much fit for shipment and vessel men are not anxious to accept the rate, and some of them are tying up.

We quote cargo rates:

Three upper quantities.....	\$28 00@32 00
Common.....	13 00@15 00
Shipping culls.....	6 50@7 50
Lath.....	1 25@1 50
Shingles, XXX.....	2 75@3 00
clear cuts.....	1 50@1 90

NORTHWESTERN LUMBERMAN, } CHICAGO, May 19, 1880. }

There is nothing in the present situation of the trade, as set forth in the detailed reports from the different markets which follow, that calls for extended comment. The fact that there is so little change to be observed must be regarded as encouraging. It shows that lumber is not going down by the run, as some hoped, and many feared it would a week or two ago, and to this extent is an indication creditable to the members of the trade. It proves that they have a little backbone left, though it does not determine whether the supply available is large enough to prevent another break, and perhaps several of them by and by. The Lumberman would be glad to solve this latter riddle for its readers, knowing how anxious they are to have it solved, but this is as impossible

now as anything can be. There are many opinions in regard to it, held by different men, the variation in them usually depending upon the positions which they occupy in the trade. Buyers of lumber by cargo, in this market, think prices are going down; producers of the same in Michigan or Wisconsin are of the opinion that it will remain for awhile where it is, and then, as the season wears on, will gradually advance. All manufacturers of lumber, whether on Lake Michigan or elsewhere, rather incline to the latter view of the future, while all those lumbermen who would be benefited by a still further decline in prices find what are to them sufficient grounds for believing in something of an opposite character; which goes to show that lumbermen are human after all, and allow the wish, very frequently, to father the thought.

During the week prices have been maintained without any material change from the figures last quoted in the Lumberman. Piece stuff has been steady at \$8 for the standard Manistee, and \$7.75 for Muskegon and White Lake. If any variation has been made from these figures, it has not been made public by the parties to the transactions. Boards and strips rule tolerably steady at the figures named below, which, it will be observed, are the same as were given last week. Shingles have declined a notch or two, which, considering that they have previously held their own in price rather better than anything else, is not to be wondered at. Lath are marked down from \$1.75 and \$2 to \$1.50 and \$1.75, the demand for them being, like that for lumber and shingles, slow and irregular. The fact that prices have kept up to nearly the former standard is perhaps the most encouraging feature of the past week's business. It argues rather more firmness on the part of sellers than the bear element looked for, though the latter does not by any means despair of being able to force the market much below its present range.

Lake freights are fairly steady, and the demand for the past two or three days is said to have been a trifle more active. No immediate advance is looked for by the vessel men, neither the local business, nor the reports from other points on the lakes, being encouraging enough to warrant such a hope.

CARGO QUOTATIONS.

Good joist and scantling.....	\$8 00@8 25

Lath.....	1 50@1 75

OFFICE OF LUMBERMAN AND MANUFACTURER, } MINNEAPOLIS, Minn., May 20, 1880. }

The statement of the secretary of the Lumbermen's Exchange for April reveals the cause of much of the uneasiness. The receipts to May 1st are 155,872,600 feet, being 11,302,227 feet more than was received at the same time last year, while the shipments have fallen off over 10,000,000 feet, making a little difference of over 21,000,000 feet, which is on the wrong side of the scale, and getting worse at the rate of 13,000,000 feet per week, while every other market shows an increase in shipments. Saginaw and Bay City have sold out to Eastern and Southern markets at good figures. Trade at Tonawanda and Toledo is excellent. St. Louis and the river markets north to Minneapolis have done a very much heavier trade than they have for several years. Under such circumstances some desperate efforts to regain lost trade was to be expected, hence the demoralized condition of the market. We regard this as the true reason why Chicago is sick, rather than a desire to buy cheap. If they cannot sell, they do not want to buy. Never in the history of lumbering in the West has there been so much lumber manufactured on the 18th of May, as there is this year. This is being cross piled and will soon be in excellent shipping condition. Minneapolis is happy, having shipped over 40,000,000 feet since January, while local consumption has increased the sales nearly 20,000,000 feet more, leaving of the old stock not more than 25,000,000 feet on hand, with prices steady and demand good.

We take the following from the Des Moines (Iowa) State Register:

The lumber dealers of England are making a grand raid on Iowa and all the black walnut States, and are fast taking from us all that we have left of that lumber. The native forests in Ohio and Indiana were rich with this now precious wood, and the early settlers of those States, in clearing the land for agricultural purposes, destroyed numberless thousands of acres of the timber, little thinking that in doing so they were destroying that which in a few years would have made their lands more valuable than gold or lead mines. The havoc of timber in Ohio and Indiana—the settlers there spending nearly a hundred years in steadily destroying the woods with which they found the surface covered, girdling and killing the great forests one year and burning them the next—is one of the queer things in American history as it is now looked at. The destruction has but lately stopped. The writer here has seen in the last twenty years this destruction going on in Indiana—in the great woods of Jennings and Bartholomew Counties. The eighty acres of walnut and poplar that the settler then spent six or eight years of hard labor to destroy would now make him rich, and be worth far more than his cleared farm—and that was only twenty years ago, when there was not this one excuse, that there were no railroads to take settlers to the open land, where the soil was still richer and there were no forests to fell.

But we are writing of this English raid on Iowa. It is a raid to take from us what of black walnut we have left. The traveler along the railroads of this State sees now, at nearly every important station, a little out-door steam saw mill working away like

mad, ripping up black walnut logs into great slabs. All over the West, in the black walnut belt, these little saw mills are cutting up into a certain form of broad and thick slabs all the black walnut that can be got hold of. A large and wealthy corporation of Indianapolis men, co-operating with a company of English capitalists, are the proprietors of these mills. They have their buyers out at every little station and in the rural districts, and wherever the smallest patch of black walnut can be found. Two of these little mills are now tearing away in the City of Des Moines, another at Mitchellville, and all that we have left of this valuable timber in Polk County and Central Iowa is fast passing under their saws, coming out broad slabs, and going thence directly on the cars on their way to England, where, in their greater wisdom, the people have come to know that black walnut wood is already as valuable, because of its durability, beauty, and growing scarcity, as mahogany. It is a general raid all over the West, and our farmers, if they knew of the scheme, would not sell their walnut trees as they are selling them now, for a mere tithe of what they are really worth.

THE EAST.

A correspondent of the Northwestern Lumberman writes as follows:

ORONO, Me., May 11, 1880.

Our mills are mostly idle at present; having sawed all their old logs, they have been obliged to shut down until the new crop comes in. The drives are progressing well, with plenty of water up to this time, but the river is now falling. Most of the brook drives have got out into the main streams, though there are rumors, that lack confirmation, that one or two have been hung up. Stearns & Webster started the first Mattawamkeag drive last week, and will be out into the main Penobscot to-day; they have a light rear on the main river and plenty of water, and will come right along. This drive contains about 1,500,000 feet. They will start the second drive in a day or two, which will contain not far from the same amount. On the west branch I learn that they have plenty of water, and are getting along well. There are a great number of lakes to cross which are hardly open yet, and as this drive is not usually due in the boom before July 1, it is too early to predict what will be the state of affairs with the logs when they get below the lakes. I have heard nothing yet from the east branch, but do not anticipate any ill luck. There were but few logs cut on this branch. There has been rumors that J. W. Palmer's drive on the Piscataquis would probably be hung up, but I learn this morning from a reliable source that it will come, though they are having a pretty hard drive.

Webster & Lunt commenced rafting the new logs from the Penobscot boom last Friday, so that we shall have logs enough to start up on again soon. Prices still remain firm and orders plenty. Log owners are asking high prices and will probably get them, as manufacturers must have the logs to fill orders; but I am of the opinion that when all the drives are in, prices will be lower, for they are out of proportion to manufactured lumber, and the margin is too small for a living profit to the manufacturer.

The outlook is promising for a good business this season, and the lumbermen are cheerful and working with the old time energy. I hope their anticipations may be realized, for they have been working for nothing for the last five years, and if anyone deserves success it is the hard working go-ahead lumberman.

W.

FOREIGN.

The Rio News, with dates to April 24th, reports as follows:

Pitch Pine.—The arrivals since the 14th inst. consist of 156,055 feet, per Oma, from Fernandina, which had been sold to arrive; 402,000 feet, per George Peake, from Brunswick, sold at \$3,000. The market is steady at \$3,000—\$3,100 per dozen.

White Pine.—The arrivals have been only 5,092 feet per Valkyrien from New York. Market firm at 90 to 100 rs. per foot according to quality.

The Timber Trades Journal, under date of May 15th, as follows:

LONDON.

The great event of the week has undoubtedly been Messrs. Churchill & Sim's three days' sale at the "Baltic." It seems surprising, however, what little interest many of the representatives of the Baltic free on board trade appeared to take in the proceedings; very few were at the first days' sale, and some of those who dropped in did not stay a minute, as if it were a matter that had no concern for them. Most of these, however, who look to the London consumption, were anxious to see how the market would bear the strain of having such a quantity of one sort of goods forced on it, and may congratulate themselves on the result. If yellow pine did not realize quite up to their expectations, they may take heart from the fact that it is out of the question where buyers are to a certain extent limited to the regular attendants at these rooms, to expect that all parcels should fetch equally well, where so many lots had to be sold; at any rate first qualities went fairly well, and certainly a couple of pounds a standard more than at this period of the season last year, when the top price of selected lots seldom went over £22. There was no difficulty experienced on the present occasion in getting buyers up to £23 for really first-class goods, and one or two went 10s. above this price.

Mr. Alexander Sim officiated on the Wednesday, and in opening the ball made a reference to the yellow pine stocks in London, which he stated were "comparatively" small. It is an acknowledged fact that yellow pine, or white pine as the Yankees call it, is getting scarcer and scarcer as time and the woodman's axe go on, so that it is not likely, under any or

ordinary circumstances, that we shall ever see the prices of the better sorts much reduced. It is not as if it were any ordinary wood, which if the stocks gave out could be replaced by some other, for from its peculiarity, or rather dissimilarity to other kinds of deals, owing to its softness and pliability, if the yield gave out and no more could be obtained in the market it would be very difficult to find a substitute for yellow pine for all the uses to which it is applied.

In yellow pine some little confusion of ideas or a mistake in appreciation between floated and dry floated, and these, as compared with bright, had its influence on values, and it not unlikely put qualities, between which a good judge would be puzzled to award the preference, at some disadvantage, while possibly different prices were obtained solely from the accidents of these qualifications. Some thirds of good size and favorite lengths went as low as £8, while the average was perhaps as much as £9 10s. or £10 per standard.

This week's advices from Havana report as follows:

White Pine.—We hear of the sale of a small parcel from New York, by steamer, at \$33, with 5 per cent. discount, and the inquiry continuing active; we quote \$31@33 gold, per mille feet, as to assortment.

Pitch Pine.—Continues scarce, and, owing to the active prevailing demand, we anticipate a ready and advantageous sale to the first cargoes to come in. Meanwhile, we quote nominally \$33@38 gold per M. feet for good assortments.

Cooperage Stock.—Box Shooks.—Stocks in first hands have been increased by 4,000 received this week from Portland and under a very dull demand, we quote 8@8½ rs. as their nominal value.

Hhd. Do.—Receipts this week have been exceedingly heavy, adding up 18,075 by five vessels from Portland, New York, Baltimore and Philadelphia; they were partly disposed of at prices below our last quotations, for which reason we must consider the value of this article as entirely nominal to-day.

Empty casks.—We quote \$3½ for hhds., a price that was just obtained for a parcel from Portland. Nothing above 8@10 rs. is as yet obtainable for tierces.

Hoops.—Receipts this week amount to 234,360 and under a dull demand, prices denote a marked tendency to decline further. Last sales were made at \$39 and \$38 per mille, for long shaved.

NAILS.—On the whole, the tendency is thought to be toward a somewhat steadier tone. The recent considerable shadings on cost, under official sanction, are looked upon as having been about what was fair, when all influences are considered, and, with fewer outside lots offering, sellers are a trifle more indifferent. The demand, however, does not improve much as yet, and but few buyers can be induced to anticipate their wants. We quote nominally 10d to 60d, common fence and sheathing, per keg, \$3.10; 8d and 9d, common do. per keg, \$3.25; 6d and 7d, common, do per keg, \$3.50; 4d and 5d, common do per keg, \$3.05; 3d and 4d, light, per keg, \$1.60; 3d, fine, per keg, \$5.85; 2d per keg \$3.35.

Cut spikes, all sizes, \$3.35. Floor casing and box, \$3.75@4.50. Finishing, \$4.00@4.75.

CLINCH NAILS.

1½ inch, \$5.50@5.65; 1¾ inch, \$5.25@5.35; 2 inch, 5.00@5.15; 2½ inch, 4.75@4.85; 3 inch and longer, 4.50@4.60.

PAINTS AND OILS.—A very good local call again reported, but not quite so free as before, and trade tends to fall away somewhat, as the country fails in its usual demand. Jobbers and retailers from the interior assert, that in view of the general downward tendency of prices on nearly all articles, buyers are standing off in hopes of better terms, and consumption is thus for the time being curtailed. Supplies of both domestic and foreign goods continue ample, and are nearly in all cases available without difficulty, as a great many holders are evidently quite ready to sell when opportunity offers. Linseed oil is dull and unsettled, with few sales made, except in a jobbing way. Quoted at about 70@72c. from crusher's hands.

PITCH.—A moderate demand reported from most of the regular sources and in about the usual form, supplies equal to all calls and available at former rates. We quote at \$2@2.15 per bbl. for city, delivered.

SPIRITS TURPENTINE.—Very little desire to handle the stock in first hands has been manifested, and a dull, unsatisfactory market continued throughout. Holders offered supplies readily, and generally on quite easy terms, with prices again lower. As this report is closed, the quotation stands about 25½@26c. per gallon, according to the quantity of stock handled.

TAR.—Supplies continue under very good control, and are sparingly offered, as few additions can be expected. The demand, however, does not extend much beyond the ordinary line of trade wants, and former figures are accepted. We quote at \$2@2.25 per bbl. for Newherne and Washington, and \$2@2.25 for Wilmington, according to size of invoice.

No. 137 BROADWAY

ASSESSMENTS FOR LOCAL IMPROVEMENTS.

The important bill passed by the two houses of the legislature, relating to assessments for local improvements in this city, is now before the Governor and will, no doubt, be signed by him. It has already been briefly stated that this new law creates a commission, consisting of the Mayor, Comptroller, Commissioner of Public Works and three citizens, who will have power to revise, reduce or vacate assessments and from whose decision there is no appeal. In order, however, to acquaint our readers with some of the leading provisions of this important measure, Mr. John C. Shaw, who has been actively engaged in bringing order out of chaos, so far as this assessment question is concerned, and who, having been consulted in the framing of this legislative document, is competent authority in regard to the meaning of its various sections, has been asked to define the general purport of this measure, so important to all property owners. The bill, he says, does not prevent the vacating of assessments by the courts, if the petition to that effect be filed within three months after the passage of this act. Property owners have their choice, either with the new commissioners or the courts, that is to say, so far as all confirmed assessments are concerned.

As to assessments not confirmed, but where the work has been completed, owners have also their choice, but it must be exercised within two months after confirmation. All assessments for work completed must be confirmed within six months. This bill does not apply to street opening cases, only to assessments confirmed by the Board of Assessors. The bill also provides for the repayment of assessments paid prior to the passage of the act, where the commission shall give relief to other parties who have not paid their assessments for the same improvement, provided, however, that one-half of the entire amount assessed, exclusive of the portion assessed to the city, remained unpaid and an apparent lien on May 1, 1880.

We print in advance of the daily papers a complete copy of the bill, so that our readers may judge for themselves as to the importance of its various provisions.

IMPORTANT CHANGES IN THE RAPID TRANSIT LAW.

There have been made some important changes in the General Rapid Transit Law of 1875, and the amendments thus made, though of great interest to property owners in Brooklyn, as well as in New York, have passed both Houses and been signed by the Governor without the public at large being made aware of the fact through the columns of the daily press. We hereby print section 4 of

this law, placing the amendments in brackets, so that those interested can at once notice the changes:

SECTION 4, Chap. 606, Laws of 1875:

Said Commissioners shall, within thirty days after such organization determine upon the necessity of such steam railway or railways, and if they find such railway or railways to be necessary in such county, they shall within sixty days after such organization, fix and determine the route or routes for such steam railway or railways, and the said Commissioners shall have the exclusive power to locate the route or routes of such railway or railways, over, under, through or across the streets, avenues, places or lands in such county, except Broadway and Fifth avenue below Fifty-ninth street, and Fourth avenue above Forty-second street, in the city of New York; and [except over, under, through or across those portions of Grand, Clason and Franklin avenues, in the city of Brooklyn, lying between the southerly line of Lexington avenue and the northerly line of Atlantic avenue, and over, under, through or across that portion of Clason avenue, in said city, lying between the northerly line of Lexington avenue and the southerly line of Park avenue], and except such portions of streets and avenues as are legally (authorized) for the main line of, or occupied by, an elevated or under-ground railway, in actual operation, and except such as are contained in public parks or occupied by buildings belonging to such county, or to this State, or to the United States, and except that portion of the city of Buffalo lying between Michigan and Main streets, and to provide for the connection or junction with any other railway or bridge, provided that the consent of the owners of one-half in value of the property bounded on, and the consent also of the local authorities having the control of, that portion of a street or highway upon which it is proposed to construct or operate such railway or railways, be first obtained, or, in case the consent of such property-owners cannot be obtained, that the determination of three commissioners appointed by the General Term of the Supreme Court in the District of the proposed construction, given after a due hearing of all parties interested and confirmed by the Court, that such railway or railways ought to be constructed or operated, be taken in lieu of the consent of such property-owners.

Owners of property along Greene, Clason and Franklin avenues, Brooklyn, have, by this amendment to the general law, secured for themselves protection against the construction of any elevated road along these streets. Had these exceptions been framed in a special law, this force would not have been so binding as now that they have been enacted into a clause in the general rapid transit law covering the entire state.

The next amendment, though apparently insignificant, and being only the substitution of the word "authorized" for "designated," may prove of far greater importance to the people of New York city than such a trifling amendment would seem to warrant. And yet those who understand the secret springs that move Albany legislation see in that simple word the revival of the underground railway enterprise, for which a charter was obtained twelve years ago. It now reads "except such portions of street and avenues as are legally authorized for the main line of, or occupied by an elevated or under ground railway, etc.," which, regarded from a legal standpoint, means a good deal more than if said streets had been "designated." In fact, since the passage of the amendment the map of the proposed underground railway has been filed in the Register's

office, and what was supposed to be a defunct corporation suddenly rises into prominence by the announcement that enough foreign capital has been obtained to build the road from the Battery to the Harlem River. But what is of far greater importance thereto is that the last legislature has passed an act to the effect that in the case of any sale of railroads or railroad franchises, under order of court, the railroad company should be legally held to possess, and to have done, everything that was alleged in the court's decree, setting forth fully all the franchises, rights and property, and declaring that the same exist in full force and value. So much is sure that its projectors boldly announce that the legislative re-affirmation of franchises previously obtained, and necessary in order to obtain this foreign capital, has been procured, and hence the change in the sentence of the section above quoted was no doubt a part of the legislative programme, supplying the required re-affirmation.

The revival of this enterprise has been the subject of conversation among many owners of property, and though, perhaps, some of the ideas set forth by its projectors may as yet be considered too far in advance of the time, there can be no question that Commodore Vanderbilt made one of the greatest mistakes in his life when he refused to build the under-ground road from his depot to the City Hall, for which he at one time possessed a charter. We cannot in the main agree with persons who, at the very outset, have been hostile to an enterprise that will prove of advantage to New York. We do not overlook the fact that rapid transit in and around our city is after all only in its infancy, and that with this re-affirmation of the legal rights of the underground enterprise, new experiments will shortly have to be made that may strongly interfere with the monopoly now enjoyed by the elevated roads.

THE NEW ASSESSMENT BILL.

The following is an authentic copy of the act creating the new Board for the Revision and Correction of Assessment in the city of New York:

An Act relating to certain assessments for local improvements in the city of New York:

The people, &c., &c.

SECTION 1. Any assessment for any local improvement in the city of New York heretofore confirmed by the Board for the revision and correction of assessments in said city, and also any assessment for any local improvement heretofore completed which may be hereafter confirmed by said board, and any assessment for the local improvements known as Morningside avenue when confirmed by said board, may be vacated, modified, set aside, revised or confirmed in conformity, with the provisions hereafter contained and not otherwise.

All officers charged with any duty connected with the imposition or confirmation of any assessments for local improvements in the city of New York are hereby directed so to perform such duty that assessments for all local improvements heretofore completed shall be finally passed upon by the board for the revision and correction of assessments pursuant to the provisions of law relating to assessments in said city within six months after the passage of this act. Any assessment for the local improvements known as Morningside avenue

shall be finally acted upon by such board for the revision and correction of assessments within three months after the completion of the same.

SEC. 2. The commissioners hereinafter designated and named, or a majority of them, shall, for the purposes of this act, have jurisdiction to revise, vacate or modify any of the assessments aforesaid, when the owner or owners of the real estate affected by such assessment, or other party or parties affected thereby, shall have filed with the comptroller of said city a notice specifying the particular assessment complained of, the date of the confirmation of the same, the property of such owner or party affected, and in a brief and concise manner the objections thereto, showing or tending to show that the assessment was unfair or unjust in respect to said real estate. Such notice must be filed with the said comptroller and a duplicate thereof with the Counsel to the Corporation as follows:

1st. As to all assessments hereafter confirmed for local improvements heretofore completed on or before May 1st, 1880.

2d. And as to any assessment for the local improvements known as Morningside avenue within two months after the dates upon which such assessments may be respectively confirmed.

SEC. 3. It shall be the duty of said Commissioners, or a majority of them, to inquire into the facts and circumstances relating to any assessments to which objections may be made and the notice filed as aforesaid, and to hear the evidence in support of such objections or in opposition thereto, and on every such inquiry and hearing to administer oaths or affirmations to all persons testifying, and after duly considering the evidence, to determine whether substantial injustice was caused by the confirmation of such assessments or otherwise; and any assessments as to which the said commissioners, upon such inquiry, may determine that substantial injustice has been caused by the confirmation of the same or otherwise, may be revised, modified or vacated by the said Commissioners, and they may award such relief to the respective parties filing such applications as shall be, under the circumstances and on the evidence presented, just and equitable; and they shall, in determining such relief, consider the fair value of the work done, for which the assessment is imposed, and the amount of benefits conferred over and above the damages, if any, caused by the improvement. A majority of said Commissioners shall constitute a quorum for the hearing of any application, and the relief granted must be concurred in by at least a majority of the Commissioners. They or any person who has filed any such application or the counsel of said city, as hereinafter provided shall have power to summon witnesses and require the production of books and papers, and the attendance of witnesses, and the production of books and papers may be compelled under and pursuant to the provisions of title two of chapter nine of the Code of Civil Procedure.

SEC. 4. It shall be the duty of the present Counsel to the Corporation properly to protect, maintain and defend the interest of the city in relation to all matters before said Commissioners pursuant to the provisions of this act.

SEC. 5. Edward Cooper, the present Mayor; John Kelly, the present Comptroller, and Allan Campbell the present Commissioner of Public Works of said city, together with John S. Lawrence, George H. Andrews and Daniel Lord, Jr., of said city are hereby appointed Commissioners for the purposes of this act, with power to appoint clerks and stenographers. Notice of all meetings of said Commissioners given by publication in the *City Record* and the *Daily Register* in such form as they shall determine, shall be sufficient for all purposes, and such meetings shall be held as frequently as necessary for the dispatch of the duties hereby imposed upon them.

All meetings except for consultation and decision shall be public.

SEC. 6. A minute book shall be kept by them, or under their supervision, in which shall be entered a faithful record of all the proceedings of said Commissioners, which shall be at all times open to the public for inspection, and, on the final adjournment of the Commissioners, shall be filed in duplicate in the finance department and in the office of the clerk of the common council. The said Commissioners, or a majority of them, shall have full power to determine the order and manner in which cases shall be heard and in which evidence shall be taken; to decide all questions as to the competency, relevancy and materiality of testimony; to fix and limit the time within which evidence and argument in each case may be submitted; and generally, except as herein specifically provided, to determine and prescribe the mode and manner in which all proceedings taken before them, or under this act, shall be conducted. All evidence, whether offered on behalf of the property-owners, or the city, shall be submitted before July first, 1881, and the decision of the Commissioners, or a majority of them, in every case shall be rendered in writing on or before September 30th, 1881, on

which last-mentioned day the jurisdiction and authority of said Commissioners, under this act, shall cease, except as hereinafter otherwise provided.

The time for filing the notices provided by the 2d and 8th sections of this act, for the submission of evidence or for the making of a decision by the Commissioners, may be extended beyond the time herein specified by the Supreme Court in the First Judicial District in such manner and upon such notice as the Court may direct. In case of the death, resignation, refusal or failure to act, of any one or more of the aforesaid Commissioners, then, and in that case, every power conferred and every duty devolved upon said Commissioners shall be possessed and exercised by the remainder of said commissioners, or a majority of them, and a certificate signed and filed as herein provided, by such majority, shall be valid and effectual for every purpose of this act.

SEC. 7. The reasonable expenses of the proceedings authorized by this act, including compensation for the performance of the duties imposed thereby, shall be a charge upon the city of New York, as the same may be fixed and allowed by the Board of Estimate and Apportionment in said city, and shall be paid by the Comptroller of said city; provided that no compensation shall be allowed for services rendered therein by any officer of the city of New York during his term of office.

The Comptroller may provide the money to pay such expenses by the issue of revenue bonds of said city, and an amount sufficient to cover said expenses and to pay such bonds shall be included in the final estimates of said city for the years 1881 and 1882.

SEC. 8. The provisions of this act shall not apply to or affect any proceeding or action now pending, or in which the time to appeal has not expired, or in which the order or judgment has not been carried into effect; or any proceeding or action which may be commenced within three months after the passage of this act to vacate or set aside any of the assessments specified in the first section of this act heretofore confirmed, or any proceeding or action which may be commenced to vacate or set aside any of the assessments specified in the said first section hereafter confirmed as therein provided, brought within three months after the date of such confirmation, or the relief to which any party thereto is or may be entitled in any such action or proceeding under existing laws; provided that if any such proceeding or action is dismissed, or such relief refused, and it shall appear in the order dismissing or damaging such application, that such dismissal or denial is on account of some irregularity, technicality, informality, mistake or other omission or defect of form therein, in which cases it shall be the duty of the court to specify the same in such order, the party thereto shall be entitled to make such further or other applications as he may be advised, within twenty days after the date of an order directing such dismissal or refusal, and none of the provisions of this act shall apply to, or affect such further or other application so made for the purposes aforesaid, and further provided that if on a final decision in any such proceeding or action, now pending, or which may be commenced or renewed as aforesaid, the decision or judgment therein shall be in favor of the city, the petitioner or plaintiff in such proceedings or action may obtain the benefits of this act by filing the notice provided in the second section hereof, on or before the 1st day of May, 1881, and the said Commissioners shall thereupon proceed as if said notice had been filed, as in the second section provided.

SEC. 9. The bill of any assessment specified in the first section of this act, not vacated, reduced or set aside in any proceeding or action in the preceding section mentioned, or not vacated, revised or modified by the said Commissioners pursuant to the provisions of this act, shall not be disturbed, modified, or vacated, except in the manner and to the extent provided in the twelfth section of this act.

SEC. 10. Whenever, prior to the passage of this act, any assessment for any local improvement imposed upon any particular lot or lots has been paid in whole or part, and the assessment for such local improvement upon any other lot or lots shall be vacated, revised or modified by the Commissioners, as herein authorized, it shall be the duty of said Commissioners to award and adjudge to the person or persons by whom such payments have been made, their legal representatives or assigns, an amount equal to the amount of reduction to which such parties would have been entitled if they had not made such payment, the amount of which award shall be proportionately equal to the reduction upon other lots so revised or modified as aforesaid. The said Commissioners shall file in the township certificates in each case showing the amount of such awards, and the persons to whom the same are made; and the amounts thereof respectively shall thereupon become a charge against the Mayor, Aldermen and Commonalty of

the city of New York in favor of the respective persons to whom the same shall be made as aforesaid, and shall be provided for by the issue of assessment bonds of said city. Nothing in this section contained shall be held to apply where less than one-half of the entire expenses of the improvement assessed upon all the property deemed to be benefited thereby, exclusive of such portion of the expense of the improvement imposed upon said city, or its property, remained on the 1st day of May, 1880, a lien or apparent lien upon said property deemed to be benefited.

SEC. 11. The assessments heretofore made for local improvements in said city, including assessments for improvements heretofore contracted for or authorized, shall, when collected, be paid over to the Commissioners of the sinking fund of said city, and applied by them as now provided by law.

SEC. 12. No existing provision of law shall enable or permit any court to vacate or reduce any assessment in fact or apparent hereafter confirmed, whether void or voidable, on any property for any local improvement in the city of New York hereafter completed, otherwise than to reduce any such assessment to the extent that the same may be shown, by parties complaining thereof, to have been in fact increased in dollars and cents by reason of fraud or substantial error; and in no event shall that proportion of any such assessment which is equivalent to the fair value of any actual local improvement, with interest from the date of confirmation, be disturbed for any cause. Nothing in this section shall apply to any assessment which may be imposed for the local improvements known as Morningside avenue.

SEC. 13. All proceedings to vacate or reduce assessments in the city of New York, other than those specified in the first section of this act, must be brought within one year after the confirmation thereof.

SEC. 14. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

SEC. 15. None of the provisions of this act shall apply to any reassessment hereafter made or imposed for any local improvement for which an assessment has been or shall be vacated in whole or in part.

SEC. 16. This act shall take effect immediately.

THE NEW BUREAU FOR INSPECTION OF BUILDINGS.

The following is the new law abolishing the Department of Buildings and transferring its duties to a new bureau in the fire department:

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 76 of chapter 335 of the laws of 1873, entitled "An act to reorganize the local government of the city of New York," is hereby amended so as to read as follows:

§ 76. The fire department shall have for its head a board to consist of three persons to be known as fire commissioners of the city of New York, who, except those first appointed, shall hold their offices for six years, unless sooner removed, as herein provided. There shall be in this department four bureaus. One bureau shall be charged with the duty of preventing and extinguishing fires and of protecting property from water used at fires, the principal officer of which shall be called the "chief of department." Another bureau shall be charged with the execution of all laws relating to the storage, sale, and use of combustible materials, the principal officer of which shall be called "inspector of combustibles."

Another bureau shall be charged with the investigation of the origin and cause of fires, the principal officer of which shall be called, "fire marshal."

There shall also be in the fire department a bureau to be known as the bureau of inspection of buildings. All acts relating to buildings in the city of New York, and all acts and parts of acts relating to the department of buildings in said city, or prescribing, limiting, or defining the powers or duties of said department, or of any officer thereof, now in force and not inconsistent with this act are hereby continued in full force and effect, and the said powers and duties are hereby transferred to the fire department of the city of New York, and devolved upon the officers thereof. The said bureau of inspection of buildings, shall, under and subject to such rules, regulations, and orders as may be established by the board of fire commissioners, have charge of all matters relating to buildings and structures in the city of New York now by law devolved upon or required to be performed by the department of buildings. The affairs of said bureau shall be under the management of a suitable person who shall be known as the "inspector of buildings," who may be authorized by the board of fire commissioners to perform any duty, or to exercise any power or authority now by law conferred upon the superintendent of

buildings. The employees of said bureau, including the chief officer thereof, shall be appointed and removed and their salaries shall be fixed and paid in the same manner as other employees of the fire department are now appointed and removed, and their salaries fixed and paid. But an intention to reduce the force and expense of said bureau, or the clerical force of said department, shall be deemed sufficient grounds for the removal of any officer or employee of said bureau, except the chief officer thereof, and of any clerk in the department. The said fire commissioners are authorized to abolish any existing office, clerkship or employment in the department of buildings as now constituted, and they may consolidate the duties of any two or more bureaus, officers, clerks or employees of said department of buildings as now organized. The annual expense of said bureau for salaries, including the salary of the attorney to the fire department, shall not exceed the sum of \$40,000. All the officers of said bureau of inspection of buildings, except clerks and messengers, shall be either practical architects, house carpenters or masons, and shall have served a regular apprenticeship as such, and shall make an affidavit to that effect, which shall be filed in the office of the fire department before their appointment to office in said bureau, and all said officers, except the chief officer of said bureau, shall, before their appointment to office in said bureau, pass an examination before the board of examiners now by law established for the examination of officers of the department of buildings, and shall furnish a certificate of such examination from said board certifying to their competency to perform the duties of said office, which certificate shall be filed in the office of the fire department. It shall not be lawful for any officer or employee of said bureau to be engaged in conducting or carrying on business as an architect, carpenter, mason or builder, while holding office in said bureau. The commissioners of the fire department, or a majority of them, may appoint a person regularly admitted to the bar, and practicing in the city of New York, to be attorney to the fire department. He shall perform all the duties now required of the attorney to the department of buildings, and shall also perform such other duties connected with the fire department, as attorney, as may be required of him by the board of fire commissioners. His salary shall be paid as the salaries of other officers and employees of said department are paid. He shall be removed for cause, and after an opportunity to be heard.

It shall be the duty of the superintendent of buildings, or other officer in charge of the department of buildings in the city of New York, forthwith to turn over to the board of fire commissioners all books, papers, records, property, leases, monies, accounts, claims and things of every kind and description, belonging to or in the custody of the department of buildings or any officer or employee thereof. Thereupon and within ten days after the passage of this act, the office of superintendent of buildings in said city shall cease and determine, and the department of buildings shall be abolished.

THE SALE ON RIVERSIDE AVENUE.

An unusually fine block is to be offered at auction, on Tuesday, the 8th, by Mr. Harnett. It lies on the Riverside avenue, Eighty-eighth and Eighty-ninth streets, and the Eleventh avenue, and contains fifty lots. The sale is by the direction of the Supreme Court, and is to be absolute to the highest bidder. The Mutual Life Insurance Company will take mortgages for one-half the purchase money from purchasers whose bonds are approved. Such a sale will be a very fair test of real values, and will afford to cash purchasers and investors a good opportunity to acquire now very valuable property in a location, which will ultimately reach the highest valuation of any property on the West Side. At a sale, put forth as this is, the purchasers have the advantage of fixing their own prices for property of the best quality, free from the excitement of speculation and the uncertainties of private contract.

Riverside avenue in front of these lots has an elevation of 75 feet above the river, and commands the view both toward the North and the South. The maps of the sale present a novelty in the way of illustration. They exhibit accurate landscape views, up and down the river, lithographed from sketches made on the spot by I. Wrey Mould, the architect and artist, so that when the purchaser stands in the auction room he can take in the whole of the beautiful scenery, and almost feel the breezes from the river. These maps alone, which are freely distributed at Mr. Harnett's office, are worth preserving, as artistic souvenirs, by every one interested in West Side property.

The opening of the Riverside avenue to the public has shown them how matchless and unique this location is. It brings into the very city all the breadth of prospect, freshness and healthfulness of a summer residence on the banks of the Hudson. The dust, which incommoded visitors at first, has been laid by the rolling and watering of the avenue, and it is now the coolest and pleasantest drive to be found.

On one portion of this block stands the old Howland Mansion House. The western portion of the block is elevated above grade, and the eastern portion toward Eleventh avenue is a few feet under the grade. The western portion is covered with the old trees that stood around the mansion, and the eastern portion is occupied as a garden.

MARKET REVIEW.

For list of lots and houses for sale see pages iv and v of advertisements.

REAL ESTATE MARKET.

The auction sales during the week created but little interest, and only attracted the attention of the regular frequenters of the Exchange. Some of these gentry had their fun occasionally, when the determined plaintiff in a foreclosure sale of Eighty-seventh and Eighty-eighth street lots, near Ninth avenue, was suddenly thrown off his pins by a bid which added \$10,000 to the offer previously made for a plot of sixteen lots. All was taken in good part, however, but for the credit of the market, Mr. Plaintiff was not permitted to run off with his lots as easily as he had imagined. Four lots on One Hundred and Sixteenth street, between Tenth and New avenues were sold by Mr. John T. Boyd, for \$7,100. Pier, bulkhead and water right property on East River, Broome street, was disposed of at a very low figure by A. H. Muller & Son. Mr. Harnett sold, on Thursday, some vacant lots on One Hundred and Twenty-third and One Hundred and Twenty-fourth streets, particulars of which will be found at foot.

The great auction sale of Riverside avenue lots, on Tuesday, is commented on at length elsewhere, and it is generally believed that the sale will be a success. On Thursday of the following week, Mr. Harnett will sell, by order of the United States Trust Company, fifty-two lots along Tenth avenue, One Hundred and First and One Hundred and Second streets. The sale will be conducted upon terms acceptable to buyers, and, while we intend to speak more at length of this offering in our next issue, we merely desire to state here, that this sale comprises two entire fronts on Tenth avenue, several street lots, and also desirable corner lots.

GOSSIP OF THE WEEK.

The market continues strong, so far as the views of owners are concerned, but there is an absence of all speculative feeling. The transactions at private contract are less numerous, owing to the fact that we are on the eve of midsummer, when capitalists decline to come to town and take title for anything they may contract for at this time. The outlook for the fall business is, however, already being seriously canvassed. Mr. C. W. Luyster, a successful builder, said to the writer, yesterday, that, so far as his information gave him any indication for the fall outlook, there would be a greater demand for first-class houses than there had been for some time. He mentioned several instances where capitalists would have been ready to buy now, but for the near approach of midsummer and their unwillingness to lose the interest of their money during that time. In this connection he brought out the fact that those who purchase expensive houses generally do so in the fall of the year, when most of their leases expire; while those who only want \$20,000 or \$25,000 are generally to be met with in the spring season.

Owners of property along Seventh avenue and Broadway look with considerable satisfaction at the progress being made on the nine lots, secured for the American Tattersall, at the northwest corner of Fiftieth street. The rock is off, and operations are continued with great energy. It will be remembered that Mr. William K. Vanderbilt leased the ground to the new Tattersall Association, which fixes that locality for business of excellent character, especially as it is in the immediate neighborhood of Brewster's great carriage factory, thus forming a centre where wealth and luxury will have to congregate for business purposes.

The houses built by the Messrs. Ruddell in Fifty-third street, between Fifth and Sixth avenues, and recently described in these columns, have all been sold.

Mr. Bernard Spaulding has sold a twenty foot house on the north side of Sixty-fifth street, between Madison and Fifth avenues, for \$40,000.

Messrs. Siegmund T. Myer & Son have sold, at private contract, No. 39 East Sixty-second street, 18x100, for \$20,000. The same firm has sold two vacant lots on the east side of Madison avenue, between Seventy-ninth and Eightieth streets, for \$30,000.

Messrs. Mordecai & Bellamy have sold at private contract one lot on the south side of Sixty-fourth street, 125 east of Madison avenue, for \$16,000, all cash.

Ex-Mayor Smith Ely, Jr., has sold three lots on the west side of Ninth avenue, between One Hundred and Sixth and One Hundred and Seventh streets, for \$2,500 each, to Mr. R. R. Hamilton. The ex-Mayor has also sold a single lot on the west side of Second avenue, near One Hundred and Twentieth street, for \$3,600.

Mr. Wm C. Lester has sold the northeast corner of New avenue and One Hundredth street, 20 feet on the avenue, for \$4,000.

Messrs. Benner & Zeller have sold at private contract a cottage and stable with four and a half lots on the southeast corner of Sixth avenue and One Hundred and Sixty-third street (Twenty fourth Ward) to Mr. B. Fitzpatrick for \$3,500. The same firm has sold No. 163 Chrystie street, being a three-story and basement brick front and three four-story brick houses (lot 25x146), for Mr. S. H. Hills, to Mr. Geo. E. Long, of Jersey City, for \$14,250. Nos. 15 and 17 Broome street, Brooklyn, have also been sold by the same firm during the week for \$4,000.

The following are the sales at the Exchange Sales-room for the week ending June 4:

* Indicates that the property described has been bid in for plaintiff's account:

Barrow st (No. 15), s s, 111.9 w 4th st, 25x81.1, three-story brick dwell'g and two-story brick stable. E. A. Day. (Amount due, abt \$5,600).....	\$7,800
*Front st (No. 202), n w s, 23.4x73.6. Eliza L. Arcularius (extrx.) (Amount due, abt \$19,700).....	11,500
*Prince st (No. 21), n s, 20x—. French Benevolent Society. (Amount due, abt \$3 650).....	4,100
*Prince st, n s, 60 e South 5th av, 40x71.3. Henry Hilton. (Amount due, abt \$27,750).....	12,250
*12th st, n s, 34 e Av B, 25x103.3. Henry Meigs, Jr., et al. (trustees.) (Amount due, abt \$6,500).....	6,000
14th st (No. 518), s s, 271 e Av A, 25x103.3, five-story brick store, and five-story brick tenement in rear. Dennis Smith. (Amount due, abt \$11,650).....	11,100
26th st, n s, 26 e 3d av, 25x98. H. E. Peters. (Morts. \$8,500).....	15,000
33d st, n s, 259 e 2d av, 16x98.9. John P. Janinski (party in interest.) (Amount due, abt \$2,500).....	5,070
36th st (No. 243), n s, 341.6 e 8th av, 18.6x98.9, three-story brick dwell'g. Beldie Kramer. (Partition sale).....	6,450
*36th st, n s, 208.4 e 9th av, 16.8x98.9. German Savings Bank. (Amount due, abt \$5,700).....	5,000
*76th st, s s, 2.0 w Av A, 50x102.2. Elizabeth and Joseph Orr (exrs.) (Amount due, abt \$3,200).....	4,550
*76th st, n s, 388 e 1st av, 25x102.2. Elizabeth and Joseph Orr (exrs.).....	2,500
*87th st, n s, 125 e 9th av, 125x100.8, vacant. John Weber.....	20,000
*88th st, s s, 125 e 9th av, 400x100.8, vacant. John Weber.....	72,526
106th st, s s, 100 e 4th av, 50x111. Lambert Suydam. (Morts. \$1,073).....	5,573
116th st, s s, 100 e 10th av, 100x100.11, vacant. David King. (Amount due, abt \$4,400).....	7,100
123d st, n s, 215 e 4th av, 75x100.11, vacant. James Lynch.....	5,300
124th st, s s, 315 e 4th av, 50x100.11, vacant. Timothy Donovan.....	8,950
*184th st, n s, 200 e 10th av, 200x99.11. Harriet Townsend.....	100
*185th st, s s, east of Public drive, runs east 270 to Harlem River x99.11. Anna M. Hawkins.....	300
*185th st, s s, 200 e 10th av, 250x99.11. Eliza A. Cutter.....	1,741
Pallsade av, w s, adj land of Isaac G. Johnston, runs west 342 to Hudson River, x south 495 x 240 to Pallsade av, x north, in two courses, 440 to beginning, 2 56-100 acres.....	
Also about 39 1/4 acres on Riverdale and Johnston avs and Kingsbridge road.....	
Mary E. Cox. (All title).....	450
Washington av, n e cor 166th st, 50x100. William H. Payne.....	3,000
Pier 57, north half of and south half of Pier 58, East River, bulkhead 215 feet on East st, bet Broome and Delancey sts, with water right. Robert Irwin. (Partition sale).....	28,000

Total.....\$245,860

BROOKLYN, N. Y.

In the City of Brooklyn, Messrs. T. A. Kerrigan and J. Cole have made the following sales for the week ending June 2:

*Commerce st, extdg from Van Brunt to Imlay st, 180x100. Jane A. Tamajo.....	\$21,000
*Conover st, w s, 60 s Elizabeth st, 20x80. William Cutting et al. (exrs.)	1,140
Conselyea st, s e s, 100 n e Central av, 25x abt 109.7. Gustav A. Schnepf	100
*Dean st, n e s, 500 s e Vanderbilt av, 25x120. Ann M. Van Pelt	1,000

*Lexington av, s s, 110 e Stuyvesant av, 20x 100. William Alexander	30,000
Total	\$61,945

BUILDING MATERIAL MARKET.

BRICKS—Common Hards continue to find a very dull and unsatisfactory market, with prices generally tending downward, and another reduction made in the entire line of cost. Arrivals have continued free, and from pretty much all points along the line of the Hudson, including supplies of both old and new stock, and, while some purchases were made daily, the demand did not show sufficient animation to prevent an accumulation of unsold cargoes, and holders have found it necessary to continually shade on value in order to secure customers. From very evident signs in many quarters there appears to be little doubt that a great number of brick will be wanted, but, as yet, the preparations are not forward enough to reach actual consumption, and buyers feel safe enough in standing off until they really want the supplies. Quotations are somewhat irregular, but in a general way may be placed at \$5.00@5.25 for "Up Rivers" and \$5.75@6.50 for Haverstraws, or possibly \$6.75 for choice. The strike is considered as entirely over, and all the yards are now understood to be at work and the production full. We hear of a few Jerseys at hand and valued nominally at \$4.50@5.00 per M., according to quality. Pales have sold to some extent, but not enough so to maintain values, and the line of valuation is reduced to \$3.75@4.00 per M., with \$4.25 for the best. Fronts are quiet and without a fixed line of value at the moment.

HARDWARE.—There does not appear to be much if any relief for the holders of supplies on this market. The demand from all quarters is very cautious and very moderate, with no indication that any immediate improvement can be expected, while the stocks on hand are full and owners pretty anxious to see some of them going out. Prices are without any steadiness, and generally only nominal "list rates" at present, meaning simply an asking line of figures, and not what would in all probability be accepted. The manufacturers of Iron Wire have reduced their prices, Bright and Annealed, Nos. 0 to 18 quoted 40@42½¢ cent. discount. The cost of Clark's Nos. 1, 3 and 5 Blind Hinges has been changed from 50 and 10 per cent. to 60 and 10 per cent. discount. Burden's shoes have been reduced to \$1.25 for horse, and \$5.25 for mule, free on board at Troy.

LATH.—There is no great change on the situation for the week. Arrivals have been rather moderate, and the amounts due are said to be small, but the demand has scarcely developed the animation hoped for, and sellers gained no advantage. A fair accumulation of stock is in dealers hands, and this supplies the current call for consumption, and holds in check additional demand for cargo lots. As with many other building materials, lath have a good prospective consumption, but at present move out slowly. About \$1.50 per M appears to be the general quotation.

LIME.—The market has declined. Demand was not over free, the supply fair, and rather than allow an accumulation, it was deemed judicious to modify the cost somewhat, with the figures marked down to 90c. on common, and \$1.00 on finishing for Rockland. These rates, it is thought, must have a tendency to greatly curtail shipments, as manufacturers were grumbling over the want of margin before the shading took place. State common, worth about 85c., but Jointa selling at \$1.10, as this has an outlet independ-

ent of the building trade, which about exhausts the supply.

LUMBER.—The variations continue moderate but principally in favor of the buyer, and the market appears to be settling off somewhat from extreme points generally. The flush of the demand, in fact, has evidently passed, and, while a market for liberal amounts of all kinds of lumber could still be found, the necessity for securing the stock is less urgent and the inquiry is made with corresponding caution. In place of a hook full of orders, awaiting their turn and ready to exhaust anything merchantable, receivers are now frequently compelled to look up customers, and, of course, this makes quite a difference in the tone. From such primary points as our market may be considered directly dependent upon, the advices are still pretty firm, but some "signs" from the interior are thought to be of a weaker character, and a few of our dealers predict that the Chicago drop on prices will, in the end, be discovered to have been at the worst only a little premature.

Spruce has continued rather easy in tone and it appears has touched even lower rates than noted in our last, some of the poorer randoms selling at \$14 and only extra choice lengths, etc., exceeding \$15. The pressure, however, has been in a measure relieved and this brings the position into steadier shape again without increasing the demand. Buyers, indeed, are in many cases assuming indifference in view of temporary light wants and expect to secure further gains during the present month. Of course, the advices from the East report light shipments. They always do so. There is, however, no good reason to expect any decided scarcity for some time to come.

White Pine has met with about the same average demand; a good, fair amount going out on home account, but the movement not increasing, as some of the principal consumers continue to receive direct. Exporters have afforded an outlet for a little more than was expected in some cases, and they confine themselves pretty closely to actual orders and these are not plenty at the moment. Accumulations moderate and well under control. Accounts from the interior continue somewhat irregular and occasionally decidedly conflicting, but there appears to be no stock within reach of this market except at extreme figures and owners still talking indifferently. We quote at \$17@19 per M. for West India shipping boards; \$23@24 for South American do.; \$15.50@16.50 for box boards; \$17@18 for do. wide and sound do.

Yellow pine remains quite firm for immediate or near-by future deliveries, and desirable parcels will command full former rates quite readily on contracts for more distant dates, however the terms have eased off a trifle as the mills commence to see the end of their line of orders in some cases, and there is a natural anxiety to secure fresh engagements. It is claimed that the reaction must be small, as this class of lumber failed to secure an advance corresponding to that on other grades. We quote random cargoes at about \$24@26 per M.; ordered cargoes, \$25@27 do.; green flooring boards, \$2 @27 do. and dry do. \$26 @28. Cargoes at the South \$16@18 per M. for rough, and \$22@24 for dressed at Atlantic ports; \$15@16 for rough, and \$20@22 for dressed at Gulf ports.

Hardwoods continue in good local demand, and all the leading styles in desirable condition are closely sold up. Some small foreign orders have been filled, but most of the export is on through shipment. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chest; nut, 1st and 2d, \$30@35; do. do. culls, \$18@20 do cherry, \$45@75 do.; white wood, ½ and ¾ inch, \$25 @27.50, and do. inch, \$33@35 do.; hickory, \$35@45 do. for Western, and \$65@75 for good nearby stock.

Yard business is generally in good shape, a pretty full amount of stock going out from day to day and commanding extreme rates. Accumulations only fair.

From among the lumber charters recently reported we select the following:

A Nor bark, 437 tons, from St. John, N. B. to Rotterdam, deals, 65s.; an Ital bark, 423 tons, from St. John, N. B. to Marseilles, deals, 70s.; a Br bark, 847 tons, from Doboy to a direct port United Kingdom, hewn timber 36s. and sawn 11s.; a bark, 517 tons, from Union Island to Montevideo or Buenos Ayres, lumber, \$18.50 net; a Ger bark, 4,700 tons, from Philadelphia to Rio Janeiro, lumber and coal, \$3.75; a bark, 350 tons, from River St. Lawrence to Montevideo, for orders, to the River Plate, lumber, \$17 net; a Nor bark, 437 tons, from Brunswick to Algoa Bay, lumber, \$9 15s.; a schr, 316 tons, from Wilmington, N. C. to Porto Rico, lumber, \$10.50; a schr, 218 tons, hence to Wilmington, N. C., private terms. thence to Hayti with lumber, \$11, and back to New York, logwood, \$5; a Br brig, 220 tons, from Bear River, N. S., to Jamaica, lumber, \$7.25; a schr, 110 tons, from St. John, N. B., to New York, lumber, \$4; a Br brig, 316 tons, from Darien to Yarmouth, N. S., lumber, \$10; a schr, 100 M. lumber, from Charleston to Philadelphia, \$6.50; a schr, 300 M. lumber, from Pascagoula to New York or a Sound port, \$9.25; a schr, 224 tons, from Richmond to Perth Amboy, ties, 17c. f. o. b.; a schr, from Pocosin River to New York, ties, 20c.; two schrs, from Richmond to New York, ties, 16c.; a schr, 260 M. lumber, from Brunswick to New Haven, \$7.50; a schr, 130 M. lumber, from Jacksonville to Baltimore, dry boards, \$7.75; a schr, from Norfolk to New York, lumber, \$3.50; a schr, 310 M. hard pine lumber, from Brunswick to Portsmouth, N. H., \$7.62; a schr, 200 M. hard pine lumber, from Port Royal to Boston, \$7.50; a schr, 350 M. hard pine lumber, same voyage, \$7.50; a schr, 150 M. lumber, from Norfolk to New London, \$3.65; a schr from Norfolk to New York, white oak ties, 17c., and lumber \$3.60.

Exports of lumber from the port of New York:

	This Week.	Since Jan. 1, feet.

Europe, United Kingdom	177,000	3,744,795
Total	690,592	28,580,842

GENERAL LUMBER NOTES.
STATE.

The Albany lumber market, for the week ending June 1st, is reported by the *Argus* as follows:

Pine lumber has been in free receipt since our last report, and for the next ten days large receipts are expected; these arrivals will probably cover all of the dry lumber we shall have this season. We have some addition to stock, including much that is of choice quality. Trade has been fair during the week, at unchanged quotations. Decoration day acts upon our market much as does Independence day, checking business both in the shape of orders and in attendance of buyers.

Coarse lumber has been in free receipt, but not enough to supply the demand; prices are steadily maintained; we have not any accumulation of stock.

We have no reports of receipts or shipments of lumber at Chicago; there does not appear to be any disposition now, as in former years, to give us any figures of the movement of lumber in that market.

The receipts of lumber by lake at Buffalo for the week are 5,317,800 feet; by rail 42 car loads. At Oswego, 5,443,000 feet.

Freights from Bay City to Buffalo and Tonawanda, \$1.50 @ M. feet; from Saginaw, \$1.75. From Buffalo to Albany, \$2.75; from Tonawanda to Albany, \$2.50; @ M. feet. Lake Ontario freights to Oswego, 90c @ \$1.00 @ M. feet, and from Oswego to Albany, \$1.75 @ 1.35. From Ottawa to Albany, \$3.75 @ M. feet, and boats very scarce.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette,

BAY CITY, May 31, 1880.

There is no apparent change noticeable in the market on the river, it remaining about as before. There is a good demand for lumber, but mostly in small lots. There are at present no visible signs of a falling off in prices, the certainty that the eastern market will need very much more stock to meet the demands made upon it, which stock must come from this district, gives manufacturers confidence in the maintenance of fair prices. They are, therefore, not inclined to do anything to disturb the natural adjustment of prices. There being as yet no accumulations of lumber at the east which would render a concession necessary, no disposition is shown to make any; it will be time enough for that when the situation requires it. The demand about equaling the supply, going to the sections on which the valley depends to absorb its production, there is no present cause to anticipate a decline. Sales of 1,000,000 feet at \$6.50, \$13 and \$30 500,000 at \$7, \$14 and \$30, a lot of uppers at \$30, 300,000 feet at \$6.50, \$13.50 and \$20, and several smaller lots at \$7, \$14 and \$30 are noted. The sale of yard lots for shipment by rail is quite active.

Shingles are in fair request and quite an amount of trade is done. The common price for the better grades is \$1.90@2 for clear butts and \$2.90@3 for XXX.

Logs are being delivered freely to the mills and the saws are running freely. The Tittabawassee boom company rafted 45,602 pieces last week, and for the season 558,746.

Freights by water are low enough, in all conscience, being \$1.50 from Bay City to Buffalo and Tonawanda, and \$1.25 to Ohio ports, with 12½ to 25 cents added from Saginaw.

The shipments from the river by water for the week ending May 29th, were as follows:

	Bay City.	Saginaw.	Total.
Lumber	14,967,885	6,502,000	21,469,885
Lath	352,650	226,000	578,650
Shingles	650,000	1,000,000	1,650,000
Hoops	650,000	650,000
Oak Staves	40,000	40,000

We quote cargo rates:

Three upper quantities	\$28 00@32 00
Common	13 00@15 00
Shipping culls	6 50@7 50
Lath	1 25@1 50
Shingles, XXX	2 85@3 00
clear butts	1 85@2 00

OFFICE OF LUMBERMAN AND MANUFACTURER, }
MINNEAPOLIS, Minn., May 7, 1880. }

Piece stuff stands at \$7.75 and boards \$10 on the auction market by the lake. The nervousness among the lumbermen of the West consequent on the recent actions at Chicago has about all passed away, as it is rapidly becoming apparent that the bears of Chicago have gone nearly the length of their tether. Still it is not to be denied that there is gravity in the situation when Chicago is receiving 42,000,000 feet per week and selling only 12,000,000, with the comparison showing a large falling off on last year's business. The heavy manufacturers of the Northwest are hurrying forward to their yards below very large amounts of lumber, but dealers who depend on the market for supplies are buying very cautiously at rates which correspond with the figures at Chicago. The river line of mills are being run to their capacity, and more lumber has reached the pile than ever was known before in the month of May.

The raft lumber trade on the river is dull at about \$10, \$11 and \$12 for ordinary stocks. The business at the main booms is lively. The crews at Stillwater have been doubled up and are now turning out 5,500, 000 feet per day. Beef Slough reaches 4,000,000, and La Crosse 1,500,000 per diem, which are all being distributed to the mills as rapidly as the fleet of steamers can do the work.

The shipments over the Lumber Line from Wisconsin to the Southwest continue heavy, while the sales from Stillwater and Minneapolis continue at a maximum, with prices firm for all kinds of lumber fit to ship. Although the outlook is most encouraging in the Northwest, sales have fallen off somewhat at St. Louis during the week, but still leaving a fair business, considering the situation on the lakes. No alteration made in price list this week.

The Northwestern Lumberman as follows:

CHICAGO, May 26, 1880.

The strong south wind which has prevailed for the last few days kept this week's fleet of lumber laden vessels from reaching port at the usual time, and, in consequence, the market has been but poorly supplied with cargoes. From eight to a dozen loads have been offered each day, and generally disposed of early in the forenoon. There has been no particular change in the condition of prices, but the feeling is plainly firmer and the demand stronger than it was last week. This effect may be due to comparatively small receipts, but whatever it proceeds from it is one which everybody but the bears regards with satisfaction. The range of prices quoted last week has been maintained, in most instances, without difficulty. Standard piece stuff is firm at \$8 under the limited offerings available, and inferior grades bring \$7.50 and 7.75 already. Common inch lumber is steady at \$9.50, and the better grades range up to \$16 and \$18, according to quality. Good lumber generally commands a fair price. Shingles have been sold within the past two or three days at \$1.90@2 for standard and \$2@2.25 for extra A. Latb are steady at the old range of \$1.50 and \$1.75.

The general feeling among the commission men is one of hopefulness. The fact that trade from the yard is noticeably improving inspires them with more confidence in the future than they have had lately. It is also true that the producers are not weakening any, but are rather firmer in their views, if anything. Authentic reports from Manistee and Ludington state that the mill men there are fully determined not to ship piece stuff unless it will fetch \$8, and even some of the dealers here are beginning to believe that it will not be sold on the market below that figure this season. It is also claimed regarding this particular kind of stuff, that the supply this year will be much smaller than usual in proportion to the quantity of lumber received. The mills are now making less of it than usual, and will continue to do so, because their logs are of such good quality that they can be cut into inch lumber, and sold for more money. That this will have the effect of making dimension lumber scarce and high, however, need not be feared. There will be piece stuff enough to supply everybody's wants—at \$8 or over.

According to all accounts, there has not, as yet, been much lumber held back at the mills because of the low prices' ruling here, which would apparently indicate that the mill men now get something more for their lumber than it costs them. Compared with prices at the yards, and those that are received for lumber in markets which compete for the same trade as Chicago, the ones current at the cargo docks are not nearly so bad as they might be. If they suffer no further decline, sellers will have little reason to complain of them.

FOREIGN.

By this week's steamer we have A. C. Nathan & Co.'s Rio Janeiro circular which reports as follows:

Pitch Pine Deals.—The arrivals have been 156,055 feet per Oma from Fernandina, supposed to be sold at 31\$000 per dozen, 402,322 feet per George Peake from Brunswick, reported to be sold at 30\$000 per dozen and 259,987 feet per Tbeta likewise, from Brunswick which were sold at 31\$500 per dozen.

Owing to the fact that very few cargoes are expected we look for higher prices specially in August and September if not before, and we quote to-day 32\$000 per dozen 3x9x14 feet, market steady.

Spruce Pine Deals.—None in the market; we quote 29\$000. Flat.

White Pine Lumber.—The arrivals and sales have 39,768 feet per J. B. S. from New York, 62,321 feet per David Stewart from Baltimore and 5,092 feet per Walky from New York.

The market closes firm at from 90 rs. to 100 rs per foot, between which range above parcels were sold.

The Timber Trades Journal, of May 22d furnishes the following:

LONDON.

The past week has been prolific in arrivals, chiefly from the Swedish lower ports; these, with the Baltic and east country cargoes, have helped to swell the total now in the Surrey Commercial Docks. There have been one or two pitch pine arrivals, and a large vessel, the Magna Charta, hailing from St. John, N. B., has just discharged a cargo of mast pieces of great lengths and some fine beam timber from Vancouver's Island. A small portion of the timber looked somewhat stale, but otherwise there was nothing to complain of. The lengths and quality of the stuff were fairly good, and beyond the seeming defect we have named the cargo taken altogether appeared a very fine one.

LIVERPOOL.

Business during the past week has been almost suspended, owing to the holidays, and there is but

little chance of any revival now during the present month. Should the differences between the workmen and employers of labor in the cotton manufacturing districts be even speedily settled, it will take no inconsiderable time to restore the recent position of the timber trade to its level.

There is yet a want of a healthy tone in the market, as the real demand for nearly all wood goods is limited, and buyers will only make their purchases in small quantities sufficient to meet their most pressing wants.

THE TYNE.

American goods continue in fair demand, and fully maintain their prices. These are principally used by shipbuilders, and as the trade continues moderately brisk it may be fairly assumed no reduction will take place.

GLASGOW.

Consequent on recent public sales of wood goods, deliveries from the Greenock ponds and from the depot at Yorkhill Wharf here have been pretty actively going on; this applies more especially to the deal yards, which are now assuming quite a bare appearance—a very satisfactory condition in the near prospect of fresh imports. The present state of stocks as regards North American goods presents a contrast to the condition they were in a year ago, as the supplies then on hand from former imports were in general so ample that little room was left for fresh arrivals. A comparative statement will be given next month, showing the difference in detail.

METALS.—COPPER.—Ingot has sold to some extent but at very irregular rates. The general tendency, however, was downward, under some pressure to realize. As we close, the quotations given are 18½@18¼c.

for Lake. Manufactured copper has a moderate and spasmodic sale only, and values about as before. We quote as follows: Brazier's Copper ordinary size over 16 oz per square foot, 31c. per lb; do do do, 16 oz and over 12 oz per square foot, 33c per lb; do do, 10 and 12 oz, per sq foot, 35c per lb; do do, lighter than 10 oz per sq foot, 37c per lb; circles less than 84 inches in diameter, 34c per lb; do 84 inches in diameter and over, 37c per lb; segment and pattern sheets, 34c per lb; locomotive fire box sheets, 31c per lb; Sheathing Copper, over 12 oz per sq foot, 29c per lb, and Bolt Copper, 31c per lb.

IRON.—Scotch Pig has been offered with some freedom, and it is thought, at a pretty low figure, in a quiet way, but buyers not appreciative, and business dull and unsettled; quoted at about \$19.50@23.50 per ton, according to brand and quantity. American Pig has a somewhat uncertain market. Holders talk steadily, but the buyers seem to consider the chances favorable for another break, under the belief that considerable speculative stock must be thrown over. They therefore stand off and bid only upon parcels required for absolute necessity. We quote at \$24.50@25 per ton for No. 1; \$22@24 do for No. 2; and \$20@21 for No. 3. Rails have found a better demand and firmer market in view of indications that importations are likely to be checked. We quote at \$47@50 for iron and \$60@65 for steel, according to delivery. Old Rails \$25@26 per ton; scrap \$23@25. Manufactured Iron has sold very well indeed, dealers say the distribution is quite equal to the average for the season, but the offering is quite liberal, everyone with stock anxious to sell, and values very uncertain. Nominally we quote Common Merchant Bar, ordinary sizes at 27 @2.8c. from store, and Refined at 28@2.9c.; wrought beams at 3.9@4c. Fish plates quoted at 3.4c.; track bolt and nuts, 4.2c., railway spikes, 3½@3¾c., tank, 4.2c.; horseshoe, 4 1c.; angle, 3 7c.; best flange, 5.7c.; and domestic sheet on the basis of 4@4½c. for common Nos. 10@20. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars.

LEAD.—Domestic Pig has sold moderately and mostly in a jobbing way, with the offering of stock fair and rates pretty easy to quick buyers. We quote 4½@4¾. The manufactures of lead are steady and quoted: Bar, 7c.; Pipe, 7c., and Sheet, 7½c., less than the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 40c. on same terms. **TIN.**—Pig in moderate, uncertain demand and the undertone weak on all grades. We quote 15½@1 7½c. for Australian, 15¾@16c. for Straits, 15¾@15½c. for English Refined, 15½@15¾c. for do. Common. Tin Plates have found a dull market and rather weak prices with quite enough stock offering for all likely calls. We quote I. C. Charcoal, third cross assortment, \$6.50@6.62½ for Allaway grade, and \$6.62½@6.75 for Melyn grade; I. C. Coke \$5.00@5.25 for B. V. grade; 5.12½@5.37½ for Yspitty grade; Charcoal terne \$6.00 @6.37½ for Allaway grade, 14x20; \$13.50@13.62½ @6.37½ for 20x28; Coke terne, \$5.25@5.37½ for Glais grade, 14x20, and \$12@12.12½ for do., 20x28—all in round lots. Spelter has been offered with some freedom and received with market still quite unsettled. Quoted at about 5½@5¾, according to brand. Sheet zinc selling slowly on the regular outlets with the tone of the market easy. We quote at 7¼@7½, according to quantity.

The annual report of the Secretary of the American Iron & Steel Association furnishes the following comparative statistics of production:

	1879.	1878.	1873.
	Tons,	Tons,	Tons,
	2,000 lbs.	2,000 lbs.	2,000 lbs.
Pig iron.....	3,070,875	2,574,361	2,868,278
All rolled iron, including nails and iron rails....	2,047,484	1,555,576	1,837,840
All rolled iron, including nails, excluding rails....	1,637,324	1,232,686	1,076,368
Bessemer steel rails....	643,964	550,393	129,015
Open hearth steel rails..	9,149	9,937
Iron and all other rails..	420,160	322,890	761,062
Rails of all kinds.....	1,113,273	982,685	896,077

	1879.	1878.	1873.
	Tons,	Tons,	Tons,
	2,000 lbs.	2,000 lbs.	2,000 lbs.
Crucible cast steel.....	56,780	42,906	34,786
Open hearth steel.....	55,290	35,136	3,500
All other steel.....	5,444	8,556	13,714
Bessemer steel ingots...	928,972	732,226	170,652
Blooms from ore and pig iron.....	62,353	50,045	62,564
Spiegeleisen, including pig iron.....	13,931	10,674
Cut nails and spikes, incl. in all rolled iron, kegs.	5,011,021	3,396,130	4,024,701

Production of pig iron, classified:

Years.	Anth.	Charcl.	Bitum.	Total.
1879	1,273,024	358,873	1,438,978	3,070,875
1878	1,092,870	293,349	1,191,092	2,577,361
1877	934,799	317,843	1,561,945	2,314,585
1872	1,369,812	500,587	984,159	2,854,558
1869	971,150	392,150	533,341	1,916,641
1859	471,745	281,041	81,841	840,627

NAILS.—Demand does not as a rule, improve, and the aggregate movement of supplies keeps within the bounds of the amount for some time handled. Buyers seem to think that stock for present use is enough for them to carry and they will not operate beyond. Accumulations in first hands ample for all wants. We quote nominally 10d to 60d, common fence and sheathing, per keg, \$3.10; 8d and 9d, common do, per keg, \$3.25; 6d and 7d, common, do per keg, \$3.50; 4d and 5d, common do per keg, \$3.05; 4d and 4d, light, per keg, \$4.60; 3d, fine, per keg, \$5.85; 2d per keg \$3.35.

Cut spikes, all sizes, \$3.35. Floor casing and box, \$3.75@4.50. Finishing, \$4.00@4.75.

CLINCH NAILS.

1½ inch, \$5.50@5.65; 1¼ inch, \$5.25@5.35; 2 inch, 5.00@5.15; 2½ inch, 4.75@4.85; 3 inch and longer, 4.50@4.60.

PAINTS AND OILS.—Business is not altogether satisfactory and we hear more or less complaint from the Trade in general. Considerable stock seems to sell, but it goes out in an irregular manner and the line of cost in most cases favors the buyer rather than the seller. The general tendency is evidently to allow supplies to remain as near first hands as possible until required for positive and immediate use. Linseed oil has also been dull and rather heavy. Supplies are full and show some tendency toward further accumulation, and as this brings additional weight upon the market buyers are inclined to hold off. Quoted at 65@68 from crushers' hands.

PITCH.—The movement much the same as usual and the market without new features worthy of note. Cost undergoes no decided change. We quote at \$2@2.15 per bbl. for city delivered.

SPIRITS TURPENTINE.—Buyers have again moved slowly and cautiously and the demand lacked vigor. Stocks, however, pretty well together and holders inclined to firmness, especially as the Southern markets have lately developed greater strength. As this report is closed, the quotation stands about 26@27c. per gallon, according to the quantity of stock handled.

TAR.—Demand somewhat moderate and careful, but with small supplies under fair control holders are more or less indifferent about offering and former rates are quite generally asked. We quote at \$2@2.25 per bbl. for Newberne and Washington, and \$2@2.25 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date
